# Northern & Southern Saskatchewan

1953 - 54

Published by
OVERGARD DIRECTORIES
Regina, Sask.

A Dependable Service:

By special request we have listed both northern and southern Saskatchewan towns, villages, hamlets and country post offices in alphabetical order. To give this additional service it has been necessary to compile two volumes.

The extra coverage for our Regina subscribers include the Yorkton and Melville districts with listings of Yorkton and Melville, including house numbers and occupations. East to the Manitoba border and south to Weyburn and Estevan. The Moose Jaw district is covered as far south as Assiniboia and west to Swift Current. The main line villages and hamlets to the Alberta border. The provincial electoral districts of Souris, Estevan, Weyburn, Bengough, Notukeu, Willowbunch, Shaunavon, Maple Creek and Swift Current have not been covered in these volumes.

Farm write-ups are listed under separate index.

Alphabetical index from Meadow Lake to Zenon Park.

### Thank You - -

The publishers wish to take this opportunity of thanking the advertisers who by their liberal patronage, made possible the printing and publication of these up-to-date and comprehensive Directories. A perusal of the advertisements to be found in these volumes will prove of value to many readers. Sincere thanks is also extended to all those who generously tendered assistance in the immense task of gathering the necessary information required in compiling these volumes.

This issue of the Saskatchewan Business Directories was compiled by the publishers from information gathered or supplied to them, and nothing has been taken or copied from other publications of a similar nature. Included in this volume are many items of interest not to be found elsewhere, and care has been taken to ensure the correctness of all information printed herein. In a publication of this size, errors or omissions may creep in, and no responsibility will be accepted by the publishers for any such errors or omissions.

KRAUSE LIFT-UP One-Ways mount direct on Ford, Ferguson, other 3-point hitch tractors . . . increase tillage capacity and do faster, better work. 4 to 9-disc Models K-7, K-9, F-4, F-8

KRAUSE K-3 and Heavy-Duty K-4 One-Way Plows hitch to any tractor . . . work at lighter draft, turn right or left, speed the job, cut costs. 6 to 26-disc sizes cut 3' 6" to 15' swaths HARVEST MORE bushels per acre — and conserve your topsoil. Use a Krause Chisel-Tiller. It destroys weed growth, breaks up hardpan and helps hold moisture in your subsoil — leaves top mulch in place to reduce erosion. Krause high-performance features include sturdy, flexible shanks . . high clearance of trash . . . hydraulic lift and control . . rigid, long-life "4-Square Frame" design . . . easy hookup and adjustment . . interchangeable spikes, points or sweeps . . 3 sizes in one. 3 pull type models — 10 sizes — for all tractors. Krause Chisel-Tillers and One-Way Plows make the ideal tillage team for your soil-saving, higher-yield modern farming.

What's in a Name? ... Plenty, when that Name is

# "FAIRVIEW"

It's amazing how great a part chemicals play in the every day life . . . and it's amazing the part "FAIRVIEW" plays in the manufacture and distribution of chemicals to meet the needs of western Canada. For example, check the list of FAIRVIEW products below . . . see how many YOU need, whether to keep house . . . to farm successfully and in the modern manner . . . day-by-day products you may take for granted. "FAIRVIEW" is western Canada's greatest name in chemicals . . . produced in western Canada, sold in western Canada for western Canadian needs!

# Fairview Guaranteed Products Include: FAIRVIEW PEST-CONTROL PRODUCTS

WEED-COP 2,4-D and sprayers
 FAIRVIEW DDT sprays
 Gopher-Cop — Rat-Cop — Mouse-Cop Kayo-Antu Rat Poison

Dusty-Death Louse Powder

 Dust-Cop Sweeping Compound HOUSEHOLD CHEMICALS FOR-ALL, the all-purpose Bleach and Cleaner -KAYO Household OIL — KAYO Kettle Cleaner KAYO Hand Cleaner — KAYO Furniture Polish DE LUXE Furniture Polish

Use FAIRVIEW products with complete confidence. They are UNCONDITIONALLY Guaranteed!

## "The Hub of the Carrot River Valley"

#### POPULATION-3,000

Served by the two large transcontinental railway systems. The C.P.R., with seven branches radiating through the rich and fertile Carrot River Valley, making it an ideal point for distributing for wholesale and retail houses. To care for this we have fifty-five passenger trains arriving and departing each week from the Union Depot. In addition to railway service, we also enjoy a transcontinental bus service, and the finest grass airport in Western Canada.

#### IMPORTANT TRADING CENTRE

THE TOWN OF MELFORT is the trading centre for the famous Carrot River Valley, comprising approximately 5,000 square miles of the choicest agricultural land in Western Canada producing annually millions of bushels of wheat and other cereal grains, as well as an enormous value in livestock products.

#### MODERN COMMUNITY

MELFORT IS A MODERN TOWN in every respect, having a 24-hour electric light and power service, and the largest automatic rural telephone exchange in Canada. It has an abundance of good water with a reservoir capacity of 120 million gallons; sewer system and up-to-date disposal plant. New school, new Memorial Rink and Civic Centre under construction.

#### JUDICIAL CENTRE

IT IS THE JUDICIAL CENTRE of the district and is located in what is known as the park area of the province.

#### FIFTY-BED HOSPITAL

MELFORT HAS A FIFTY-BED HOSPITAL which is completely modern with the very latest equipment. It is well adapted to the needs of the community it serves. New 30-bed wing under construction.

#### **EXCELLENT ANNUAL FAIR**

MELFORT HAS ALSO one of the best Class "B" fairs in Western Canada, well equipped with large stock barns and a grandstand with a seating capacity of over 5,000.

There are many other outstanding features which make it the

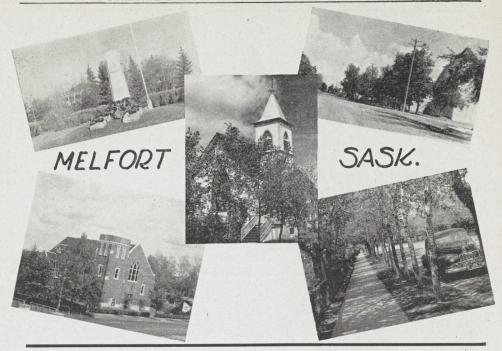

### "Hub of the North"

### MELFORT BOARD OF TRADE

S. B. Caskey, President.

W. W. Aikenhead, Secretary.

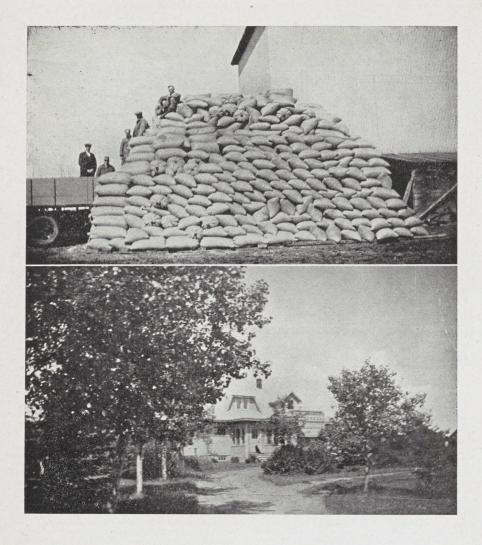

### MELFORT, SASK. (Population 3,000)

A P.O. in S. 7, Twp. 45, R. 18, W. 2nd, in Melfort Dom. Elect. Dist., Melfort Prov. Elec. Dist., Prince Albert Land Reg. Dist. and Melfort Jud. Dist., Mun. Nos. 428 and 429, on the C.N. and C.P. railways with seven lines running into Melfort, which is 190 miles north of Regina and 118 miles northeast of Saskatoon. Has C.N. and C.P. telegraph and express, Sask. Govt. local and long distance telephones with the distinction of having the largest automatic rural telephone centre in the west and possibly the largest in the Dominion. Is the judicial centre, with resident judge and sheriff's office. Dominion Experimental Farm two miles south. Has Anglican, United, Presbyterian, Roman Catholic, Church of the Nazarene, Apostolic Mission, Holiness Movement and Salvation Army, excellent public schools and collegiate with complete commercial course in connection. Lady Minto Hospital, established in 1907 as an outpost hospital with a donation from Lady Minto through the Victorian Order of Nurses, the business men of the community furnishing the balance of the capital. The hospital is now a corporate body with board elected annually. A new wing of solid concrete construction was added in 1937, ten private wards in individual color schemes and furnished with the latest modern hospital furnishings, were made possible through donations by private parties. Equipped with latest X-ray and operating equipment, staffed with experienced graduate nurses, this fifty-bed hospital is a credit to the community. The Grain Growers' Co-op Assn., Ltd., is one of the largest co-operative branches in the Province. The Carrot River Valley Co-Op Marketing Association, Ltd., do an extensive business throughout the district. There are three elevators, three lumber yards, planing mill, flour mill, Co-op Creamery, two weekly newspapers, good general stores, three hotels, one of the finest municipal skating rinks in the province and an excellent nine-hole golf course. Three bus transportation lines run into Melfort. Melfort is the distributing centre

dozen eggs, reaching a total of over nine million dollars.

During 1943 Claggett's Livestock Co., Ltd., of Melfort shipped 54,880 hogs to the Canada Packers, or one-tenth of all the hogs processed by the largest packing plant in the Dominion of Canada, besides 6,328 cattle and 666 sheep and lambs. James H. Claggett, President of Claggett's Livestock Co., Ltd., came to Melfort in 1902, when the first furrow was being plowed in what is now Main street. He has the distinction of being the first livestock dealer to ship co-op in Western Canada. Besides his activities as president of one of the largest livestock firms in the province, he finds time to supervise the cultivation of 2,600 acres of wheat, oats and barley, using three Diesel D's and four John Deeres, tractor farming being the only method used. As the soil is rich black loam and there is very little wind to cause soil to drift, this vicinity is known as a country where crop failures are unknown.

ROY L. LOBB, owner and operator of Willow Lane Farm and known throughout the Province as a successful breeder of registered Shorthorn cattle and Yorkshire hogs, was born in Hastings Village, Ont., moving to Saskatchewan in 1905 where he homesteaded 1½ miles east of Beatty on No. 3 highway. Being a friend of the late Robert Weir, Federal Minister of Agriculture, whose home was at Weldon, twenty miles west of Beatty, Mr. Lobb became interested in the cultivation of registered and certified seed grains and grasses and the breeding of Shorthorn cattle and Yorkshire hogs and from 1936 up to the present time he has worked continuously along these lines. Willow Lane Farm is now well known throughout the province as a leader in sales and the showing of prize winning stock. In August, 1940, Mr. Lobb purchased "Broadcares Demonstrator", a Shorthorn sire from the Univestity of Saskatchewan, considered the best Shorthorn bull in Canada at that time, having defeated all competitive entries. The owner of 560 acres of land in this fertile valley Roy Lobb rents out all but the home quarter and confines himself to the breeding of Shorthorn cattle and Yorkshire hogs, part of this land he uses for pasture land and certified forage grasses, among which are Creeping Red Fescue, Parkland Brome and Crested Wheat. Sugar beets and turnips, are raised for

feeding purposes. Roy Lobb is a board member of the Melfort Agricultural Society and director of the Shorthorn Breeders' Association of Saskat-chewan, he is also well known throughout the community as a writer of verse and popular songs and has been leader of the local Calf Club since

chewan, he is also well known througnout the community as a writer of verse and popular songs and has been leader of the local Calf Club since its inception in 1939.

WALTON VILLA STOCK AND GRAIN FARM one-half mile north and one-half mile east of Melfort on Melfort Creek, is owned and operated by J. R. Dickie & Son. J. R. Dickie moved west from Guelph, Ontario, April 1st, 1911. Only twenty-five percent of the land was under cultivation, the majority of it being park country and uncleared. The first section was cleared by hand. At that time Melfort was just a small community, but the rich black loam soil, with an abundance of good water for stock, brought settlers from all over Canada to this fertile valley. During the early years J. R. Dickie contented himself with mixed farming but later became interested in the raising of registered seed grains and grasses, and with thirty years of experience he has become an authority in this particular line of husbandry. His chief crops are Thatcher wheat and brome grass, both for commercial and home consumption. As a breeder of Yorkshire hogs, he ranks among the best. His piggery is considered one of the best in the district, 30x70, a two-storey building with room to maintain a six months' supply of bedding, self feeders and water in the building are a great advantage. As Caterpillar tractor farming is used throughout, Walton Villa has an up-to-date implement house, 24x70. The dwelling and farm buildings are modern and up-to-date, with well kept vegetable gardens and many varieties of berries for home consumption, among which are raspherries, black, white and red currants, strawberries, gooseberries and high bush cranberries. J. R. Dickie is chairman of the local committee for the Saskatchewan Wheat Pool and vice-president of the Grain Growers Co-op Trading Assn. Also president of the Carrot River Valley vice-president of the Grain Growers Co-op Trading Assn. Also president of the Carrot River Valley Oil Refineries.

SPRUCE HAVEN, three-fourths of a mile east of Melfort, is owned and operated by Richard A.

Howes, well known as a grower of registered and certified seeds. Has taken prizes for Banner oats at Toronto, first prize in Chicago for Sterling peas, also prizes at Regina World's Grain Show peas, also prizes at Regina World's Grain Show for flax and peas. At present is specializing in Vanguard oats. Another feature of interest at Spruce Haven are the New Hampshire chickens which are housed in modern houses, electric lighted, automatic self feeders and many other items necessary to the welfare of the flock. From 1,030 to 2,000 chickens are raised, laying as high as 660 ergs a day. as 660 eggs a day.

Tractor farming is the method used throughout. Tractor farming is the method used throughout. The farm has its own seed cleaning plant with vacuum cleaner and elevator electrically operated, with a capacity of 15,000 bushels. The grounds are beautifully landscaped, peonies, lilacs and every known variety of flower make Spruce Haven every known variety of flower make spruce haven one of the heauty spots of the district. Two thousand spruce trees and jack pine are used for shelter belts, while orchards of crabapple and plums have been found to winter well. A fully modern dwelling with hot water heating and heated garage, one of the most up-to-date privately covered with a specific course. heated garage, one of the most up-to-date privately owned water systems with electric pressure pump provides filtered soft water for every need. Richard A. Howes was born in Metcalf, Ontario, near Ottawa. In 1904 he moved to Saskatchewan and took a homestead at New Osgoode where he lived for many years. In 1926 he became interested in the growing of certified Garnet wheat and was rewarded with a bumper crop. In 1927 he moved to Melfort and purchased four hundred acres of uncleared land. With his usual patience and diligence he proceeded to clear the land and each year added new improvements until today Spruce Haven, with its well kept fields and orchards is an outstanding example of what can be done with the rich black loam soil of this fertile valley. R. A. Howes takes an active part in the affairs of the community is an executive of the Melfort Branch of the Canadian Red Cross and vice-president of The Carrot River Valley Oil Refineries, besides being an active church worker. vately owned water systems with electric pressure

### SOUTH

REGISTERED and ELITE STOCK SEED GROWER Specializing in Wheat and Oats

WHITTOME

SASKATCHEWAN

Eight Miles Northeast of Melfort S. 2, Twp. 46, R. 18, W. 2nd. PHONE MELFORT 56913

EVERGREEN DRIVE REGISTERED FARM: Travelling eight miles northeast of Melfort on good gravelled roads, one arrives at this modern, well kept Registered Seed Farm owned and operated by Gordon South, well known to all seed growers for his enthusiastic co-operation in field husbandry work. He has been an elite grower of Thatcher wheat and Fortune oats since 1943. Rodney oats, grown for the first time this year (1953) show promise of an abundant year (1953),show promise of an abundant harvest.

Three years comprises the average length of time necessary to become an elite grower, using mass selection methods, which has eliminated much of the tedious work of previous years.

Gordon South was born in Warwickshire, Eng-

Gordon South was born in Warwickshire, England, attending King Edward's grammar school at Stratford-on-Avon, which England's William Shakespeare attended in the fifteenth century. While the school now accommodates over 265 pupils and wings have been added from time to time, little change has been made in the rooms where Shakespeare learned to read and write. Gordon South recalls how difficult the desks were Gordon South recalls how difficult the desks were to work on, as countless hundreds have carved to work on, as countless hundreds have carved their names on these ancient desks—needless to says his own (G.S.) is included in the honour roll. Gordon South spent four years at King Edward's grammar school, 1924-1928. His father, Archibald South, Sr., farmed in the district and about this time decided to take up farming in Western Canada. With his wife, three sons and one daughter he left England to take up residence in Saskatchewan, purchasing a farm at Silver Park twenty miles from Melfort This dence in Saskatchewan, purchasing a farm at Silver Park, twenty miles from Melfort. This farm became the South home for the next twenty years. As the children married and left to make

homes of their own, Mr. and Mrs. South decided to retire. They now make their home in Burnaby,

In 1937, Gordon South married Mary Attrill of Naisberry, Saskatchewan. The young couple moved to their present home that same year. Evergreen Drive Seed Farm today consists of 480 acres, all under cultivation. Wheat is primarily the main crop grown. Nevertheless as Club Leader for the Whittome 4H Potaato Club, which has 18 members in the district and was awarded the three top honours at the Provincial Seed Fair, 1953, Gordon decided to become a potato planter and lists eight different varieties in this year's crop, which will undoubtedly help win more honours for the club.

crop, which will undoubtedly help win more honours for the club.

The South Seed Farm is one of the pioneer farms of the district, dating back to the early nineteen hundreds. Consequently the farmhouse is a comfortable, rambling structure with additions which have been built on from time to time. The advent of farm and rural electrification changed the picture completely. Modern electrical appliances, oil burners, deep freeze units and laundry facilities have wrought a metamorphosis undreamed of in pioneer days. Landscaped grounds, gravelled drives and colourful flower arrangements have made Evergreen Drive a spot of beauty and livability.

With the exception of a windbreak of Ash and Maple, fully matured when the Souths first arrived, little or no attention had been given to relieve the barren prairie aspect of the farm. In 1942 Gordon South decided to remedy this situation with a roadside planting of 3,500 white spruce, 500 willows, 3,000 Manitoba maples and 10,000 carragana, which are trimmed in hedge

form. This project covers some six or seven miles, including plantation, roadside and field plantings; lilacs and honeysuckle also thrive in this excellent soil. Well kept lawns and herbaceous borders have added much to the attractiveness of the inner gardens. The orchard consists mostly of varieties of apples and plums. The water supply is excellent. Ice is used and soft water is piped in from cisterns on the grounds.

grounds.

Gordon's mother, a botanist of considerable merit, shared her knowledge of this science with Gordon, teaching him many things pertaining to the soil and what grows therein. Evergreen Drive reflects the care and attention he has devoted to this work. All seeds are processed on the farm in their modern seed cleaning plant, electrically operated. Hydraulic equipment is used for all farm work. The seeds are grown for the registered seed market. Showings have been made at the Provincial Seed Fair, Saskatoon, and tregional fair at Melfort. With the amount

regional fair at Melfort. With the amount of work necessary to keep things running smoothly at the farm, Mr. South feels he can not take the time to exhibit his seeds in the larger centres.

Gordon South is president of the Saskatchewan Field Husbandry Association; president of the Canadian Seed Growers (Sask. Branch); director of the Canadian Seed Growers (Sask. Branch); director canada (1953 election of officers was held recently at Clear Lake, Manitoba). He is also president of the Melfort Superintendency School Trustees' Assn., Wheat Pool delegate, chairman of the Whittome School District, president of the Melfort Oil Co-Op. Assn and vice-president of the Melfort Credit Union. Taking an active part in all community work. His slogan: "Better seeds to insure better crops for Saskatchewan." seeds to insure better crops for Saskatchewan.'

### MELVILLE, SASK.

(Population 4,300)

A Town and freight divisional point on the C.N.R. in S. 29, Twp. 22, R. 6, W. 2nd, in Melville Dom. Elec. Dist., and Prov. Elec. Dist., Melville Jud. Dist., Yorkton Land Reg. Dist., Mun. No. 214, 96 miles Northeast of Regina. Has C.N. telegraph and express, Saskatchewan local and long distance telephones.

The Town of Melville is situated on the main line of the Canadian National Railways, two hundred and sixty-nine miles West of Winnipeg. It is the second divisional point west of Winnipeg is the second divisional point west of Winnipeg and this gives the location peculiar value, on account of its being the terminal for the main branches of the railway train services. It is also the junction point on the Hudson's Bay Railway from Hudson's Bay through Melville to Regina, and, in due course, on toward the centre of the continent. It is also the divisional point for train service on the Hudson's Bay Railway. It is ninety-six miles Northeast of Faccina the It is ninety-six miles Northeast of Regina, the capital of the Province.

The Town is peculiarly well situated with regard to Provincial highways. Highway No. 10 connects to westward, and thence southerly to Regina, and Northward and easterly with York-Regina, and Northward and easterly with York-ton, Canora and the Northeast section of the Province, as well as giving it direct contact with Manitoba points on the continuation of Highway No. 10 into the Province of Manitoba. Highway No. 15 connects it Easterly and also Westerly along the line of the Canadian National Railway, and the villages along this line. Highway No. 53 runs directly South from the Town to connect with No. 22 some fifteen miles distant. Eastward from the Town, Highway No. 15 connects with Highway No. 9, which extends from Canora on the North to the South country, where it links up with No. 1 Highway at Whitewood. No. 9 Highway also links up with No. 22 near Dubuc, about thirty miles Southeast of Melville. Highway No. 22 serves the towns and villages on the Pheasant Hills branch of the Canadian Pacific Pailway which for a number of miles eastward Railway, which for a number of miles eastward and westward, runs about parallel with the C.N.R., some eighteen to twenty miles apart. The Provincial Highways running through Melville are all gravelled, and government maintained. In addition to the Highways there are many market roads that serve the farming community immediately adjacent to the Town.

POPULATION

Melville is the largest Town in the Province of Saskatchewan. Its population as shown by the last census was 4,300. This is a considerable gain over previous census figures.

HOSPITAL

The hospital needs of the town and community are well provided for. St. Peter's Hospital is a 60-bed hospital, with latest X-Ray and hospital equipment. An excellent medical staff and efficient nursing staff provide the best of care for the many patients. The Sisters of St. Martha are in charge.

The spiritual needs of the Town and community are well provided for by churches of every denomination, the majority with resident clergy.

FACILITIES: Light and Power
Melville has an up-to-date water and sewerage
system, electric lights, well graded streets, several miles of concrete sidewalks and many miles of streets that are curbed and boulevarded. power in a plant owned and operated by Diesel power in a plant owned and operated by the Saskatchewan Power Corporation. The Town operates a tourist camp on Main Street North, which is capable of taking care of all the tourist requirements of the community.

RECREATION

RECREATION

The Town of Melville has been noted for its recreational activities ever since its first inception. Its outstanding achievement OF COURSE, was and is in hockey, with the famous "Millionaires" blazing a trail from coast to coast. Melville has trained and sent to the outside hockey world many famous players. It also has active clubs which foster baseball, tennis, badminton and golf. The skating rink is municipally owned and in addition there are many open air skating rinks to take care of the ambitions air skating rinks to take care of the ambitious hockey players of the future.

FIRE PROTECTION

Melville is served with a voluntary fire brigade which has able officers and is managed by a very efficient staff.

The community surrounding the Town and the ea served by Melville actually extends from area served by Melville actually extends from the Qu'Appelle Valley some twenty-three miles to the South to about twenty miles northward and eastward to a similar distance. Within this area are a number of small country towns which naturally make Melville their trading centre.

MELVILLE

SASKATCHEWAN

MARKETING

MARKETING
Melville is in the centre of a mixed farming district and is well within that portion of the Province known as the "Park Area". Through all the years of its settlement there has never been a total crop failure from any cause. It has ready access to the markets of the world both through the Port of Hudson's Bay and also through direct railway connections with the East and West. As a marketing centre Melville is and West. As a marketing centre Melville is the centre of a very prosperous farming district; the people living in the various districts which constitute this community are progressive and co-operative.

SHIPPING

In 1948 livestock shipped from this averaged around 1,000,000, poultry shipped just under 2,000,000 and cereal grains averaged 1,000,000 bushels. Agricultural products shipped annually from the immediate vicinity average \$6,000,000.00

#### INDUSTRIES

Melville is quite an industrial centre with considerable hopes for the future. There are many small shipping sidings quite close to the Town. There are four grain elevators which include The Melville Milling Co., locally owned and operated. The Saskatchewan Co-Operative Creameries maintain a branch at this point and has maintained for many years the record of having the largest output of butter of any creamery in the Province. The Swift Canadian Company Limited maintain a large branch at this point and have recently erected new buildings and made have recently erected new buildings and made many improvements to their original plant. A large staff is employed at this Branch of The Swift Canadian.

### HOTELS

Hotel accommodations are excellent in Melville. All visiting travellers find the King George and Waverley Hotels are well equipped to meet their needs.

#### EDUCATIONAL FACILITIES

Melville is served by an elaborate school system, as it has both Separate and Public schools. two systems employ excellent teachers and classes are taught from beginners to Grade In addition to the regular classes the High School has facilities for Commercial education with competent teachers in charge.

#### SUMMER RESORTS

Meville Beach is located on Lake Wakichamow (Crooked Lake), 28 miles Southeast of Melville. This is an ideal spot for summer vacationing, the resort is surrounded by wooded bluffs, poplar and Manitoba maples make this a shady retreat for hot summer days.

Saskatoons, chokecherries, pin cherries, wild raspberries and strawberries are found in abundance.

Wakichamow Lake is 10 miles long by one and one-half miles wide and joins the Qu'Appelle

The lake is well stocked with wall eyes and northern pike.

There are seventy cottages; the majority of these cottages are owned by local people from Melville and district. But many cabins and cottages are available for rent. The cabins for rent are well equippeed with comfortable furniture, electric lighted and many are supplied with refrigeration service.

electric lighted and many are supplied with refrigeration service.

The local store is operated by the Beach Association with resident manager. All necessary supplies are carried. There is a Community Hall in connection with the cafe and store. Well cooked meals and lunches are available at all times at the Lake View Inn, which also has long distance telephone service. distance telephone service.

Sandy beaches provide excellent swimming. Boats, equipped with cutboard motors, are available at reasonable rates.

CHAIRMAN: Fred Switzer, Duff. Rowland Williams, VICE--CHAIRMAN: Mel-

ville,
SECY-TREAS.: Hector Loveridge, Duff.
DIRECTORS: A. Wotherspoon, Melville; Rhys
Williams, Melville; John Rathgeber, Fenwood;
Wotherspoon, Melville; Edward Douglas Wotherspoon, Melville; Edward Heiduk, Melville; D. O. Forsythe, Melville; Thomas Steinmacher, Melville; Elmer Wotherspoon, Melville; Henry Keller, Melville; Ronald Crowe, Waldron; Phil Walters, Meville; E. W. McKenzie, Melville.

McKenzie, Meiville.

AG-REP ACTIVITIES

Ernest W. McKenzie is the Agricultural Representative for the Melville District, which includes 9 adjacent Municipalities: R.M. of Grayson No. 184; R.M. of McLeod, No. 185; R.M. of Abernethy No. 186; R.M. of Cana No. 214; R.M. of Stanley No. 125; R.M. of Tullymet No. 215; R.M. of Lipton No. 217; R.M. of Ituna Bon Accord No. 246, and R.M. of Kelross No. 247.

The central office for this District is located in Melville and was established May, 1946, under the Agricultural Representative Service, Saskatchewan Department of Agriculture. The Service

chewan Department of Agriculture. The Service in general is established for the solution of prob-lems and conservation of the agricultural re-

sources of the province.

Previous to taking this appointment, E. W. McKenzie was a farmer living 12 miles Northwest of Moose Jaw in the Belbeck district; he is a graduate of the University of Saskatchewan class of 1936 and holds a B.S.A. degree. After completing his university course he spent the folcompleting his university course he spent the following four and one-half years with the Dominion Experimental Farms, at Indian Head, Saskatchewan, as supervisor of reclamation work. In 1941, Ernest McKenzie joined the armed forces and spent five years overseas with the Canadian Y.M.C.A., serving in the entertainment and recreation department. On his return from overseas he was appointed to his present post.

VETERINARY WORK Dr. V. E. Senior h Dr. V. E. Senior has recently established a practice in this district and serves the municipalities of Stanley, Cana, Grayson and McLeod. The establishment of this veterinary service has proved to be a tremendous asset to the agri-

cultural community.

Previous to taking up residence in Melville, Dr. Senior was an employee of the Provincial Department of Agriculture and prior to that was a veterinarian engaged in private practice and Government work in England. He comes to his new field well qualified to handle the work in the district.

in the district.

ORGANIZATION WORK

The Melville and District Agricultural Society was originally organized soon after the formation of the Town of Melville. The first Fair buildings were located on the northeast corner of the town and later moved to a site northwest of town, where a race track and racing stables were built, as it was thought that this would provide entertainment for the public. The shows provide entertainment for the public. The shows staged at that time were quite complete, including the showing of all classes of livestock as well as exhibits of women's work, home cooking,

needlework, flowers and garden vegetables. However, the move to include horse racing was disastrous financially and resulted in the discontin-uance of agricultural shows in 1923. The buildings were then taken over by the Elks Society, who attempted to stage sports days; with the depression years this too was abandoned and the Town of Melville took what was left of the buildings and constructed a grandstand on the location of the present Fair Grounds. Although exhibitions the present Fair Grounds. Although exhibitions were not held for many years the society was kept alive and sponsored Calf Clubs and Seed Grain Clubs. After the second World War the society was reorganized and two new cattle stables were built. The last few shows have been limited to cattle, which have been very successful and during 1949 additional facilities are being planned to enlarge the kinds and classes of livestock shown.

### BABY BEEF CLUB

The Melville Baby Beef Club, after two and one-half years of continuous work has proven itself full of iniative and drive. In its short history it has time and again made good its motto, "Every Aim a Successful Gain".

Under the leadership of Mr. Williams, the club developed remarkably during its first year, carrying on a planned programme which has spread throughout the seasons. It had the honour of exhibiting the Grand Champion Calf at the Regional Fat Stock Show and Sale at Yorkton, in its first competition.

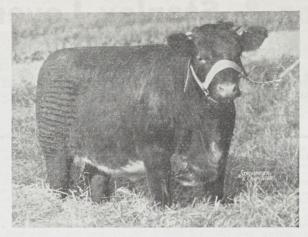

In the fall of 1947, two enterprising members of the club, Edward Heiduk and Albert Kosa, were chosen to represent Northeastern Saskatwere chosen to represent Northeastern Saskat-chewan at the livestock judging finals at Saska-toon. The boys made a fine showing, placing third. The Club also placed third in the Effi-ciency Competition. The following season the club expanded, carrying on a full social pro-gramme, as well as contributing generously to such worthy causes as the Canadian Appeal to Children's Fund and the Red Cross. The Club members met weelly hesides regular club meet-members met weelly hesides regular club meetmembers met weekly besides regular club meetings for the National Farm Forum Broadcasts and they have carried on this educational programme faithfully for the past two seasons. This group was the only Registered Junior Listening Group in the Province of Saskatchewan and Saskatchewan and possibly in the Dominion of Canada.

The Club planned and successfully concert last spring which rounded out the winter activities. The Club was honoured in its second year by having two of its members, Albert Kosa and Peter Kushnerenko, chosen with the Yorkton team to represent Northeastern Saskatchewan at the judging finals held in Saskatoon. They placed second in the competition, the Yorkton team placing first. The Club was awarded the Burns Trophy last fall for placing first in the Efficiency Competition, scoring 298 points out of a possible 300.

This season the Club is surging ahead under the leadership of Mr. Aukland, and have laid

plans for a more expansive future.

The Club is proud to note that its graduate members are continuing to aid the Club in every members are continuing to aid the Club in every way, as well as taking an active interest in com-munity affairs and the promotion of agriculture. These members feel that Club work is a very necessary and important part in the training programme of the rural youth.

ROSE BROADHOOKS - GLENROSSIE SHORTHORN FARM

### **Registered Shorthorn Breeders**

GLENROSSIE SHORTHORN FARM—Located 6 miles North of Melville on No. 10 Highway, is the home of the Glenrossie Shorthorns, bred by D. A. Wotherspoon. The Glenrossie Shorthorn herd is recognized as one of the finest herds in the province.

David Wotherspoon was born in the Runneberg district, near Melville, Saskatchewan. His father, Peter Wotherspoon, was one of the pioneer settlers of the district, having filed on a homestead in 1905. The original homestead is a part of Glenrossie Farm, which today consists of 640 acres, owned jointly by D. A. Wotherspoon and his cousins Jack and Henry Beckett, who farm this section and maintain the herd in a very creditable manner. The major portion of the farm is under cultivation, crested wheat, brome grass, alfalfa and sweet clover being used for winter feed.

Peter Wotherspoon always maintained a large herd of good grade Shorthorns. In 1934, his son, David, decided to branch out into the Registered field, purchasing the Grand Champion Female at the Regina Winter Fair, from Matthew S. Longmuir, of Grainland, Sask. The balance of the foundation herd was purchased from F. H. Deacon & Son, Glenburn Farms, Unionville, Ontario.

As an example of the quality of females maintained at Glenrossie Farm we list a few well known cows and their pedigrees:

Rose Broadhooks, dam. of Glenburn Knight Templar, Senior and Grand Champion, Calgary, 1945.

Oakfield Lady Rothes 4th, sired by Rigfoot Sensation, Grand Champion, Toronto Royal Winter Fair 1937-1938.

Calrossie Flossy Susan (Imp.), half sister of the 1940, Perth, Scotland, Champion, was sired by the famous Calrossie Randolph, bred by Captain McGillivray, of Nigg Station, Rosshire, Scotland, who is recognized as the leading Shorthorn breeder of Scotland, having won more championships than any other breeder.

Pearl Necklace 20th: Grand Champion, Regina Summer Fair, 1944.

Three daughters of Klaymor Forester, who sired the highest priced heifer sold in the Fall Sales, Unionville, Ontario, 1948.

Among well known herd sires owned by Glenrossie Farm are the following:

1944 Herd Sire: Glenburn Judge; grandson of Glenburn Royal Ransom, son of Millhill's Ransom, 1936 Perth Champion.

1946-1947: Brawith Leader, purchased from Matthew S. Longmuir, Grainland, Sask., sired by Brawith Boy; Champion Highlands Show, Scotland, 1982, and Grand Champion, Toronto Royal and Canadian National Exhibition, 1933.

PRESENT HERD SIRE: Oakfield Command, sired by Klaymor Favorite. Top selling bull in Canada (by auction) 1942. Sale price, \$3,400.00-

The dam and grand dam of Oakfield Command were sired by sons of the famous Naemoor Jasper.

The Glenrossie Shorthorns have won high honours in the show ring, including Best Breeders' Herd, open to all breeds, Melville Summer Fair, 1947. Cup for three best females 1947. 1945, Grand Champion Bull, also winner of special class for best two bulls. 1948, the Glenrossie Shorthorns were awarded the Brewers' Special for best Saskatchewan entry, Regina Summer Fair.

David Wotherspoon is a graduate of Yorkton Collegiate, class of 1929, and was awarded the Governor General's Medal for "Best all around student of the year." In 1931 he attended the Saskatoon Normal, spending the following three years teaching in the Melville district. In February of 1935 he was appointed District Representative for the Mutual Life of Canada and has continued to build up an excellent business throughout this territory for the past fourteen years.

David Wotherspoon takes an active interest in all community work, is vice-president of the Community Club, an organization which sponsors the entertainments and sports for the Melville Summer Fairs and various other activities. He is an active member of the Melville and District Board of Trade and the Rotary Club. A director of Melville and District Agricultural Society and a director of the Saskatchewan Shorthorn Club.

ANYONE WISHING TO INSPECT THE GLENROSSIE SHORTHORN HERD, MAY DO SO BY CONTACTING David A. Wotherspoon, 110 5th Avenue West, Melville, Sask. PHONE 923 or CALL PERSNALLY AT THE GLENROSSIE SHORTHORN FARM ON No. 10 HIGHWAY, SIX MILES NORTH OF MELVILLE.

VISITORS ALWAYS WELCOME

HEATHWOOD STOCK FARM: Located five miles North of Melville on No. 10 Highway, is owned and operated by Frank Wotherspoon & Son, breeders of Registered Scotch Shorthorn cattle and Vorbeling swips cattle and Yorkshire swine.

Frank Wotherspoon was born in Bruce County, Ontario. His father, the late John Wotherspoon, was born in Abernethy, Scotland, visiting Canada and the United States during his early manhood, he eventually settled in Bruce County, Ontario, where he married and built his first home. Moving west in 1930, he filed on a homested in the Medville district and has the dishome. Moving west in 1930, he filed on a nome-stead in the Meelville district and has the dis-tinction of being one of the first pioneer settlers to file on land in this district. Melville was incorporated some years later when the Grand Trunk Railway completed its line to this point which was around 1907.

Frank Wotherspoon joined his family in the west about three years later. By that time the land had been partly cleared and a frame house with sod roof was completed. Frank Wotherspoon ruefully recalls that it "Was rather damp when the rain dripped through the sod". Frank purchased the home farm from his father in 1920, additional acreage has been added and Meethwood Evern pays consists of 800 agrees 640 Heathwood Farm now consists of 800 acres, 640 Heathwood Farm now consists of own acres, valued required in the coarse grains, twenty-five acres in brome grass, crested wheat and alfalfa. The pasture consists of 160 acres; wooded ravines provide shelter for the stock and natural sloughs throughout the pastures proand natural sloughs throughout the pastures provide ample water for the cattle. A large garden is maintained at Heathwood, with a windbreak of maples on the west side. To the south and west there is a natural growth of poplars, while the driveway, which is a quarter of a mile long is lined with willows and Russian poplar, which adds greatly to the natural beauty of the place.

The main barn is spacious with additions on two sides, the dwellings and barns are electric lighted. The original six-room dwelling is the home of Frank Wotherspoon, while his son, Elmer Wotherspoon, has recently built a seven-room, fully modern, stucco home, adjacent to his father. Power farm machinery is used for all farm work, as in horses are kept husy with general work, as Power farm machinery is used for all farm work, six horses are kept busy with general work, as during the hey day of the horse the Wotherspoons were partial to Clydesdale horses and feel they are still a necessity on the farm.

John Wotherspoon maintained an excellent herd of good grade Shorthorns. When Frank

herd of good grade Shorthorns. When Frank Wotherspoon took over the home farm he be-

came interested in the breeding of pure bred cattle, purchasing a foundation herd of Scotch Shorthorns from Charles Harlton of Belle Plaine, Sask., and C. A. Gabriel of Bangor, Saskatche-wan, later two good females were purchased from Lionel Stillborn of Lemberg, Saskatchewan. The herd was increased to around 65 head, but now numbers 50.

The Wotherspoon Shorthorn pedigrees can be traced from such well known families as Flower Girl, Princess Royal, Rosewood and the Princess Alice families.

Burnside Flower Girl 2nd —333097— was a granddaughter of Millhill's Ransom, Supreme Champion, Perth, Scotland. Her dam was sired by a son of Brawith Boy, Champion of Highland Show in Scotland. Her grand dam, Brawith

Show in Scotland. Her grand dam, Brawith Flower Girl 4th, was winner of four grand championships, C.N.E., and Toronto Royal.
Sunrise Alice C 6th —315931— was sired by Balmuchy Charles, by Balmuchy Jasper, whose breeding exerted such a great influence on the Claude Gallinger herd of Tofield, Alberta. Her grand dam, Craigend Princess Alice 8th, was bred by Norman Ross, of Indian Head, Saskatchewan, being considered his most successful strain. strain.

strain.

Burnside Claret 5th —333100—, sired by Brawith Leader, considered one of Saskatchewan's best and sired by Brawith Boy, Scottish Highland Champion. Burnside Claret's dam was sired by Glenburn Royal Ransom, sired by Millhill's Ransome, Supreme Perth Champion. Her grand dam was sired by Melba's MacDuff, winner of the Freysing cup, Toronto Royal, 1937, for Best Freysing cup, Toro Canadian bred bull.

Canadian bred bull.

Princess Royal 4th —326370—Grand Champion
Melville Regional Show 1947, was sired by Glenburn Chief, sired by Brawith Chief by Collynie
Royal (Imp.). Glenburn Chief was awarded
Senior and Reserve Grand Championships, Regina
Winter Fair 1938. Brawith Chief was not only
a champion himself, but few bulls sired more
champions at the major Canadian shows during
the 1930's

Heathwood Stock Farm lists some of their bet-

ter known Herd Sires: GLENBURN CHIEF—227788—Mentioned here-GLENBURN CHIEF—227788—Mentioned nere-tofore. The dam of this herd sire, Glenburn Marigold, was one of the most famous cows in the Glenburn herd, owned by F. H. Deacon of Unionville, Ontario. Her sire, Glenburn Field Marshall, was Grand Champion at the International two years in succession.

Elmer Wotherspoon has been a partner with his father "ever since he was able to handle a pitchfork," to use his own words, as he is an only son. He married in 1948 and now resides in his new modern home, near his father's place

on the original homestead.

Frank Wotherspoon has spent ten years serving Frank Wotherspoon has spent ten years serving as Councillor and Reeve of the R.M. of Cana No. 214, was a member of the Saskatchewan Grain Growers Association for many years and a Wheat Pool delegate for nearly seven years, being one of the original delegates. He is a member of the Saskatchewan Shorthorn Club and the Cattle Breeders' Association, taking an active interest in all work connected with the breeding of better livestock.

RHYS WILLIAMS of Melville, Saskatchewan, is well known throughout the province as a

is well known throughout the province as a breeder of Clydesdale horses, Shorthorn cattle

and Yorkshire swine.

and Yorkshire swine.

The Williams Farm is located one mile North of Melville on No. 10 Highway.

Rhys Williams was born at Carnarvon, North Wales. His father, Rowland Williams, who has attained the age of 95 years, is now living in Anglesey, and until his retirement spent most of his life as a miller and farmer. Rhys Williams returned to his home in 1947 and was a managed to first histograms which was a horse and same and amazed to find things much the same as he remembered them as a boy.

On a trip to Canada in 1911, Mr. Williams spent a year in Miniota, Manitoba, and later made a tour of Canada with the idea of returning made a tour of Canada with the idea of returning to his home in North Wales after completing his trip, but the best laid plans of mice and men "aft gang agley" (with apologies to Robert Burns) and in 1916 he became an employee of the North American Lumber Co. Ltd., with his first assingnment at Nokomis, Saskatchewan. Later he was transferred to Atwater, as Manager of the yard. From there he was transferred to Wadena as Manager and in 1923 moved to Melville to take over the management of the yard at this point. He retained this position until the summer of 1939, when he decided to embark on a business career of his own, specializing in Saskatchewan forest products. His firm is now known as Williams Lumber & Fuel.

During the war years from 1940-1943, when

During the war years from 1940-1943, when lumber was hard to obtain, farmers came to the Williams yard in Melville from a radius of 60 miles to purchase lumber for granaries and other necessary buildings. This was made possible by a little foresight on the part of Mr. Williams, as they had the largest stock on hand in Northeastern Saskatchewan.

The farm was purchased in 1932 and consists of a quarter section; 85 acres are under cultivations, oats and sweet clover being grown mostly for feed.

for feed.

Being interested in pure bred cattle, Mr.
Williams purchased a foundation herd of Shorthorns from Rupert Ramsey of the Extension
Department, Saskatoon, and since that time the
Gallinger strain, from Edmonton, Alberta, has
been used exclusively, both in male and female breeeding.

PRESENT HERD SIRE: Killearn Royal James 285298—, half brother of Killearn Max 5th
254948—, sire of the highest sellinig progeny
in North America, also sire of Supreme Champion Shorthorn "Maxine Duchess", Royal Winter

Fair, 1948.

The Williams Shorthorns have won high honours at Summer Fairs, winning all female classes in Melville and Yorkton, 1948; Junior and Senior Champion and Grand Champion, Melville Shorthorn Regional and Yorkton B Fair; also silver cup for the best herd and silver cup for best two females bred and owned by exhibitors.

Calves by present herd sire show great promise and will most assuredly be heard from later.

Yorkshire swine have their own place on the farm. An average of 12 brood sows raising two litters a year. At present Prince Edward Island Yorkshires are proving very satisfactory. The swine are raised for the bacon market.

A caretaker is in residence at the farm the year round, while the Williams family live in

Melville.

During the hey-day of the horse, Mr. Williams was well known as a breeder of fine Clydesdale horses. "Reliance" —27141— and "Morningtide", two favourites were shown on all leading circuits, including the Toronto Royal and the Chicago International, winning high honours

Williams, since his overseas, has taken an active interest in both the lumber business and the breeding of better livestock. Most of the Shorthorns and all of the Yorkshires are registered in the name of Rhys Williams & Son.

Rhys Williams devotes the greater part of his time to the lumber business, but keeps an eye on the farm, making improvements and keeping the herd up to a high standard. He is past president of the Clydesdale Club and is a member of the Saskatchewan Shorthorn Club and the Swine Breeders' Association.

PHEASANT RIDGE FARM-Located one and one-half miles west of Duff. Saskatchewan, is owned and operated by W. G. Loveridge and sons, Hector and Stanley Loveridge, breeders of Registered Scotch Shorthorn cattle.

W. G. Loveridge was born in Worcestershire, England, and as a young man he spent some time as a railway employee. In 1903 he left England with the intentions of locating in Western Canada, as several cousins were living Western Canada, as several cousins were living at Grenfell, Saskatchewan, he spent his first two years in Canada on their farm. Later he filed on a homestead in the Pheasant Forks district, near what is now Duff, Saskatchewan. Additional acreage has been added to the original homestead and Pheasant Ridge Farm now consists of 960 acres. The farm is worked in a three-year rotation with around 800 acres under cultivation wheat and coarse grains, while sweet. cultivation, wheat and coarse grains, while sweet clover, alfalfa and crested wheat grass are grown for feed.

Around 100 acres are in pasture land, wooded bluffs and ravines, with the additional advantage of having Pheasant Creek a part of the farm makes this an ideal spot for raising cattle, as plenty of water and shelter are provided at all times. Additional water is supplied by four wells and dugouts. The main barn is 32x50 feet with smaller additions attached. A semiwells and dugouts. The main barn is 52x50 feet, with smaller additions attached. A semicircle of willow and Manitoba maple is used as a windbreak, besides adding considerable scenic beauty to the farm which has been listed as a typical Saskatchewan farm, due to its picturesque surroundings.

The home is fully modern, with electricity being used throughout the farm. Power farm machinery is used mainly for farming, but nine head of horses are still kept busy, as the Loveridges feel that horses are still an essential part

of farming.

W .G. Loveridge has always maintained a large herd of good grade Shorthorn cattle, but in 1940 Hector and Stanley became interested in the raising of pure bred stock and purchased a foundation herd of Registered Scotch Shorthorns from Hans Martaens, formerly of Melville, who at that time owned the Sunrise Shorthorn herd. Further purchases were made from J. N. Stillborn of Lorlie, Saskatchewan. The herd has gradually been built up and now numbers around 35 head around 35 head.

PRESENT HERD SIRES: Norseman's Pride—28839—, awarded first prize Regina Spring Fair, 1948, also Reserve Junior Champion the same year. This herd sire was purchased from Wm. Harrison, of Dafoe, Saskatchewan. Know-

head Norseman 6th —294159— was purchased from John Small, of Knowhead Farm, Craven, Saskatchewan. These two herd sires are grandsons of the well-known NORSEMAN (Imn.), now owned by Claude Gallinger of Tofield, Alberta.

With the exception of the Melville Agricultural Fair and the Regina Spring Sales, the Loveridge boys have not shown their herd extensively, but have confined their efforts to building up the herd and making it one of the finest in the province. As neither of the Loveridge boys are married, they reside with their parents at Pheasant Ridge Farm. They are both members of the Saskatchewan Shorthorn Club, the Canadian Cattle Breeders' Association, and Hector is now Secretary of the Melville Agricultural Society, taking an active interest in all local community work.

There are three garages, service station, five farm implement agencies, lumber yard, real estate and insurance, two general stores, meat market and theatre meeting the needs of this thriving community, which is the marketing centre for a very large area. A regulation sized curling and skating rink (2 sheets of ice) provide recreation for the village. The village was named from two pioneer settlers, Mills and Bryden, taking a part of each name to make Milden.

MILDEN, SASKATCHEWAN

RESOURCES: The soil is Sceptre clay and is well adapted to the growing of wheat, flax and coarse grains.

REGISTERED PALOMINOS: Robert I. Hammill, of Milden, Saskatchewan, formerly a breeder of Registered Shorthorn Cattle, has re-cently become interested in the breeding of Registered Palomino Horses. A foundation stud cently become interested in the breeding of Registered Palomino Horses. A foundation stud was started in 1946 when Mr. Hamill purchased three Palomino mares from Vivian Foster of Lloydminster. In 1947 he purchased "Milden Star" a Palomino stallion sired by North Star the 2nd, owned by Keith Grayson of Moose Jaw, Saskatchewan. Mr. Hamill hopes in the near future to build up a stud of Palomino Horses which will equal any in the province. To date the Hammill Palominos have not been shown on either the A or B circuits, but he expects to have them ready for the fall showing of 1950.

Robert Hammill's father, R. J. Hamill, is one

Robert Hammill's father, R. J. Hamill, is one of the pioneer settlers of the Milden district, having filed on a homestead adjacent to what is now the Village of Milden in 1905. Robert I. Hammill, with his three brothers and four sisters, were born on the original homestead and grew up in this community; his father spent many years as a dairy man. In 1941, Robert purchased the Milden Hotel which her born completely the Milden Hotel, which has been completely renovated and made as modern as the village facilities permit.

### MILESTONE, SASK. (Population 525)

A P.O. and Incorporated Town in S. 15, Twp. 12, R. 19, W. 2nd in Weyburn Dom. Elec. Dist., Milestone Prov. Elec. Dist., Regina Land Reg. 12, R. 19, W. 2nd in Weyburn Dom Elec. Dist., Milestone Prov. Elec. Dist., Regina Land Reg. Dist., and Weyburn Jud. Dist., Mun. No. 99 on the Soo Line of the C.P.R., 554 miles Southeast of Moose Jaw and 36 miles South of Regina. Has daily train service to Moose Jaw and bus service to Regina twice daily. Has C.P. telegraph and express, Saskatchewan Govt. long distance telephones, with the local service handled by The Milestone Rural Telephone Co. Milestone is the headquarters for the Milestone Larger School Unit No. 12, there are four churches, Anglican United, Roman Catholic and The Church of Christ. All the town streets are gravelled and Main Street is black top to No. 39 Highway. Milestone is the centre of a large farming district and has a full line of stores and shops, which carry select stocks and serves the public efficiently. There are six large capacity, modern elevators handling approximately 1,000,000 bushels of grain annually, which meet all requirements of the farmers. The Canadian Bank of Commerce maintains a branch at this point. There is a resident doctor and dental service is supplied Mondays and Tuesdays by a dental surgeon from Rouleau. A large school and a town hall with theatre accommodations are buildings which would be a credit to any town. A new regulation size curling and skating rink was completed in 1948, ice surface 75x180 feet. A new regulation size curling and skating rink was completed in 1948, ice surface 75x180 feet. was completed in 1948, ice surface 75x180 feet. The Sports Grounds sponsored by the B.P.O.E. is greatly appreciated by the citizens of the community. The Town of Milestone was named in honour of C. W. Milestone, Supt. of The Soo Line Extension 1893. Last but not least. Milestone has a live weekly newspaper, "The Milestone Mail", which has demonstrated its usefulness. This is strictly an agricultural town, depending on its delivery of grain and produce from the farms. The residents of the town and district are mostly of British and American ancestry, very mostly of British and American ancestry, very friendly and neighborly, in fact a community in which it is a pleasure to live.

RESOURCES: This is one of the best wheat growing districts in Saskatchewan.

Montmartre Union Hospital is to be opened in the very near future and will provide medical care for the surrounding district.

Chaplau Lake, one mile South of Montmartre is six miles long by three-fourths mile wide and has recently been dammed and will be stocked with fish in the Spring. This lovely little lake will make an ideal spot for boating and fishing. Plans for a resort at this point are now being considered by the Board of Trade.

### **EDUCATION**

The Provincial House and Novitiate of The Sisters of Our Lady of The Cross ((Religieuses de N.D., de la Croix) is located at Forget, Saskatchewan, with The Sacred Heart Convent at Montmartre.

The order originated in France in 1836 and the work of The Sisters of Our Lady of The Cross has been confined to teaching and nursing with homes for the aged, which receive their very special attention. The Saskatchewan Homes for the aged are located at St. Hubert's Mission and Marcelin.

and Marcelin.

The first residential and day school under the direction of this order was opened in the Dominion of Canada in March, 1906. Saskatchewan residential and day schools are now located at Forget, Montmartre, Wauchope and Cantal which is an inland settlement with a post office and the mission. There is also a school at Clairiere, Manitable Cirls are entered for the complete course mission. There is also a school at Clairiere, Mani-toba. Girls are entered for the complete course 1 to XII inclusive, boys are entered up to the age of ten years. Music and sewing are given particular attention.

FUR RANCHES
ROBERT'S FUR RANCH, located at the edge
of the Village of Montmartre is owned and operated by Donat Robert. The Ranch is equipped
with modern up-to-date pens. Around 400 Mink,
mostly Standards and Silver-blu with a hundred
foxes, Platinum, Ring-neck and Standards, however, the berd is culled annually and only the best ever, the herd is culled annually and only the best retained for breeding purposes the balance is pelted and sold.

DeDECKER'S FOX RANCH located at the edge of the Village is owned and operated by Jules DeDecker. From 300 to 400 foxes are usually kept in this herd, with Standards, Platinums and Ring-neck predominating. Excellent foundation stock has made this ranch well-known throughout the Province as only the choice of the let are kept for breeding nursess.

the lot are kept for breeding purposes.

The early settlers of this district were mostly of French origin and when the Village was Incorporated they named it Montmartre as a tribute to their native land.

JALNA SEED FARM: Located nine and onehalf miles Northeast of Fillmore, Saskatchewan, is owned and operated by Arthur Shotter, who for the past 21 years has been a grower of Elite and First and Second Generation cereal grains.

and First and Second Generation cereal grains. Arthur Shotter was born in the village of Lurgashall, Sussex, England. At the age of 18 he joined the Imperial Army. He is a veteran of the Boer War in South Africa and the following six years were spent as a soldier in India. He retains delightful memories of Jalna in the Nizam Territory. The beauty of the spot combined with the entertainment provided by the Nizam Cavalry brings back nostalgic memories of those far off days, thus Jalna Seed Farm came into being. On his return to England in 1909 he married Florence England and they sailed for Canada in 1910. On their arrival in Canada they spent some time choosing their new home eventually purchasing 320 acres in the Fillmore District. The land was cleared and a home built, mixed farming and a sizeable herd good grade cattle kept the Shotters busy for the next few years.

Once a soldier, always a soldier even to the cultivation of grain, having spent so many years under strict discipline, the idea of uniformity became a fixed idea in Arthur Shotter's mind. During his first years as a grain grower he felt the lack of this precision in the cereal grains, some were bearded, others were straggly and all of different shapes, consequently he became interested in segregating various plots and

experimenting with various types, he soon realized that purchasing Registered Seeds gave great promise of better crops, continuing along these lines he began to note the advance he had made especially with Red Fife and Marquis wheat. The yield gradually increased, the grain became more uniform and of a better quality. The seed grains were selected for his first Elite Plot in 1928, the results from this acre's plot were very satisfying and from then on the work was extended to the production of Elite and First-Class Cereal Grains. Arthur Shotter is now considered one of the more progressive grain producers in Canada. During his membership in the Association he has produced Registered and Elite Stocks of Rex and Regal Barley—Victory, Vanguard and Ajax Oats—Marquis, Renown and Thatcher Wheat.

Information and experience obtained from this varied programme of Seed Production has been made available to all the community, which has found in Arthur Shotter a staunch supporter and Producer of High Quality Registered Seed. He has exhibited his cereal grains at the Toronto Royal and the Chicago International, consistently winning high honours. Showings of his grain have been made in Regina, 1933, World Grain Show and in 1950, Provincial Grain Show, Saskatoon, high honours were awarded his Ajax Oats. In 1947 he was made a Robertson Associate which is the highest honour which can be bestowed upon a seed grower and at that time he was presented with the Robertson Association Token of Merit.

Jalna Seed Farm is well treed with a natural growth of poplars. The fruit orchard supplies the house with plums, Saskatoons, and a few the house with plums, Saskatoons, and a few apple trees give great promise, raspberries, strawberries and currants round out this orchard while trimmed Carragana hedges make this one of the more attractive homes of the community. A modern seven-room, two-storey dwelling has recently been completed, excellent water is obtained from wells.

Arthur Shotter is a member of The Canadian Seed Growers' Association and The Seed Grain Co-Op, Moose Jaw, Saskatchewan. He holds a life membership in The Saskatchewan Field Husbandry Association, taking an active interest in all work connected with the growing of better cereal grains. ter cereal grains.

### SASKATCHEWAN GOVERNMENT SEED PLANT

MOOSE JAW, SASK.
Phone 4601

# Moose Jaw and District Elite, Registered & Certified Cereal Grains and Grasses

# THE SASKATCHEWAN SEED GRAIN CO-OPERATIVE LTD.

With Head Office located in the Saskatchewan Government Seed Plant, Moose Jaw, was formed by the seed growers of Saskatchewan in the spring of 1948 for the purpose of marketing seed grain on a co-operative pooling basis.

Present membership in the organization represents a large percentage of the established cereal seed growers of the Province.

The Association has enjoyed the support of the Saskatchewan Pool Elevators Limited, the Grain Companies associated with Line Elevators Farm Service, as well as those Departments of the Provincial Government directly interested in crop improvement.

The Co-operative has, since its inception, assumed the responsibility of filling seed orders accepted by country elevator agents of the various Grain Companies and the increased sale of pure seed, brought about largely by the Association's Publicity Campaigns, has been of direct benefit to agriculture generally.

Any farmer in the Province can obtain stocks of pure seed by writing direct to the Saskatchewan Seed Grain Co-operative Limited at Moose Jaw or by placing his order with a country elevator agent.

ESTONLEA—JACKSON'S PEDIGREE SEED FARM—ESTABLISHED 1925—is owned and operated by Ernest Jackson, well known throughout Saskatchewan as one of the foremost growers of Elite, Registered and Certified Cereal Grains. The Jackson Farm is located on the outskirts of Eston in a Northeasterly direction. Ernest Jackson has been an enthusiastic worker in the field of Elite and Registered Cereal Grains for the past 25 years. Previous to their move to Canada, the Jacksons had made their home in Stockport, Lancashire, England. As a young man Ernest Jackson served in the Imperial Army, 1914-1918. After four years of war many changes were necessary to adjust one's self to the civilian status of life. Having landed interests in Canada the Jacksons made their first trip to the Western prairies in 1919, where Ernest Jackson decided to take advantage of the Soldier Settlement land available at that time. As the years passed additional acreage was purchased and the Jackson Farm now consists of just over 2,000 acres, which is all under cultivation. The crops being rotated from year to year, one half in summerfallow

and the balance in crop. With the firm conviction that "Better Seeds" would produce "Better Crops", Ernest Jackson became an enthusiastic advocate for better cereal grains, working in co-operation with the Saskatoon Experimental Station.

Success in this field was not easily attainable, as during the earlier years of experimentation, to produce Elite Stock under the rules and regulations of the Canadian Seed Growers Association, was a long and oftimes tedious process, in that each producer of Elite Stock was more or less on his own. This involved about five years' work. Head selections were made which mounted into the hundreds. Then each individual head was grown through three Progeny years—each being kept separate. The third year the desirable lines were bulked and they became the producers of Elite Stock, which in turn produces the First Generation Seed. Throughout the years Mr. Jackson has become adept at this work and has specialized in Marquis Apex, Thatcher and Rescue Wheat, as well as Banner, Vanguard, Ajax and Fortune Oats. In the early days crested wheat grass was included but has since been discontinued. His aim can be discerned in the slogan "We exhibit what we grow—but we do not grow to exhibit". Nevertheless high honours have always been awarded the Jackson Cereal Grains, including grand championship for Saskatchewan on "Marquis" Wheat, Regina, 1934, and Ajax Oats at Saskatoon. His main idea is to grow for perfection and to exhibit when possible.

The limited Elite production of the different varieties is all retained in the farm operations for the increased fields which produce First Generation Cereals. Nothing lower than Second Generation Registered Seed is ever grown on the Jackson Farm.

Jackson Farm.

1950 is the firs tyear in which the Sprinkler system of irrigation has been utilized on the Elite Plot, which necessitated an expenditure of \$1,400.00, irrigating six acres. This insures the yields in excessively dry weather. All Elite stock is handled by hand and is not subject to the contamination of the larger machinery. While the seed cleaning plant is not large it handles the work efficiently, with a capacity of 300 bushels in a ten hour period. A new irrigation project is now being tried out on one section under PFRA and in conjunction with the Rural Municipality of Snipe Lake No. 259. Should this project be developed as anticipated it will be the forerunner of other projects covering thousands of acres in this municipality. Power farm machinery is used for all farm purposes, including the latest seed cleaning equipment.

During the summer months the Jackson Farm is a hive of industry, many visitors are welcomed to inspect the various seed activities, including the plots, cleaning equipment, etcetra. As hospitality is an essential part of their life the Jacksons receive words of commendation from their many friends and visitors who invariably

stop to admire the landscaped gardens and their charming home, which is a fully modern, seven room, bungalow style. The garden is irrigated and a shelter belt of Russian Poplar and Ash with Carragana hedges make this one of the more attractive homes of the community.

The Jacksons are justly proud of the fact that their only son, Edward E. Jackson, is an enthusiastic believer in his father's work. A graduate of the School of Agriculture, University of Saskatchewan, he has done considerable Field Inspection and Achievement Day Judging for the Junior Grain Clubs throughout the Province, under the direction of Professor Gordon, Agricultural Extension Dept., University of Saskatchewan. A Registered Seed Grower in his own rights, he will shortly be serving his apprenticeship as an Elite Grower.

Ernest Jackson is the Central Seed Grower in the Eston District and the bulk of the farmers' crops trace back to his nurseries. A strong advocate of Science in Agriculture and a firm believer in the application of the findings of our Agriculture Research Scientists and Plant Breeders, he keeps abreast of the times in all matters pertaining to better crops, to the ultimate benefit of the users of his seeds. The farmers of the Eston District are assured of a warm welcome and a quick solution of their problems pertaining to crop improvements.

Ernest Jackson is at present, President of The Saskatchewan Seed Grain Co-Operative Association located in the Government Seed Cleaning Plant at Moose Jaw, Saskatchewan, and was the Founding President of this institution in 1947. This organization is the Seed Sales Agency for the Saskatchewan Branch of The Canadian Seed Growers' Association. The majority of the established League Growers of this Province are members of same. This is also the distributing agency through which most of the elevator companies procure their requirements for their farmer patrons.

farmer patrons.

1949 Ernest Jackson was made a Robertson Associate, which is the highest honour bestowed upon a seed grower. For the past ten years he has served as Director on the Saskatchewan Branch of The Canadian Seed Growers' Association and has been President of the Saskatchewan Branch of The Canadian Seed Growers' Association for the past two years. Has served three years as Director of the Dominion Board and holds a life membership in the Saskatchewan Field Husbandry Association. Locally he is Director on the District Agricultural Advisory Board for the Kindersley District and has for three years served on a research committee which recently started the Foundation Work on the new Disease Free Seed Programme, which is one of the ideals of our C.S.G.A.

Notwithstanding his activities with the various organizations and the work involved in superintending his own farm, he still finds time to lecture and advise numerous farm meetings, promoting lectures and introducing speakers, who through their greater knowledge and experience may be of benefit to his neighbors.

W. G. KNOX (second from left, with plaque)

Plaque presented to W. G. Knox, by the Kiwanis Club, of Moose Jaw, in recognition of his personal interest in the advancement of agriculture in Saskatchewan, particularly for the splendid results achieved as a grower of Elite seed grains and grasses.

Tuxford Farm Phone 6769r12

Barley

Moose Jaw Res. Phone 5077 1155 2nd Ave. N.W.

W. G. KNOX, of Tuxford, Saskatchewan, is well known throughout Saskatchewan as a grower of Elite Seed Grains and Grasses. A pioneer resident of the Tuxford district, he recalls filing on a homestead North of Marquis in 1903. W. G. Knox was born in Ontario and it was while on a harvest excursion to the west, as a very young man, that he heaves an enthysisatic advecte of a harvest excursion to the west, as a very young man, that he became an enthusiastic advocate of the prairies—visualizing great possibilities for future agricultural development, he decided to make his home in the west.

The original homestead was sold in 1907 and the present home farm six miles North and one mile West of Tuxford was purchased, consisting of 480 agres.

of 480 acres.

The Knox farm is considered one of the beauty spots of the district, with a shelter belt of pop-lars, ash and maple, while numerous pine trees and evergreens add much to the attractiveness of this modern Saskatchewan farm home. The farm home has been modernized and is built of field stone from the Qu'Appelle Valley. Water pressure systems have been installed and electricity is used throughout the farm. Machine sheds have been a factor in keeping all farm equipment in excellent condition.

In 1921 Mr. Knox became interested in producing better seed grains and grasses and started his first seed plot of barley. At that time four long years were spent in processing Elite seed. Today with the Experimental Farms eliminating much of the tedious work, seed stocks can be purchased from the Experimental Station. But with cassed from the Experimental Station. But with ever increasing interest and gradually furthering his knowledge through a "trial and error" method, he finally overcame his mistakes and became known as one of the successful Elite

growers of Saskatchewan.

The year 1950 completes 29 years as a member of continuous activity in the work of Canadian

Seed Growers.

During this twenty-nine years he has successfully produced crops of barley and wheat for registration, as well as oats and forage crop

seeds. W. G. Knox was made a Robertson Associate in 1948 and presented with the Robertson Asso-

A successful Elite grower, Mr. Knox advises, must have an inner urge for the work, considerable patience and the tenacity to overcome obstacles which at times seem to be almost un-

surmountable.

W. G. Knox is past president of the Saskatchewan branch of the Canadian Seed Growers' Association and is at present president of the Saskatchewan Agricultural Societies Association, director of the Moose Jaw Agricultural Society and director of the Saskatchewan Seed Grain Co-Operative, taking an active interest in all work connected with agricultural development. While residing in the city of Moose Jaw, he still carries on his fascinating work of growing better registered seeds. registered seeds.

# LANGDON SEED FARM

The Farm Home of A, J. Langdon, Registered Seed Grower, Moose Jaw, Saskatchewan.

A. J. LANGDON, REGISTERED SEED GROWER
—Two miles north of Archydale and sixteen miles
Northwest of Moose Jaw is the farm home of A.
J. Langdon, one of Saskatchewan's better known
growers of registered seeds.

The Langdon dwelling is a comfortable eightroom home, having been completely modernized, with hot and cold running water and electricity used for all domestic purposes. Groves of Russian poplar, willow trees, and well kept carragana hedges add much to the attractiveness of this modern farm. A large vegetable garden produces an abundant supply of fresh vegetables for year round use. Filtered wells provide excellent water for the house, while dugouts and a new P.F.R.A. Project, recently completed, provides water for the livestock.

A. J. Langdon's former home was in Arthur, Ontario. His first venture in western farming started back in 1913 as a renter. In 1917 he purchased 320 acres in the Archydale district and with more prosperous times additional acreage was added, bringing the total to 800 acres. For many years the Langdons engaged in mixed farming, raising wheat and coarse grains, also maintaining a small herd of Registered Shorthorn cattle with some Yorkshire swine.

The soil of the Langdon Farm is particularly adapted to the growing of wheat and coarse grains and is considered one of the finest farms in the District, being kept absolutely free of mustard, sow thistle and the various growths of weeds which are a plague to the average farmer. Mr. Langdon was awarded first prize in the Good Farming Competition sponsored by The Moose Jaw Times-Herald Ltd., for the purpose of encouraging a better type of farming. This competition has been held annually since 1940 and the first award of \$25.00 is based on various factors, among which are freedom of weeds, maintenance of livestock, machinery, etc., etc. Visiting the Langdon farm the judges were amazed at the complete elimination of weeds and Mr. Langdon cherishes their remark, "Most places we can see , weeds, but on the Langdon farm we have to hunt for them."

With the farm all shipe-shape and tidy, Mr. Langdon looked for new fields to conquer and decided to use the knowledge he had gained throughout the years in growing better seed grains and grasses. Beginning with Registered Marquis wheat and Victory oats in 1930 he rapidly mastered the technique of culling and replanting from first generation seed until he was convinced his grain seeds came up to the highest standard. In this manner he soon became known for his excellent showings at various Seed Grain Shows. During the first few years he confined his exhibits to the local Agricultural Seed Grain Shows. In 1947 his REWARD wheat was awarded high honours at the Toronto Royal. Prizes have been taken consistently at the Moose Jaw Agricultural Fair and in 1950 the Grand Championship was awarded to A. J. Langdon for the best sample of Registered Thatcher wheat, Provincial Seed Fair, Saskatoon, Saskatchewan.

The soil of the Langdon farm has proved excellent for the growing of seed grains and great care is given the selection of first generation wheat. The provincial government inspector is consulted at all times regarding foundation seed.

A. J. Langdon is Past President of the Moose Jaw Agricultural Society and is at present on the Board of Directors, Vice-Chairman of the Wheat Pool Committee and a member of the Co-Op Seed Growers' Association, taking an active interest in all work connected with the betterment of the community in which he lives.

# Moose Jaw and District Registered Cattle Breeders

Including Braeburn Shorthorn Farms, Swift Current, and Checker Hereford Farm, Regina.

OATLANDS STOCK FARM: Located twelve miles Northeast of Moose Jaw, is owned and operated by A. D. Pocock, Breeder of Registered Red Poll Cattle.

A. D. Pocock spent the earlier years of his life in England, his home being at Croydon, near London. In 1907 Mr. Pocock made a visit to Canada and realizing the opportunities offered by the opening up of new lands in the West, purchased a half section of land near Tuxford, Saskatchewan. The following four years were spent as a grain grower. In 1911 he purchased Oatlands Stock Farm, consisting of 960 acres, additional acreage has been added until today Oatlands has 1,280 acres of arable land with 160 acres in pasture land. There is an excellent water supply from dugouts in the home pasture and the main pasture borders Moose Jaw Creek, bush along the banks provide ample shade for the cattle. The barn is 40x60, electric lighted, with running water piped in the barns. Storage room in the lofts provide hay for the entire Winter. The barn accommodates 35 head of cattle. Alfalfa and some Crested Wheat Grass are grown for Winter feed.

During the earlier years, Mr. Pocock spent considerable time as a breeder of Columbian Wyandottes and Yorkshire Swine for show purposes, but in 1927 purchased a foundation herd of Red Polled cattle from H. E. Waby of Enderby, B.C. The herd has been gradually increased and now numbers around thirty head. All females or their dams have qualified in C.R.O.P. At present the Oatlands Red Poll Herd is the only herd in Saskatchewan fully qualified.

The herd has been shown successfully on the A Circuit, Brandon, Regina, Saskatoon, and Edmonton, as well as locally. Winning many championships.

Oatlands Coral 11710, sired by Kelowna Red Lad No. 7502, a daughter of Oatlands Daisy 10414, has proved herself a winner, both for show and as a producer.

Her greatest record was in 1946, production for that year was 18,184 lbs. of milk and 748 lbs. of butterfat which qualifies her as the highest milk and butterfat producing Red Poll in the Dominion of Canada. PRESENT HERD SIRE: Oatlands Broadway, whose dam is Oatlands Daisy—10414— C.R.O.P. 11,428 lbs. of milk and 464 butterfat.

A. D. Pocock is a member of The Canadian Red Poll Assn. and a member of The Saskatchewan Red Poll Club, a Director on the Moose Jaw Fair Board and takes an active interest in all work connected with the breeding of better livestock.

SANGAMO FARM: Located seven miles North of Pasqua, Saskatchewan, is owned and operated by George M. Cooper, Breeder of Registered Scotch Shorthorn Cattle and Registered Percheron Horses.

Isaac W. Cooper, father of George M. Cooper, was a native of Springfield, Illinois, moving to Canada in 1908. Four hundred and eighty acres of land was purchased near Pasqua and since that time many added improvements have made Sangamo Farm one of the finest farms in the district.

In 1931, Mr. Cooper retired on account of ill health and George Cooper took over complete management of the farm.

In 1911, I. W. Cooper had a carload of Registered Percheron Horses sent up from Illinois. The stud was later increased to thirty head and many prizes have been taken by the Sangamo Percherons, among which have been high honours at the Toronto Royal, 1949, Champion Percheron Gelding 1st Prize 3-year-old mare; 1950, Sangamo Dam and Grand Champion Percheron Gelding, Royal Winter Fair, Toronto, with showings on both the A and B Class Circuits.

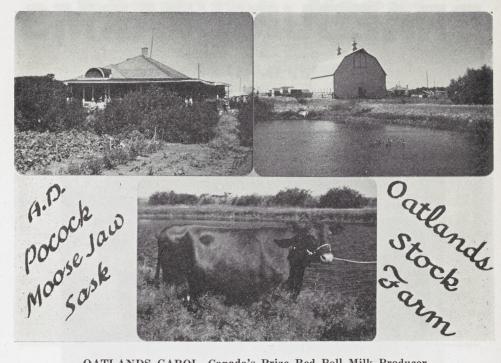

In 1921, Isaac Cooper became interested in the breeding of pure bred cattle, purchasing a foundation herd at the Regina Spring Sale. The herd has been increased from year to year and now numbers around forty head of pure bred Shorthorns.

PRESENT HERD SIRE: Beachfield Reformer -310725.

With the exception of local fairs the herd has not been shown extensively as the sales are easily made in the home vicinity.

Sangamo Farm now consists of 960 acres in wheat and coarse grains, while one-half section is used for pasturage. The grain elevator has a capacity of around 12,000 bushels with seed and grain cleaner; the chopper is run by a stationery engine.

George M. Cooper is Vice-President of the Moose Jaw Agricultural Society and President of Sask. Livestock Board, taking an active interest in all work connected with the breeding of better livestock.

BRAEBURN FARMS, located six miles south and two miles east of Swift Current, is owned and operated by John D. Bell, breeder of Registered Scotch Shorthorn cattle. The herd numbering over 100 head is one of the largest and best known in the province.

The late J. A. Bell, father of John D. Bell, played a large part in the development of Swift Current district. He purchased a section of land in 1904 and expanded continually until he owned and operated 13,000 acres at the time of his death in 1937.

John D. Bell attended school at Indian Head, Sask., Upper Canada College Toronto and Ontario Agricultural College, Guelph where he became interested in purebred livestock. His first purchases were several cows from herd of D. G. McKay, Beverly, Sask.

About 1935 he increased his herd considerably by purchasing several females from well-known Ontario herds and the purchase from Jas. Douglas & Sons, Caledonia, Ont., of the good bull, Browndale Warden, first prize winner at the Toronto Royal Winter Fair. Succeeding herd sires were two bulls imported from Scotland, Larbert Topper (Imp) and Admiral (Imp).

Elbrlaw Sensation—271665—sired by Klaymore Freebooter, considered the best bull in Canada today.

Since 1940 the Braeburn herd has several times won championships and obtained highest price at the Regina Winter Fair.

John D. Bell is well known as a director from Saskatchewan to Canadian Shorthorn Association and also as a director of the Saskatchewan Shorthorn Club.

\_\*-

THE McKENZIE HEREFORD FARM: Located eight miles North and three and one-half miles West of Moose Jaw, is owned and operated by Wilfred D. McKenzie, Breeder of Registered Hereford Cattle. The farm is two and one-half miles

North and two miles West of Belbeck, which is the post office.

Wilfred D. McKenzie is a son of the late Alex McKenzie, well known in Moose Jaw as one of the pioneer settlers of the Belbeck district, purchasing his farm of 800 acres in 1903 and previous to that time for many years an employee of the C.P.R. with headquarters at Moose Jaw. At his death in 1922 the farm was continued under the direction of the sons of the family of which there are six. Alex McKenzie took an active interest in all community affairs and was President of the Moose Jaw Agricultural Society, as well as a Director on the Moose Jaw Fair Board, covering a period of years.

In 1935, Wilfred McKenzie took over 160 acres of the home farm, leasing an additional half section on a rental basis. In 1944 he purchased the home farm, giving him a total acreage of 480 acres with an additional 480 acres 16 miles North in the Qu'Appelle Valley, which is used for pasturage. Sixty-five acres are in Alfalfa and Crested Wheat Grass for winter feeding.

In 1944, Wilfred McKenzie became interested in the breeding of pure bred cattle, purchasing a foundation herd of Registered Herefords from the late T. C. Clarke of Lake Valley, Saskatchewan.

FIRST HERD SIRE: Beau Domino 163rd —130198—, purchased from Alex Mitchell of Lloydminster, Saskatchewan.

PRESENT HERD SIRES: Maple Lad 135th 235428.

1945. The Junior Champion Female was awarded the McKenzie Herefords.

Daisy Domino —178226— Grand Champion Female, Regina Spring Sale, 1946, was owned by the McKenzie Hereford Farm and sold to Wm. H. Lewis of Imperial, Saskatchewan.

The Qu'Appelle Valley pasture has excellent spring water and is well treed, which supplies abundant shade during the summer months.

The barn on the home farm is 40x70, with a hayloft 32 feet high, which gives ample room for hay storage for the winter months. The barn is electric lighted, with running water pumped from a near-by pond to the buildings. A fully modern dwelling is considered one of the most attractive homes in the community.

As a hobby, Wilfred McKenzie keeps saddle horses which have been prize winners for a number of years at the Moose Jaw Summer Fairs.

Wilfred D. McKenzie is a member of the Canadian Hereford Assn. Member of the Moose Jaw Agricultural Society and a Director on the Moose Jaw Fair Board, taking an active interest in all work connected with the breeding of pure bred livestock and the growing of better grain.

BURNSVALE SHORTHORN FARM: Located 8 miles North on No. 2 Highway and four miles East of Moose Jaw, is owned and operated by Harold E. Grigg, Breeder of Registered Scotch Shorthorn Cattle and Percheron Horses.

Harold E. Grigg was born in Seaforth, Ontario. On a trip west in 1915 he decided to settle in the Belbeck district, near Tuxford, renting for the first three years and purchasing Burnsvale Farm in 1919, which consisted of 480 acres. Four hundred and fifty acres are under cultivation, wheat and coarse grains. The balance is in pasture land. Brome grass is raised for feed. Ponds and cisterns furnish an abundant water supply. There is a shelter belt of Carragana and green ash near the house. Burnsvale Farm has a comfortable sixroom dwelling. The barn is 56x28 with a fourteenfoot lean-to. Water is piped from cisterns to the barn, while ample loft room holds a plentiful supply of winter feed.

For many years Mr. Grigg has been known as a breeder of fine Percheron Horses, many of

them being awarded high honours at the Moose Jaw and Regina Shows, Star Pointer (12378), bred by E. G. Waller, of Wapashoe, Saskatchewan, winning the grand championship at Moose Jaw, and Melaet (Imp.) taking the grand championship at the Regina Spring Horse Show and Winter Fair, 1940. That same year Mr. Grigg purchased the Grand Champion mare Stella (17468), winner of the grand championship for two consecutive years.

In 1939, Mr. Grigg decided to specialize in the breeding of pure bred cattle, purchasing a foundation herd of Registered Scotch Shorthorns from J. D. Bell of Swift Current, and Matthew S. Longmuir of Grainlands, Saskatchewan. The herd now numbers around twenty head and has not been shown extensively with the exception of local Fairs. Nonetheless the finest Sires have been purchased from some of the leading breeders in the West.

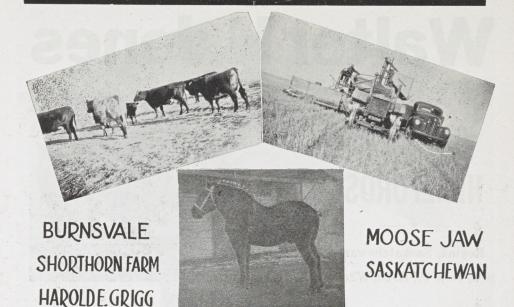

Among well known Herd Sires owned by Burnsvale Farm have been: Burnside Dauntless —251760—, bred by Matthew S. Longmuir of Grainlands, Sask.; Lismore Trooper —261506—, bred by A. S. McDougall of Alberta.

The present herd sire was purchased just recently and is of Gallinger breeding.

The Registration Herd name is "Burnsvale". Visitors are always welcome to inspect the herd.

Harold Grigg is a member of the Saskatchewan Shorthorn Club and past Director of the Saskatchewan Percheron Club, maintaining his memberships in both clubs. He takes an active part in all work connected with the breeding of pure bred livestock.

## CALL and SEE US

• VISITORS ALWAYS WELCOME •

Dial 797133, Regina

CHECKER HEREFORD FARM: Located 14½ miles Northwest of Regina on No. 11 Highway, one-half mile North of Boggy Creek School is owned and operated by Walter H. Jones, Breeder of Registered Hereford Cattle. "Walt" Jones as he is known by his friends has lived in the Conde District all his life, as his father was one of the Pioneer settlers of the district, purchasing the home farm in 1903. The Jones family were residents of Simcoe County, Ontario, for many years, but on a visit to relatives in the West in 1903 the golden possibilities of the Prairies induced him to purchase 320 acres and start a new home in Saskatchewan. Wheat and coarse grains were the main crops grown, while a herd of good grade Shorthorns with some registered were always maintained at The Jones Farm.

Walter Jones grew up in this district and attended the Boggy Creek School. He was married in 1940 and on his father's retirement in 1947 to Penticton in the Okanagan Valley, British Columbia, Walter took over complete management of the home farm. Checker Farm is well treed with a cultivated shelter belt of Ash, Elm, Maple, Blue Spruce and Carragana Hedges. An abundance of water is obtained from wells on the farm. Boggy Creek winds its way through the pasture lands providing plenty of water for the herd. 540 acres are under cultivation, mostly wheat, oats and barley. Alfalfa is raised for forage. The barn is 35x50 accommodating around 25 head of cattle. Sufficient hay is baled to last throughout the Winter months. Power farming is carried on extensively and as the Power Commission has now extended its lines to include these rural areas, electricity is used for all domestic and farm purposes. The home is fully

modern (7 rooms) with hot water heating system and modern pressure water installations. A new Massey-Harris Deep Freeze is an added improvement which is highly appreciated.

Since boyhood Walter Jones has always taken a keen interest in Hereford Cattle, He purchased his foundation stock from Roy Peel, of Bethune, consisting of three females. Since that time the herd has been built up and now varies from 16 to 20 head, as quality and maintenance of the herd, Mr. Jones feels, is more important than large numbers. At present the Wyoming strain is being retained and is culled each year so that only the best is retained for the Checker Herd.

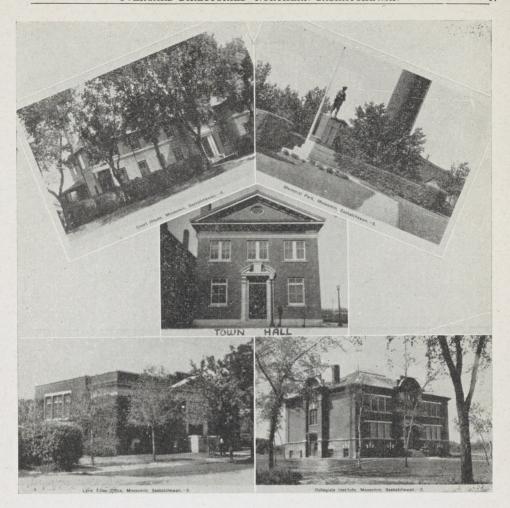

In 1945 the Checker Herefords were awarded their first ribbons.

1947, Toronto Royal—Checker Bocaldo 2nd —183536— was awarded Third prize.

1948, Regina Spring Sale—Checker Bacaldo 2nd—183536— was awarded Senior and Grand champion and was purchased by W. J. Boren, of Yellow Grass, for \$1,625.00—being top priced animal of the sale.

The Checker Herd is now in the process of becoming an accredited Herd.

W. H. Jones is a member of The Saskatchewan Cattle Breeders' Association and The Canadian Hereford Association, is a Trustee of the Boggy Creek School Board taking an active interest in all work connected with the breeding of better livestock.

Saskatchewan

THE CLIFFS FARM—Located four miles South of Moosomin on No. 8 Highway is owned and operated by T. J. C. Reid, known to his friends as "Carlyle" and recognized as one of Saskatchewan's Pioneer Breeders of Registered Hereford Cattle as his initial herd was started when Carlyle was 11 years old, an uncle presenting him with a pure bred Hereford heifer calf. As he became older the idea of developing the herd became his main ambition and a few years later his father purchased a Herd Sire and two heifers in Eastern Ontario, shipping them to his son. The herd steadily increased and soon numbered 150 head, but the drouth years and lack of feed made it impossible to maintain a herd of this size, as a result the majority of the herd was disposed of in 1939 to a buyer from the States. Towards the end of 1939 things began to assume a brighter aspect and during the latter part of the year, Mr. Reid purchased a new foundation stock consisting of 20 females and a Herd Sire, W. S. Domino 564th—115882— from Frank Collicutt, of Crossfield, Alberta. The herd now numbers around 80 head.

Carlyle Reid has been a resident of the Moosomin District since childhood, his father, the late T. H. Reid, being one of the Pioneer settlers of the district, homesteading here in 1904, a half section of land had been purchased previous to filing on the homestead. During the early years wheat and coarse grains were the main crops grown while a large herd of good grade cattle were maintained at The Cliffs Farm. Situated on the banks of the Pipestone River and a large part of the farm being located in the Pipestone Valley, the farm derives its name from the numerous cliffs along the river.

In 1921 T. H. Reid retired, leaving complete management of the farm to his son, another 480 acres was purchased and today The Cliffs Farm consists of 960 acres. 500 acres under cultivation, wheat and coarse grains with around 40 acres in Brome Grass for Winter feed. The balance is in natural hay lands with an extra 160 acres leased adjoining the home farm, which is also used for pasture.

The Cliffs Farm is well treed with a natural timber belt, while an abundance of water is available from wells and the Pipestone River which flows through the pasture lands.

The barn is L shaped 36x72, built in the Ontario style "Bank Barn" with driveway.

The windmill pumps water into a large reservoir in the barn which supplies clear, running water throughout the year.

The Cliffs Farm Herefords have not been shown extensively, owing to labour shortage, however, the herd was awarded the following prizes during 1949:

Moose Jaw: Junior Yearling 2nd, Junior Champ Bull, Res. Grand Bull, 2-year-old heifer 1st, Yearling heifer 1st and 2nd, Junior Champ and Reserve, Grand Champ Female, Graded Herd 1st, Get of Sire 1st.

Weyburn: Junior Yearling Bull 2nd, Heifer 2 years 2nd, Heifer 1 year 1st and 2nd, Get of sire 1st.

Yorkton: Junior Yearling Bull 2nd, Bull Calf 2nd and 3rd, Junior Yearling Heifer 1st and 2nd, Get of Sire 2nd, Progeny of Dam 2nd.

Present Herd Sire OLD ORCHARD MONARCH 17th—193569— (half brother to 1946 Grand Champion Toronto Royal).

Junior Herd Sire OLD ORCHARD MONARCH 41st—244691—.

Carlyle Reid is past president of The Saskatchewan Hereford Breeders' Association and Past Director of The Canadian Hereford Association, taking an active interest in all work which furthers the breeding of purebred livestock.

In the Fall of 1949, Carlyle's son, Grant, was married to Miss Phyllis Kilpatrick. Grant has now taken over the management of the farm while Carlyle resides in Moosomin. GEO. A. WHITING,

MOOSOMIN

SASKATCHEWAN

PRAIRIE DALE STOCK FARMS: Located 12 miles Southwest of Moosomin and 9 miles North of Doonside, Saskatchewan, on the C.N.R., are owned and operated by John J. Fawcett and Sons, Breeders of Registered Hereford Cattle. Fred Fawcett, one mile North is a breeder of Registered Hereford Cattle, maintaining an independent herd of his own. Percy lives close by but specializes in wheat farming extensively. Edward Fawcett is now taking an active interest in the home herd. He is in partnership with his father and manages his own sales and the purchasing of new manages his own sales and the purchasing of new

John Fawcett's father, the late Thomas W. Fawcett, was one of the pioneer settlers of the Spring Creek district. A native of Yorkshire, England, he visited Canada in 1882 and stayed to take advantage of the opening up of new lands in the West, filing on a homestead, which is now a part of the home farm. John J. Fawcett was born here and has spent his life as a solid member of the community. Additional acreage has been added from time to time and Prairie Dale Farms now consists of 3,360 acres. The original Prairie Dale Farm has 1,960 acres, 1,000 acres under cultivation, mostly wheat and coarse grains, with Brome Grass, Crested Wheat and Sweet Clover for pasture and winter feed. Nine hundred and sixty acres are in natural pasture land, with an abundant water supply, as Spring Creek flows through the pasture land. Shallow wells near the barns provide water for winter use, which is piped into the barns. Ravines and coulees with natural growths of poplar give plenty of shade for the herd. Four large barns with additional shed room provides shelter for the cattle in inclement weather. The house is fully modern and is considered one of the finest in the Moosomin district. Caragana and lilac hedges, rows of

Evergreen trees, well kept lawns and gardens make this home a credit to the community. A shelter belt of maple, ash and some spruce gives protection from the protection from the winter winds.

protection from the winter winds.

Prairie Dale Farm has always maintained a large herd of good grade cattle. In 1930, John Fawcett purchased a foundation stud of Percheron Horses; from ten to twelve comprised the stud until around 1940. The use of power farm machinery has made it unfeasible to keep any great number, as power farming is now being used extensively. Becoming interested in the breeding of pure bred cattle, a foundation herd of Registered Herefords was purchased from well known Saskatchewan breeders. The herd has been built up each year and now numbers over a hundred Registered Herefords and 200 excellent grade Herefords for commercial purposes. grade Herefords for commercial purposes.

Well known herd sires have been purchased from many of the leading ranches in the province. Silton Mixer 3rd —98094—.
Silton Mixer 3rd —98094—.
Silton Lad —102833—. Both bred by Albert Williams, of Silton, Saskatchewan.
Beau Domino 194th —138438—, purchased from Alex Mitchell, Lloydminster, Saskatchewan.
EXL Domino 63rd—156626—, bred by J. S. Palmer & Sons of Marsden, Saskatchewan; Woodlands Domino Perfection 5th—155173—, bred by W. N. Catley, Craven, Saskatchewan.

The herd has not been shown extensively with the exception of the Fat Stock Show held an-nually at Mossomin, Saskatchewan. However, the herd is culled annually and only the best re-

John Fawcett & Sons are members of the Canadian and Saskatchewan Hereford Assn., taking an active interest in all work connected with the breeding of better livestock.

# MOOSOMIN MINK RANCH

MRS. S. H. CALVERT

 Selective breeding and meticulous culling safeguards your interests when purchasing our stock.

MOOSOMIN

SASKATCHEWAN

THE MOOSOMIN MINK RANCH—Located on the townsite of Moosomin is ewned and operated by Mrs. S. H. Calvert, while the Ranch is comparatively small the stock is culled annually and only the "Top Notchers" are retained as breeders.

Mrs. Calvert started the ranch as a hobby in 1938, her foundation stock consisted of two Gothier Standard females, purchased from The Neilson Fur Ranch of Charleswood, Manitoba. Later additional stock was purchased from Frank Gothier & Son of Anthon, Iowa.

Walter Lefurgey, at that time Government Field Man, gave Mrs. Calvert much valuable assistance and advice in regard to selection of the mink and other details which were foreign to her in this new work. Mrs. Calvert had taken a short preparatory course at The University of Manitoba. Manitoba.

The herd now numbers around 300 head and during the past year Mrs. Calvert has added the Mutations Mink (Royal Koh-i-nur) Silverblu and intends to stock the Glacier Blu in the near future.

future.

The Mink Ranch is equipped with standard pens, while the breeding stock is housed in comfortable quarters. The outdoor pens are well shaded with plenty of depth which allows for freedom of movement.

The Herd has been culled vigorously until the present stock is of an exceptionally high standard. Only the finest stock is used for breeding purposes.

ing purposes.

The Calverts have been residents of Moosomin for many years, as the late S. H. Calvert was associated with the R. D. McNaughton Co. Ltd., for over forty-eight years.

### MORSE, SASK.

Population 550.

A P.O. and Incorporated Town in S. 9, Twp. 17, R. 8, W 3rd, in Swift Current Dom. Elec. Dist., Morse Prov. Elec. Dist., Swift Current Land Reg. & Jud. Dists., Mun. No. 165, on the main line of the C.P.R. 80 miles West of Moose Jaw and 37 miles East of Swift Current. Has C.P. Telegraph and Express, Sask. Govt. local and long distance telephones, good public and high schools, United, Church of The Nazarene and American Lutheran Churches. Transcontinental schools, United, Church of The Nazarene and American Lutheran Churches. Transcontinental Bus serevice East and West daily. Being situated between the cities of Swift Current and Moose Jaw on the main line, it has every facility for being a first-class marketing centre. Morse is on Highway No. 1 (black top) East and West and No. 19, which gives a graveleled highway South to the United States border. There are six elevators handling approximately 350,000 bushels of grain annually; considerable livestock is shipped from this point. An excellent hotel, two garages, farm implement agencies, two service stations, two hardware stores, locker plant, lumber yard, four general stores, beauty parlour and several other places of business meet the needs of this thriving community. A new medical clinic has recently been completed. The theatre is operated by the Board of Trade. The Morse curling rink has two sheets of ice with an open air skating rink; an open tennis court is kept in good condition throughout the summer months. tion throughout the summer months.

Good water is supplied by deep wells pumped into reservoirs, the water is piped into the homes and standpipes serve outside areas.

FIRE PROTECTION: Six hydrants with up-todate equipment, including over a thousand feet of hose.

The R.M. of Morse has been established as a T.B. free area and is the Pure Bred Sire area for livestock.

The C.P.R. steel was completed to this point in 1896. Morse was incorporated as a village in 1910 and became a town in 1912. The pioneer settlers were from Eastern Ontario.

Morse derives its name from Morse, Western Supt. of the C.P.R.

PEN BRAE AYRSHIRE FARM: Located on the Northern edge of the Town of Morse, Saskatchewan, is owned and operated by J. D. Roberts, breeder of Registered Ayrshire cattle.

J. D. Roberts is a pioneer settler of the Morse district. Leaving his home in Wales in 1906, he planned an extended tour of Canada and Australia, but as new lands were being opened up in Western Canada, he filed on a homested eight miles South of Morse; as a result of this move his trip to Australia was postponed indefinitely; nevertheless he plans a holiday in the near future and will assuredly finish the rest of the trip he started forty-three years ago.

Additional acreage has been purchased and Pen Brae Farm now consists of 960 acres. Two shelter Brae Farm now consists of 960 acres. Two shelter belts provide protection from the winds. A new home and warm, comfortable barns have been completed. Electricity is used for all domestic purposes. Adequate water for the livestock is provided by dams on the farm, the largest one being a P.F.R.A. project.

The Roberts have always maintained a good grade herd of Shorthorn cattle, but in 1928 they decided to deviate and start a pure bred herd, choosing Ayrshires as the most desirable and hardy. butterfat breed along economical lines.

hardy, butterfat breed along economical lines.

The foundation herd consisted of four females purchased from C. E. Thomas & Sons, Lloydminster, Saskatchewan. Gradually the herd was built up with the finest of herd sires being purchased for Pen Brae Farm. Around fifty head were maintained in 1930, but this number has been somewhat depleted during the past few years owing to feed shortage and now consists of eighteen head.

eighteen head.

One noteworthy herd sire bred at Pen Brae Farms was "Pen Brae Dark Glory", recently sold to H. Hathaway & Son of Dand, Manitoba. Periodically the Pen Brae Herd has been exhibited on the A Circuit and irrespective of competition, high honours have always been awarded the Herd.

J. D. Roberts has been Secretary-Treasurer of The South Saskatchewan Ayrshire Club for the past 20 years and served many years prior to 1947 as Director for Manitoba and Saskatche-wan on the Board of Canadian Ayrshire Breeders' Assn. He has recently been elected for

Breeders' Assn. He has recently been elected for 1950 and 1951.

The year 1950 also starts his sixth year as President of the Morse Board of Trade and for the past four years Mr. Roberts has held the post of vice-president for the Morse Co-Op. Assn. Ltd., taking an active interest in all work connected with the breeding of better livestock and the building of a better community.

Harold Lloyd Roberts, the youngest son, is now associated with his father in agricultural and livestock nursuits.

and livestock pursuits.

BESTROP'S HEREFORD FARM: Located six miles North of Morse, Saskatchewan, is owned and operated by A. P. Bestrop & Son, Breeders of Registered Hereford Cattle. A. P. Bestrop has now retired and is living in Mose Jaw, his son "Bernie" has taken over complete management of the farm and herd.

A. P. Bestrop is one of the pioneer settlers of the Rolling Plains District. A native of Denmark, espent his boyhood on his father's Dairy Farm, located on the small island of Bornholm, which lies between Denmark and Sweden. At the age lies between Denmark and Sweden. At the age of 17 he sailed for the United States, to visit an uncle who lived near Cornell, Wisconsin. Later he decided to investigate the possibilities of filing on land in Western Canada, which eventually led him to Morse, Saskatchewan, where he filed on a homestead in 1907. At that time horses were used with walking plows, which meant long hours of hard work in clearing the land, but with perseverance the prairie lands were transformed into fields of golden wheat.

As the years brought prosperity to the Western farmers, additional acreage was added to the home farm until today the farm consists of 3,200 home farm until today the farm consists of 3,200 acres, 1,800 under cultivation, mostly wheat and coarse grains with some Crested Wheat grass. The balance or around 1,400 acres are in pasture land. Natural springs throughout the pasture provide an abundant supply of water for the herd, while a large well supplies excellent water for the house. A cultivated shelter belt of Poplar, with Carragana hedges surrounds the dwellings. The barn is 70x38, large enough to accommodate around 35 head of cattle. Ample loft space is reserved for the storing of Winter feed. The dwelling has 10 rooms, electricity is used for all domestic purposes. Power farm machinery is used to operate the farm. In 1932 A. P. Bestrop and his son Bernard

In 1932 A. P. Bestrop and his son Bernard purchased a foundation herd of Registered Here-

fords from Nels Nelson, of Herbert, Saskat-chewan, consisting of five females, later five additional females were purchased from Gus Wolmer, of Tompkins, Saskatchewan. The herd has been gradually increased and now numbers around 65 head, which Bernard Bestrop feels is a sizeable herd to handle. Quality and maintenance of the herd being his objective.

In 1944 Bernard Bestrop married and took over complete management of the farm, his father retiring from further farm activities.

The Bestrop herd has not been shown on either the A or B Circuits, nevertheless Quality has been the keynote in the selection of herd

Among the well-known herd sires owned by the Bestrops are:

Bocaldo Beau Baldwin -96985- bred by J.

Bocaldo Beau Baldwin —99985— bred by J. S. Palmer & Sons, of Marsden, Saskatchewan. Beau Domino 242nd —149516— bred by Alex Mitchell of the Battle River Ranch, Lloydminster, Saskatchewan. This herd sire was purchased at the Regina Spring Sale, 1943.

PRESENT HERD SIRE: Onward PRESENT HERD SIRE: Onward Trumode Domino 123rd —271885— purchased of E. C. Heidecker, of Middle Lake, Sask. Highest priced grade A Bull at the Saskatoon Polled Hereford Sale October 4th, 1950. Loyal Rupert —196812—half brother of Dynamo Victor —195561—Reserve Champion Steer, Toronto Royal Winter Fair 1946. Both sires being bred by Malcolm McGregor, of Brandon, Manitoba.

At present three heifers of the Del Zento strain purchased from Nels Nelson, of Herbert, Saskatchewan, show great promise.

A. P. Bestrop & Son are members of The Canadian and Saskatchewan Hereford Breeders' Association, both have served as councillors for the R.M. of Morse No. 165, taking an active interest in all work connected with the betterment of the community in which they live.

### CHRYSLER - PLYMOUTH CARS and FARGO TRUCKS

TREMBLAY'S HEREFORD RANCH: Located thirteen miles Northwest of Courval, is owned and operated by Wilbrod Tremblay & Sons, Breeders of Registered Polled Hereford Cattle. The Tremblays are pioneer settlers of the Courval District, having filed on homesteads in 1910. Father Gravelle, who brought so many settlers to the Gravelbourg district, had given their father, the late Frank Tremblay, glowing accounts of the western prairie lands and in spite of the fact that the Tremblays had been residents of Quebec for western prairie lands and in spite of the fact that the Tremblays had been residents of Quebec for nearly three centuries, Frank and his wife with their five sons made ready for their long trip west to become pioneers of western Saskatchewan. Some of the boys were old enough to file on their own homesteads which together with their pre-emption claims gave them a total of 1,000 acres. They cleared the land and made the soil ready for planting with four teams of oxen and walking plows. At harvest time the grain had to be hauled a distance of twenty-five miles to Mortlach, haulied a distance of twenty-nve miles to Mortlach, their nearest station. As the years passed additional land was purchased and four years before his death, which occurred in 1943, Frank Tremblay divided the land equally between his five sons. They in turn have increased their acreage and have modern up-to-date farm homes of their own. Frank Tremblay always maintained around one hundred and fifty good grade Herefords, but outside of Wilbrod, only two of the boys have recently become interested in the breeding of Registered Herefords, although they all maintain large herds

of good grade cattle.

Wilbrod Tremblay was given the original home farm, consisting of 480 acres and located just one mile North of Courval. To the original farm additional acreage has been added and Wilbrod now have 11.00 acres, under wilitation, wheat and core tional acreage has been added and Wilbrod now has 11,920 acres under cultivation, wheat and oats being the main crops grown with 200 acres in Crested Wheat Grass. Power farm machinery is used for all farm operations. Two large barns and additional cattle sheds provide shelter for the herd in winter, as the herd is brought down from the range each fall to be wintered and fed. Ample loft room accommodates around four hundred tons of hay. Two large dugouts and a deep well give

an ample supply of water. Fourteen Pinto ponies are kept for saddle use. The farm home is a semi-modern bungalow consisting of six rooms.

Wilbrod Tremblay became interested in the breeding of Registered Herefords in 1940 and purchased a foundation herd from Malcolm McGregor of Brandon, Manitoba, consisting of six females. Four years later he purchased fourteen females and a herd sire from the Oliver Grieve Ranch of Lauder, Manitoba. The herd has gradually been built up and now consists of 130 Registered head. The Tremblay Hereford ranch is located thirteen miles north of Courval and consists of 3,000 acres, which is used as a summer range for the herd. Water is provided by natural springs throughout the pasture lands. Wilbrod Tremblay has five sons associated with him, Joseph, Romeo, Gabriel, Gaston and Andre, who take a keen interest in the maintenance of the herd. the herd.

The Tremblay herd has not been shown on either the A or B circuits, as the distance to show centres make it inconvenient and the Tremblays

feel that maintenance of the herd and quality breeding are of greater importance. Among well known herd sires owned by the Tremblays are:

Bonnie Beau-12925, bred by Termuende Bros.

Bonne Beau—12925, bred by Termuende Bros. of Lanigan, Saskatchewan.
Advanced Domino P 15th—158242—bred by Hughes Bros. of Didsbury, Alberta.
PRESENT HERD SIRE: Polled Ioway Domino—167888—bred by Gunder Olson of Birch Hills, Saskatchewan.

The Tremblays have recently moved into their new, fully modern home in Courval, as Mr. Tremblay also carries on a farm implement agency for Cockshutt Farm Implements and Chrysler-Plymouth motor cars and trucks, with garage in

connection. Wilbrod Tremblay has served as councillor for the R.M. of Rodgers No. 123 for eleven years, has served on the local Courval School Board, is a member of the Canadian Hereford Breeders' Association, taking an active interest in all work connected with building a better community.

GRANDFIELD STOCK FARM: Located five and one-half miles North of Herbert, Saskatchewan, is owned and operated by G. W. Francis & Sons, well-known breeders of Registered Shorthorns and Yorkshire Swine.

G. W. Francis is one of the pioneer settlers of the Coxley District, having left his home in Somersetshire, England, at the age of 19 to carve his future in Western Canada. Due to the carve nis future in Western Canada. Due to the fact that one could file on a homestead and also secure a pre-emption in Saskatchewan, Mr. Francis filed on 320 acres near Herbert in 1909. This original 320 acres now comprises a part of Grandfield Stock Farm, however, additional acreage has been purchased and the farm now consists of 1,280 acres. Approximately 1,000 acres are under cultivation, mostly wheat and coarse grains with some Brome Grees Creeked acres are under cultivation, mostly wheat and coarse grains, with some Brome Grass, Crested Wheat and Alfalfa for feed. When G. W. Francis cleared his land in 1910, oxen were in their heyday and were used for clearing the land, transportation as well as church meetings and neyay and were used for clearing the land, transportation as well as church meetings and visiting on Sundays. Now power farm machinery is used exclusively. Natural springs throughout the pastures supply an abundance of water. A cultivated shelter belt of white spruce, elm, Russian Poplar, Cottonwoods, willows and some Jack pine help to make this one of the more attractive homes of the district. Carragana hedges surround the grounds. Some fruit trees consisting of plums and apple trees, as well as raspberry bushes and the hardier types of berries are grown. A large vegetable garden supplies a variety of greens for the table. The home is a credit to its surroundings, of the semibungalow type it has ten rooms with a full sized basement. Water pressure system and hot water heating make this farm home fully modern, while electricity is used for all domestic and farm purposes. farm purposes.

The barn is a drive-in loft barn 38x72 and the immense loft will store 100 tons of feed, while 50 head of cattle can be sheltered from the Winter winds.

Yorkshire Swine are another special feature at Grandfield Farm, up-to-date modern, piggeries house around 35 head, which are culled annually and only the very best retained. Both young and fully matured breeding stock can be purchased during season.

Purebred Shorthorn Herd Sires have always been maintained on the Grandfield Farm, but in 1917 Mr. Francis purchased a Foundation but in 1917 Mr. Francis purchased a Foundation Herd of Registered Shorthorns from Henry Chapman, of Belle Plaine, Saskatchewan, with the idea of building up a sizeable herd, which now numbers around 50 head. The herd has not been shown on either the A or B Circuits, but have been awarded high honours at the local Agricultural Fairs. Some of the better known herd sires in the Grandfield Herd are: Grandfield Herd are:

Pride of Sunnyview -201506- bred by Charles

Pride of Sunnyview —201506— bred by Charles Stilborn, of Lorlie, Saskatchewan.
Valehaven Danny Boy —265142— purchased of C. N. Sinclair, Silton, Saskatchewan.
PRESENT HERD SIRE: Templar's Pride—305472—, sired by Klaymore Enterprise—226722— bred by W. J. Russell, of Ontario. Clarence Francis is now associated with his father, taking an active interest in building up the herd. Raymond Francis, who is now married, lives one-half mile North of Grandfield Farm. He has built up a sizeable herd of Registered Shorthorns of his own, having started with the modest beginning of one female, the herd now numbers around 20 head. During the breeding season the herds are pastured together.

around 20 head. During the breeding season the herds are pastured together.

G. W. Francis has been a Councillor of the R.M. of Morse for around 14 years. He spent 25 years as secretary of the local wheat pool committee and is at present a trustee of the Larger School Unit, Sub Unit No. 4, Unit 23. Is a member of The Canadian Shorthorn Breeders' Association and The Saskatchewan Swine Breeders' Association, taking an active interest in all work connected with the breeding of better, live stock. live stock.

NELSON'S HEREFORD FARM: Located 11½ miles Northeast of Herbert, Saskatchewan, is owned and operated by Nels Nelson, well-known breeder of Registered Hereford Cattle.

Nels Nelson was born on a farm near Tronjeim, Norway. His school days over, Mr. Nelson joined his brother John in Brainard, Minnesota. A couple of years later he filed on a homestead at Minot, North Dakota. In 1919 becoming aware of greater possibilities in Western Canada, he filed on a homestead and pre-emption in the Pony Butte District near Herbert, Saskatchewan. After the land was cleared, Mr. Nelson engaged in mixed farming for several year. With prosperous times additional acreage was added to the home farm which now consists of 1,280 acres, 800 acres under cultivation, mostly wheat and coarse grains with some brome and Crested Wheat grass, 640 acres are in pasture lands. Natural springs throughout the pastures provide an excellent supply of water for the herd. A shelter belt of poplars with Carragana hedges break the force of the cold prairie winds.

Well built barns and sheds provide shelter for the cattle, while ample loft room is reserved for Winter feed. For the past 10 years Mr. Nelson has made his home in the town of Herbert, superintending the ranch work personally, with a caretaker to handle the heavy work on the farm. The Nelson farm home is a ten-room dwelling, hot water heating systems have been installed and electricity is used for all domestic purposes.

In 1920 Mr. Nelson purchased a Foundation Herd of Registered Herefords at the Regina Spring Sale consisting of three two-year-old heifers and a herd sire. The herd has been gradually built up and now numbers around 35 head, which he feels is a good sized herd to maintain properly.

The Nelson herd has not been shown on either the A or B Circuit, but special attention has been given to good breeding and Herd Sire Lineage. Among some of the well-known herd sires owned by Nels Nelson are:

Maple Lad 21st -95313- purchased from the Snelgrove Ranch of Sintaluta, Saskatchewan.

Laudation 8th —82020— purchased from Wm. Wilson's Alberta Ranch.

Aiktow Bonnie Donald 2nd —125759— purchased from Fred McAuley, of Grainlands, Saskatchewan.

Excelsior Prince Domino 187th —160334—purchased from Hunter Bros., McLeod, Alberta.

PRESENT HERD SIRE: Ringwood Del Zento 3rd -212676-, bred by George Rodanz, of Stouffville, Ontario. This herd sire was purchased when about four months old and was sired by the famous Del Zento 1st, imported from the United States by George Rodanz, purchase price being \$51,000.00.

Nels Nelson is a member of The Canadian Hereford Breeders' Association and The Saskatchewan Livestock Breeders' Association. He is past councillor for the R.M. of Morse, trustee of the Pony Butte District School and President of the Herbert Agricultural Society. Taking an active interest in all work connected with the building up of his home community.

HARLEY I. GUSAAS, is one of the newer members of the Hereford Association, as he has taken over complete management of the Gusaas Hereford Farm located 13 miles Southwest of Mortlach, Saskatchewan, with Eastleigh Postoffice being the mailing address.

His father, Harold A. Gusaas, is one of the pioneer settlers of the Eastleigh District, having filed on a homestead in 1910. A former resident of Litchville, North Dakota, he moved to Western Canada with an idea of taking advantage of the opening up of new land to settlers. The homestead and pre-emption gave him 320 acres. In 1915 he purchased an additional 160 acres. Harley has since purchased 320 acres adjoining the home farm, which gives them 800 acres. 580 acres are under cultivation and the balance in pasture lands. An additional 640 acres has been leased from the Department of Agriculture for

grazing lands.

The Gusaas Farm has always maintained a good grade herd of cattle, but in 1922 Harold Gusaas purchased a Foundation Herd of Registered Herefords at the Regina Spring Sale, consist-ing of four heifers and later a herd sire was purchased from the late T. A. Clarke, of Lake

Valley.

In 1941 Harley married and was presented with a Registered heifer calf as a wedding with a Registered heifer calf as a wedding present. His herd now numbers around 15 head. The two herds are now pastured together and numbers around 60 head. Polled Domino Breeding numbers around 60 head. Polled Domino Breeding is given preference and the herd is culled annually. Two large dams in the pasture and a P.F.R.A. dugout near the house supplies water. Cattle sheds are used for shelter during the Winter but the herd roams the range during the summer months. A shelter belt of Maples, Poplars and Carragana hedges keep out some of the cold prairie winds. The Gusaas home is a comfortable six-room dwelling and is the original comfortable six-room dwelling and is the original

house built on the homestead in 1910. Electricity has been installed as well as a Servel Frigidaire has been installed as well as a Servel Frigidaire which combined with oil heating makes this one of the more modern homes of the district, as the house when originally built was built to last. Power Farm Machinery is used for all farm work. In 1947 Harold Gusaas, Sr., retired from active farm work and now resides in Moose Jaw, but he continues to visit the farm frequently and is an indefatigable helper during the busy seasons. Harley, Jr., is a graduate of the Mortlach High School and also a graduate of the Hemphill Diesel Engineering School of Vancouver. He has

Diesel Engineering School of Vancouver. He has built a work shop on the farm and handles his own repair work and welding. His wife is a former teacher and was born in Mortlach, where her father still resides.

The Gusaas Herefords have not ben shown on either the A or B Circuits, but have been awarded honours at the local Agricultural Fairs in past

PRESENT HERD SII Stanway 21st -230929-, E: Hilldale Domino purchased of George SIRE:

Wickens, Kenaston, Saskatchewan.

Harley I. Gusaas is a trustee of Eastleigh
School District No. 3311. Father and son are
both members of The Canadian Hereford Association and The Saskatchewan Livestock Breeders\* Association.

Improving the herd and purchasing the best of herd sires is the aim of Harley Gusaas in building up the Hereford Herd.

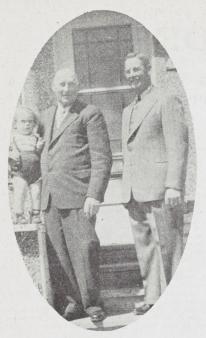

WILL'S HEREFORD RANCH: Located six miles Southeast of Mortlach, Saskatchean, is owned and operated by James Will, well-known breeder of Registered Hereford Cattle.

James Will was born in Aberdeenshire, Scotland, and was but a small boy when his father died, as with most families, his brothers and sisters

died, as with most families, his prothers and sisters gradually separated to carve out careers of their own and at the age of 19 James Will left to attend a military training camp, but shortly after his enrollment the Armistice for World War No. One was signed leaving him undecided as to the future. The West at that time offered as to the future. The West at that time offered great promise for future development and in 1921 James Will sailed for Canada, his destination being Mortlach, Saskatchewan. He was very fortunate in meeting the late T. A. Clarke, of Lake Valley, a pioneer breeder of Registered Herefords, who gave him his first job which proved to be a lasting one as he became foreman of the ranch and served in that capacity for the following 21 years.

In 1942 James Will married and purchased a half section in the Elkhead District, South of Mortlach. In 1944 he took over the old Clarke

half section in the Elkhead District, South of Mortlach. In 1944 he took over the old Clarke Ranch which he later sold, purchasing the Pemberton Ranch, two miles South of his home farm. The Pemberton Ranch consists of 640 acres in pasture lands. In 1947 he bought the Malcolm McIntyre Barn, 32x56, with ample loft room for winter feed and housing from 30 to 35 head of cattle. This building has been moved to his home farm. In order to provide additional pasture lands Mr. Will has rented 640 acres just two miles Southeast of his home ranch. There are 800 acres under cultivation, mostly wheat and coarse grains while Alfalfa is grown for winter feed. Two large dugouts have been constructed through the P.F.R.A. which supplies an abundance of water for the livestock. Power Farm

Machinery is used exclusively and electricity is used for all domestic purposes.

As Mr. Will received excellent training in the care of Registered Herefords while foreman of the Clarke Ranch, it became his ambition to one day own a herd of his own. Starting on a greatly scale her purphered a foundation hard of one day own a herd of his own. Starting on a small scale he purchased a foundation herd of six young heifers in 1938 from T. A. Clarke. The herd now numbers around 45. The Will Herefords have not been shown on either the A or B Circuits, but great care is taken to provide only the best of herd sires. Domino breeding has been a constant favourite with Mr. Will and he is building up his herd with the intention of keeping this strain predominate. The present herd sire is an Excelsior Domino, bred by J. O. Hagerty of Excelsior Hereford Farms, Keystown, Saskatchewan. The Will Herefords are culled annually and the demand for young stock keeps the herd down to a number easy to maintain.

the herd down to a number easy to maintain.

James Will has been Secretary-Treasurer of the Elkhead School District for the past seven years, is a member of The Canadian and Saskatchewan Hereford Breeders' Association, as well as The Saskatchewan Livestock Association, taking an active interest in all work connected with the breeding of better Herefords.

#### Population 540

and Incorporated Village in S. 25-30, A P.O. and Incorporated Village in S. 25-30, Twp. 11, R. 29, W. 2nd, in Moose Jaw Dom. Elec. Dist., Bengough Prov. Elec. Dist., Moose Jaw Land Reg. and Assiniboia Jud. Dist., Mun. No. 102, on the C.P. and C.N.R. railways, 44 miles southwest of Moose Jaw by C.P.R. and 52 miles by motor on No. 2 Highway. Has C.P. and C.N. telegraph and express, Saskatchewan Govt. local and long distance telephones. Anglican, United, Roman Cotholic and Norwaria Luthorn, shawshes, Cood. Catholic and Norwegian Lutheran churches, Good public and high schools. There are six elevators handling approximately \$50,000 bushels of grain annually. Five garages, seven farm implement agencies, three general stores, locker plant, two hardwares, drug store, excellent hotel accommodation, three cafes, theatre, men's wear, real estate and insurance office, printing office and many other places of business which meet the needs of this thriving community. The Sutton-Lake Johnother places of business. The Sutton-Lake Jonnston Union Hospital (20 beds) is well equipped to the ston Union Hospital facilities. There are two with X-ray and surgical facilities. There are two resident doctors and a dental surgeon. A good sized curling and skating rink, as well as a community hall provides recreation for the village and district. The C.N.R. steel was completed to this point in 1914 and the C.P.R. around 1915. Mossbank was incorporated as a village in 1915. The pioneer settlers were mostly from the mid-western states and Ontario.

RESOURCES: The soil is well adapted to the growing of wheat and coarse grains, which is the main source of livelihood in this district.

#### FALL SHOOTING:

FALL SHOOTING:
This is a favourite feeding ground for wild ducks, geese and game birds of all types. During the season hunters gather here from the United States and Eastern Canada to bag their quota of mallards and canvas back ducks as well as red heads and other well known species of the wild duck family. The Canada goose and honkers are private thickers are also prime favourites and prairie chickens are also plentiful.

KILLINCHIE SHORTHORN FARM: Located 2½ miles South of Mossbank, is owned and operated by Thomas Balfour, well known throughout the district as a breeder of Registered Scotch Shorthorn cattle.

Thomas Balfour is one of the pioneer settlers of the Mossbank district, having filed on a homestead in 1907, which is now the home farm. Additional acreage has been purchased and today the farm consists of 800 acres, 750 acres under cultivation, wheat and some coarse grains, 500 acres leased for pasture lands and fifty acres are in brome and crested wheat grass. Abundant water is supplied by deep wells; shelter belts of Manitoba maples on the North and West side provide shelter from the prairie winds. The dwelling is semi-modern, with electricity used throughout the farm. The barn is 30 x 60 with a lean-to 20 x 30, which accommodates around thirty head of cattle and gives ample hayloft room.

In 1940, Thomas Balfour became interested in In 1940, Thomas Ballour became interested in the breeding of pure bred cattle and purchased a foundation herd of Shorthorns, consisting of four females from P. J. Ibbitson of Radisson, Saskatchewan. Additional stock was purchased from J. D. Bell of Swift Current. The herd was built up to around 35 head and now varies according to the amount of stock sold.

The herd has only been shown locally and was awarded first prize for herd sire and also first prize for best Shorthorn at the Mossbank Agricultural Fair, 1950.

Among well known herd sires owned by Thomas Balfour are Killinchie Ransom—276268—grandson of the famous Millhill's Ransom—226197— (278496) Imp.

PRESENT HERD SIRE: Searle Elegant 36th 300127— bred by Searle Farms, Selkirk, Maniba, and sired by Bapton Elegant —264308— (322397).

Three females Mr. Balfour considers a splendid addition to the herd were sired by Admiral —229858—(274338) Imp., and bred by J. D. Bell of Swift Current, Saskatchewan.

Thomas Balfour was born in Wingham, Ontario, and while still a lad the family moved to Wolseley, Saskatchewan. Mr. Balfour's boyhood was spent on the Wolseley farm and when new lands were opened he filed on a homestead at Mossbank, which is the present Balfour farm.

Mr. Balfour served eighteen years as councillor for the R M of Lake Johnston No. 102 is a

mr. Ballour served eighteen years as councillor for the R.M. of Lake Johnston No. 102, is a member of the Canadian Cattle Breeders' Associa-tion and the Saskatchewan Shorthorn Club, a member of the Mossbank Agricultural Society, taking an active interest in all work connected with the breeding of better livestock.

DRYLAKE HEREFORD FARM: Located two and one-half miles West of Mossbank, Saskatchewan, on No. 2 Highway, is owned and operated by Harry C. Cropp, one of the newer members of the Hereford Association. Harry Cropp has lived in the Mossbank district since childhood, as his father, the late J. L. Cropp, was one of the pioneer settlers, having filed on a homestead in 1910. At his death in 1948, Harry took over complete management of the home farm which now consists of 2,350 acres, 1,665 under cultivation, wheat and coarse grains and around 600 acres in pasture land. Abundant water is supplied by wells throughout the farm. Plans for new buildings are now in progress and the farm is to be fully modernized. In 1947, Harry Cropp purchased a foundation herd of Registered Herefords from A. P. Bestrop & Son of Morse, Saskatchewan, consisting of ten females. Additional purchases were made in the fall of 1949 consisting of twenty head. These were purchased from Alex Mitchell of The Battle River Ranch, Lloydminster, Saskatchewan. Thomas White, of Wawota; Stampa Lambert, of Parkbeg, and W. Trembley, of Courval. The herd now numbers around 35 head. The Drylake Herefords have not been shown on either the A or B circuits, but they will be entered in the local agricultural fairs.

Harry Cropp's sister, Mrs. Agnes Quark of Vantage, Saskatchewan, has built up a sizable herd of around thirty Registered Herefords and the two herds have been combined for the summer breeding.

PRESENT HERD SIRE: Tobruk Blanchard 39th —239790— Sired by Tobruk—137918—, winner of the grand championship, Calgary, 1946, and purchased from J. S. Palmer & Sons of Marsden, Saskatchewan.

Harry C. Cropp is a member of the Canadian and Saskatchewan Hereford Breeders' Association, also Wheat Pool delegate for District No. 5, Sub District No. 1, taking an active interest in all community activities. The active management of

the farm is handled by Mr. Cropp, who prefers to live on the farm close to his work.

#### NAICAM, SASK.

Population: 434

A P.O. and Incorporated Village in S. 2, Twp.
40, R. 18, W. 2nd, in Humboldt Dom. Elec.
Dist., Prov. Elec. Dist., Land Reg. and Jud.
Dists., Mun. No. 398, on the C.P.R. 33 miles south
of Melfort by rail on Highway No. 6 (gravelled).
Has C.P. telegraph and express. Sask. Govt.
long distance telephones, serviced locally by the
Spalding Rural Telephone Company. Has United,
Roman Catholic, Norwegian, Lutheran and Pentecostal Assembly churches. Good public and high
schools. There are five elevators handling approxischools. There are five elevators handling approximately 600,000 bushels of grain annually. The Canadian Bank of Commerce, four garages, three general stores, lumber yard, excellent hotel, drug stores, three cafes, four farm implement agencies, two real estate and insurance offices, weekly newspaper, theatre and what is considered one of the finest and most up-to-date meat markets and locker plant in the province, supply the needs of the community. Naicam is the thriving centre of a large trading area covering around 312 square miles.

The Naicam and District Board of Trade is an active organization, with farmers from the sur rounding district and business men co-operating successfully in promoting any project for the betterment of the community. A good curling rink and standard size metal covered skating rink provide recreation for the village. A new rest room for men and women is an added improvement,

and a new fire hall.

Scotch, Irish, English and many Scandinavians
from the mid-western United States were among
the early pioneers of the district, settling here around 1906, most of them taking advantage of the homesteads offered at that time.

the CPR steel was laid to this possible was incorporated as a village. The first issue of The Naicam Progress was issued in July of that year. Naisberry & Cameron were the original surveyors of the town site, in giving the new place a name the first three letters of each name were used and thus Naicam came into

A P.O. and incorporated town in S. 32, T. 50, R. 14, W. 3, in Melfort Dom. Elec. Dist., Nipawin Prov. Elec. Dist., Prince Albert Land Reg. Dist. and Melfort Jud. Dist., Mun. of Nipawin No 487 (office at Codette) on the C.P.R. 109 miles N.E. of Saskatoon. On highway No. 35, gravelled from Tisdale, and highway No. 35, gravelled to Prince Albert. Nipawin is 100 miles east of Prince Albert. Nipawin is 100 miles east of Prince Albert. Population 3,500. Has Nipawin rural telephone and Sask. Govt. long distance telephones. United, Anglican. Baptist, Lutheran, Roman Catholic and Apostolic churches, also Holiness Movement and Salvation Army. Good public and new composite high schools. also Holiness Movement and Salvation Army.
Good public and new composite high schools.
Alfalfa processing plant, Sask. Co-op. Creamery,
Union Hospital, one weekly newspaper, four
elevators, three lumber yards, good general
stores, Saskatchewan Govt. Liquor Board store and three hotels. The main industries are lumbering, mixed farming dairying and the produc-tion of alfalfa, which is becoming one of the main agricultural products of this area. This is also the northern centre for the shipping of live stock to eastern markets. There is an abundance of clear spring water and the nearby rivers and lakes provide excellent fishing for the sports-men; moose, deer, elk and bush caribou are plentiful, while ducks, partridges, grouse, ptarmigans and the Canadian wild goose bring hunters from the United States and eastern Canada. Blueberries, raspberries, strawberries and cran-berries are grown for commercial markets. The world series of curling is held annually, and brings visitors from all over Canada. A great number of beautiful new homes are being built in the community which would be a credit to

any city in the province.

The district of Nipawin derives its name from the Cree language, originating from the word "Nipawi," meaning "Waiting Place by the Water," a point about four miles from the Water," a point about four miles from the present site of Nipawin. The first white settlers arrived between 1905 and 1906. As they were many miles from a railroad, the original site was two miles southeast of the present site. In 1924 the Canadian Pacific Railway came through, which compelled the thriving village of Nipawin to move to the present location. Building after building was literally transplanted to the newly surveyed townsite of Nipawin on the banks of the Saskatchewan river. The townsite was owned by the Canadian Pacific Railway, but the lots were not put up for sale until some time later. Consequently, possession was 99 points of the law and was shown by either placing a building on the lot or a pile of lumber to designate ownership, which was often found moved out on the imaginary street during the night by some enterprising newcomer. The mornwas two miles southeast of the present site.

ing found the contestants in stormy debate regarding precedence, the loser having to content himself with another location, as no street really existed more substantial than the line on the surveyor's map. The jackpine which lined the proposed thoroughfare were a source of inconvenience as it took an expert driver to wend his way through the maze without encountering serious difficulties. Location worries were settled when the C.P. Railway townsite officials arrived and as the new 'citizens were all eager to promote a successful and enterprising town the lots were paid for and a new cycle of progress came into being. Advancement was rapid and in 1939 the status of a town was granted and the first mayor elected. The honour was given to Harold Guloien who is at present in real estate and insurance and also connected with the cleaning and processing of certified and registered seeds, having his own plant at White Fox. Percy Kent, one of the pioneer merchants, succeeded Mr. Guloien as mayor and proved himself invaluable in promoting improvements and helping the community in innumerable ways. R. J. Chambers, who had served the village as overseer for a number of years, was elected mayor in 1940. Through his untiring efforts a new town hall was erected and many other local improvements made.

The Nipawin and District Board of Trade is always on the alert ready to sponsor any undertaking which will be of benefit to the town or community. Nipawin is a vital point to be considered in the proposed Flin Flon-Nipawin highway, as much of the garden produce, fruits and other commodities necessary to the maintenance of a community the size of Flin Flon, whose population is increasing yearly, could be obtained from this district, giving them an extensive variety of garden products and fruits which up to the present have been difficult to obtain, due to the length of haulage and the problem of keeping perishable foods fresh. From findings of J. E. Nejedly, June 1st and July 3rd, 1937, who sur-

veyed from Torch River in a northeasterly direction to boundary of Amisk and Beaver Lake, the proposed route was found entirely practicable, with tamarack and spruce conveniently located to help in construction of culverts and bridges. Rock formations along the way provide suitable material for roadmaking purposes. Seventy-five miles northeast, the proposed Flin Flon-Nipawin highway passes close by a solid township of first class marble quarries, as yet undeveloped, also deposits of clay bearing a heavy percentage of aluminum. Indications of oil in the Torch River district are most encouraging where work has been in progress for some time and this research work may prove a valuable asset to future developments.

This vicinity is well known throughout Canada and the United States as one of the finest areas on the continent for the growing of certified and registered seeds. The Newfield Seed and Nursery Farms owned and operated by H. G. Neufeld and located 12 miles west of Codette and six miles south of Nipawin, including farms at White Fox where the white clay soil is adaptable to the growing of the world famous alfalfa seed is a shining example of what can be accomplished with vision and patience. The seeds must be carefully tended and nurtured to obtain prize winning results. A single variety often takes from seven to nine years of the most painstaking care to develop into the prize winning class.

From a small beginning in 1918 when pioneering meant literally hacking one's way through dense bush country, H. G. Neufeld after many years of research and the overcoming of obstacles which to a man of lesser vision would have ended in defeat, is now considered an authorasity on certified and registered seeds and grasses, having won provincial and Dominion first prizes as well as first prizes in the United States.

asity on certined and registered seeds and grasses, having won provincial and Dominion first prizes as well as first prizes in the United States.

At the Newfield Seed and Nursery Farms are grown certified and registered oats, malting barley, alfalfa, flax, crested wheat grass, sweet

clover, red clover, Alsike clover, Brome grass, rape and sunflower seeds. Their pioneering work in the growing of field peas under western conditions will be of great interest to others contemplating the culture of this crop, as the eastern method of growing peas is not found practicable in the western areas. H. G. Neufeld's seed cleaning machinery is perhaps the most noteworthy thing among his various interests. From a small plant many years ago when he cleaned his registered seed with a fanning mill, he has two of the most efficient commercial plants to be found anywhere, with plants located at Codette and Nipawin. His knowledge of the necessary steps to be taken in the production of highest quality seeds has been imparted willingly to the farmers in this community who are starting in a small way, thereby enabling them to carry on intelligently and share in the progress of this vast field of husbandry. Carrying along with the same idea of community development the Newfield Nurseries have had remarkable results in the cultivation of fruit trees and berries. Twenty varieties of apples, among which are Osman, Adam, Trail, Battleford No. 1's, Florence and Olga, rich in flavour and very hardy, wintering well. Mammoth, Assiniboine and Pembina plums, Compass, Tom Thumb and Sapa Cherries, while strawberries, currants, gooseberries and raspberries are produced in large quantities for commercial use. Man's ingenuity combined with the natural richness of soil and plenty of moisture, has moulded this one time frontier settlement into a garden spot unexcelled in Western Canada.

Richard Platte, who is a progressive grower of certified and registered seeds, has a modern, fully equipped seed cleaning and processing plant on his farm  $4\frac{1}{2}$  miles west of Nipawin. One of the early pioneers of Nipawin, he has done much to further crop production and the various prizes he has won at Provincial and Dominion exhibitions are a testament to his ability in the culture of seeds and grasses. He is Past President of the Saskatchewan branch of the Canadian Seed Growers' Association. Their farm, with its up-to-date equipment for every need, is an incentive to new farmers who are settling in the district.

The Boughen Nurseries of Canada have a nursery worthy of note where apples, plums,

cherries, strawberries, raspberries, currants, gooseberries and many other varieties of fruits and berries are produced for commercial markets as well as seedlings for transplanting purposes. They are now experimenting favourably with pears and apricots, as the soil and climatic conditions have been found very suitable for the cultivation of these fruits.

#### HOSPITALIZATION:

Nipawin Union Hospital is a tribute to the people of the district who worked so faithfully to make it possbile.

to make it possbile.

Furnished with latest X-Ray and Surgical equipment this 35 bed hospital is a credit to Nipawin. Six resident Doctors and a qualified nursing staff help to make this one of the leading medical centres in North Eastern Saskatchewan.

CHERRY RIDGE SEED FARM—Located three miles West of Nipawin is owned and operated by Geall Brothers, well known growers of Registered Cereal Grains and Grasses and Elite Producers of Montcalm Barley and Thatcher Wheat.

The Geall Brothers, Charles and John have been Growers of Registered Cereal Grains and Grasses for the past twelve years. They left their former home at Wapella, Saskatchewan, in 1938 to escape from the grasshoppers and drought of Southern Saskatchewan, during the depression years. At that time people of Northern Saskatchewan were enjoying plenty of rain fall and bumper crops. Charles being newly married brought his bride to their new home in Nipawin, which consisted of a portable granary 10x14, which he purchased for \$15.00.

After one look at her new home his bride was on the verge of taking the next train back, but as there were only three mixed trains a week at that time, she decided it might be just as well to stay and hope for the best, as to go through the ordeal of taking the trip back. His brother John joined him in October of that year. They purchased 160 acres of land in the Cherry Ridge District for \$2,000, which today is valued at \$10,000. Additional acreage has been purchased and the Geall Brothers now own 800 acres. Seven hundred acres are under cultivation, all in Registered crops. Thatcher wheat, Fortune Oats, Grimm Alfalfa and Fairway

Crested Wheat grass. They are Elite growers of Montcalm Barley. It is necessary for one to be a Grower of Registered seeds for a period of five years and then an additional probation of two years and then an additional probation period of from three to five years in order to qualify and become recognized as an established Elite Grower. All Elite stock is handled by hand and is not subject to the mechanical mixtures of the larger seed cleaning units. Power farm machinery is used for all farm work.

machinery is used for all farm work.

In order to convey some idea of the immense amount of work involved in the production of Elite seeds we shall explain a few of the steps which have to be taken. First: The ground must be summer fallowed for at least two years previous to changing varieties; Second: The grain must be sown in a row crop method of not more than eight rows, with roguing strips intercepting every eighth row. Which enables the producer to have ample room for roguing the plots for off type heads and rogue plants, which are foreign plants and decidedly undesirable. After the seed is ripened, selections are able. After the seed is ripened, selections are made for the next years crop—Cut and threshed made for the next years crop—Cut and threshed by hand. The balance is then carefully cleaned and sown on well selected summer fallow, which in turn produces the first generation seed. A conscientious grower aspires to perfection in the various varieties. Elite Stock cannot be sold, but can be transferred to another Elite grower by obtaining permission from the Canadian Seed Growers Association Growers Association.

Prizes have been awarded the Geall Seeds wherever shown but they feel that quality—not quantity is the goal to strive for. A rather unique slogan is used at The Seed farm "They sow to grow but not for show." Nevertheless many visitors interested in better farming make a point of visiting Cherry Ridge Seed Farm on their way through Nipawin.

The Riverside Seeds Limited is a privately owned Processing Plant for the cleaning, processing and distribution of Registered, Certified and Commercial Seeds. A limited liability Company has been formed with F. C. Geall as President-Manager. 100,000 bushels are handled annually through this plant. Private spur track accommodation on the C.P.R. expedites the movement of grain. A remarkable chute system is used for loading nurposes. A private telephone is used for loading purposes. A private telephone exchange connects direct with Nipawin central. The plant is fully equipped with modern machinor grain daily. Located on the power line and situated on the main Highway to Prince Albert, the many growers of Registered Seeds in the district find this a convenient central point for processing and handling their grain.

The Geall Brothers at present are residing in Nipawin, superintending the work of the farm from this convenient vantage point. The Geall children can therefore take advantage of the splendid educational facilities afforded by the schools of Nipawin.

Their father, George Geall resides with Charles. Their father, George Geall resides with Charles. Born and raised in London, England, he recalls the fifteen years he spent as a member of The Metropolitan Police Force in London. With glowing accounts of Canada being publicized throughout England, especially Moosomin, which was supposed to be The Mecca of all pilgrims to the colonies, he gave up his fascinating occupation and sailed for Canada in 1902, naturally purchasing tickets to Moosomin, his first farm was located at Wapella, Saskatchewan. This land was purchased through the C.P.R. at \$5.00 an

The purchase price was small, but one had to pay so long for so little that in the end they generally wound up with nothing. Charles and John were born at Wapella and grew up in that district learning to become good farmers

hard way.

Charles Geall is at present a Director of The Saskatchewan Seed Grain Co-operative Ltd. at Moose Jaw and a Director of The Nipawin Agricultural Association. John Geall is leader of "Beaver House" the Nipawin boy's and girl's grain club and finds the young members are developing an amazing aptitude for the work. The Geall Brothers are both members of the Canadian Seed Growers Association, taking an active interest in all work connected with the production of better crops.

Dist., 12 miles Northeast of Archerwill which is on the C.P.R. and the nearest telegraph and express. Nearest banking centre is Rose Valley. Has Roman Catholic Church.

RESOURCES: Mixed farming.

Labelle Antoine Postmaster and General Merchant

#### NOKOMIS, SASK.

Population 451

A P.O. and Incorporated Town in S 26 Twp 29 R 22 W2nd in Lake Centre Dom. Elec. Dist., Last Mountain Prov. Elec. Dist., Humboldt Land Reg. Dist. and Wynyard Jud. Dists., Mun. No. 280 at Dist. and wynyard Jul. Dists., Mult. No. 250 at the Junction of the Main line of the Canadian National Railways and the Pheasant Hill Branch of the C.P.R., about 80 miles N.W. of Regina and 60 miles S.E. of Saskatoon on Highways No. 15-20.

Nokomis was Incorporated as a town in 1908. The Grand Trunk Pacific steel was completed to this point in 1908, now the C.N.R. The C.P.R. steel was completed in 1907. Pioneer settlers of this district were mostly British, American and homesteaders from Eastern Canada.

Stephen A. Raymond, one of the pioneer settlers from Ontario, volunteered to serve during the Reil Rebellion in 1885, at the cessation of hostilities he decided to file on a homestead and is still a resident of Nokomis. Many other pioneer settlers are still living in the district. J. I. Jamieson and his brother George, filed on their homestead in 1905. J. I. Jamieson has held the post of town clerk for the past 15 years.

The Nokomis Union Hospital is a 19-bed hospital fully equipped with X-ray and the latest hospital equipment. The idea of a hospital originated with the Nokomis Board of Trade and has proven a boon to the citizens of the district. The hospital has a fully qualified staff and

The Nokomis rink is 186x114. Regulation ice for hockey, with two sheets of curling ice.

Nokomis is a thriving community with Anglican, United, Roman Catholic and German Baptist can, United, Roman Catholic and German Baptists churches. Excellent public and high schools. Five up-to-date farm implement agencies, good general stores, drug store, hardware, theatre and many other modern business places which meet the needs of the community. The Hotel Nokomis has recently been renovated and is now one of

the finest small town hotels in the province, featuring radio service in each room and many other modern conveniences. An excellent coffee shop in connection is appreciated by all travellers.

RESOURCES: Wheat and some mixed farming.

EUREKA FARM: Located 5 and ½ miles Northeast of Nokomis, is owned by S. F. Stoltz and operated on a partnership basis. The partnership name being Stoltz and Edwards, Breeders of The Improved Type Registered Duroc Jersey Swine. S. F. Stoltz having retired from active farming makes his home at the coast during the winter months, spending the summer months in Nokomis. R. F. Edwards, a partner of Stoltz and Edwards, manages the farm and takes a very active interest in the breeding of what is considered the finest herd of Duroc Jersey Swine in the Province. "Bob" Edwards as he is known to his friends has been a resident of The Newlands District all his life. His father, E J. Edwards, is one of the pioneer residents of the district, having filed on a homestead at this point in 1904. Having been associated with Mr. Stoltz before the outbreak of World War Two, and after serving with the R.C.A.F. for nearly five years, Mr. Edwards decided on his return to Saskatchewan to continue his work at Eureka Farm, with the intention of building up a Duroc Jersey Herd which would be equal to none. To date he has had exceptional success with his parwork. Mr. Stoltz has been a breeder of this par-

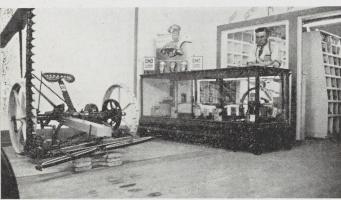

ticular type of swine for the past 35 years, and on Mr. Edwards return from the services, had an excellent herd numbering around 100 head. Therefore it was quite logical that "Bob" should enter into partnership with his older associate, who at that time wished to retire from active business.

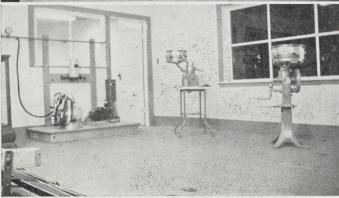

In 1946 "Bob" took over complete management of the herd as well as the Farm. Eureka Farm consists of approximately 1,280 acres. 1,140 acres under cultivation, wheat being the main crop grown, the balance in oats, barley, alfalfa and some Brome Grass. Alfalfa being the finest winter feed for The Duroc Jersey Herd. The Farm

is operated by power machinery. A semi-modern dwelling equipped with an upto-date hot water heating system, keeps the family comfortable during the long winter months. Electricity is used throughout the Farm Deep wells on the farm supply water for the stock. The farm is well treed with fir and maples. The barn is 40x70 with ample hay loft. The piggery is 30x40 with large loft for feed and bedding. A cistern in the piggery, with a five-tank capacity, gives an abundant water supply. The piggery is electric lighted, cement feeding alleys are used to accommodate around a 100 head for winter feeding. Summer pastures are seeded with Alfalfa and Brome Grass. The pasture is well supplied with self-feeders and self-watering troughs.

The herd to date has not been shown but plans are being made to enter a number at The Regina Fall Showing, as the Improved Type is equal to

any Yorkshire, in the estimation of Stoltz & Edwards. Reports from letters received from satisfied purchasers have verified this estimate.

The Eureka Duroc Jersey Herd is culled annually and types which do not measure up to a rigid specification test are sold on the open market. The cream of the herd is retained for breeding numbers. The foundation steek has been kell. ing purposes. The foundation stock has been built up from the finest Imported Stock and new blood lines are to be added this spring from well-known lines purchased in Eastern Ontario, with Imported Pedigrees.

The Eureka Improved Type of Duroc Jerseys are well known, as they have been shipped both North and South, as well as East and West, from Vancouver Island to Eastern Ontario. In 1946 a first-class Herd Sire was shipped to New Zealand, the buyer who is a former customer of Mr. Stoltz, was so pleased with the animal that he immediately ordered a large shipment, which were shipped overseas in 1947. Entire satisfaction is reported from this transaction. One of The Eureka Duroc Jersey boars shipped to Australia was entered in their Royal Fair and took high

was entered in their Royal Fair and took high honours, being judged first in its class. Stoltz and Edwards are members of The Saskatchewan Swine Breeders' Association and The Canadian Livestock Association taking an active interest in all work connected with the breeding of better livestock.

Barton's Pony & Palomino Ranch "The Home of Shetlands, Welch, Dartmoors and Palominos" Nine miles West of Nokomis.

BARTON'S PONY & PALOMINO RANCH: Located 9 miles West of Nokomis on Highways No. 15, is owned and operated by F. A. Barton, Breeder of Shetland Ponies and Registered Palominos.

F. A. Barton was born at Oelwein, Iowa, in 1880, and spent his boyhood and young manhood on his father's farm, who always kept a large herd of good grade cattle and fine driving horses.

At the age of 21, Mr. Barton left home to seek his own fortune and spent the first few years as manager of a large stock farm in North Dakota, later he ranched in Montana, spent considerable time in Minnesota and later moved to South Dakota. In 1911 after making several trips to Canada with carloads of horses from the States, Mr. Barton decided to file on a homestead in the Shaunavon district. Bringing his family up in 1913 he made his home at that point until 1936. During the depression things became so bad in the Shaunavon District that Mr. Barton decided to move farther North, and found a farm to his liking near Nokomis where he has resided since that time.

In 1904 while managing a stock farm in North Dakota, Mr. Barton became greatly interested in Dakota, Mr. Barton became greatly interested in the breeding of Shetland Ponies, purchasing a small foundation herd, since that time he has steadily increased the herd which has numbered as high as 200 head. At present The Barton Pony Ranch is the Home of around 100 Shetlands. Welsh and Dartmoors. In 1946 on a trip to Alberta he purchased his first Palominos. In 1947 while attending The National Stock Show and Sale in Denver, Colorado, he purchased three magnificant stallings Sulphur No. 5474 which and Sale in Denver, Colorado, ne parchasa unagnificent stallions, Sulphur No. 5474, which has recently been sold to Lillian Moar, of Semans. Sask.: Chief Cheyenne No. 4056, now Semans, Sask.; Chief Cheyenne No. 4056, now owned by a horse breeder in Oklahoma. His favourite Palomino, Spring Creek Royal Gold No. 7462, is still in his possession and he considers this wonderful horse a prize winner in any field.

As the demand is so great for both the Ponies and the Palominos, Mr. Barton has a difficult time keeping any of his favourites for very long, but a trip to his ranch is a treat for any horse

WINONA FARM: Located one mile East of Nokomis, is owned and operated by L. C. Reynolds, Breeder of Registered Hereford Cattle and Local Dealer for The Cockshutt Farm Implements.

L. C. Reynolds has been a resident of Wreford Municipality since boyhood, as his father, Frank Reynolds, filed on a homestead in the Simpson District in 1904 and had the distinction of being the first homesteader to ship the first load of

wheat out of Simpson, Saskatchewan.

L. C. Reynolds is a graduate of Regina College. After graduation he became interested in the Breeding of Registered Herefords, purchasing his foundation herd from Walter Fenske of the Nokomis District. From a small foundation the herd has been built up to around a 100 head,

but at present has been cut down to 60 head.
Winona Farm consists of 1,280 acres, 640 unwinona rarm consists of 1,280 acres, 640 un-for cultivation, mostly wheat with 640 acres in pasture land, which is well treed with poplars. Excellent water is obtained from springs scat-tered throughout the bluffs and a large well with tered throughout the bluffs and a large well with windmill is located near the barns. The barn is 40x80 with ample loft room for winter feed, wells are also located in the barn. A beautiful 10-room dwelling has been built, fully modern, baths and showers have hot and cold running water, while a hot water heating system keeps the home comfortable at all times. Electricity is used for all domestic purposes, a five-hundred barrel cistern provides soft water the year

## OUTLOOK, SASK.

Population 750

An Incorporated Town and C.P.R. Divisional Point in S. 15, Twp. 29, R. 8, W 3rd, in Rosetown-Biggar Dom. Elec. Dist., Rosetown Prov. Elec. Dist., Saskatoon Land Reg. & Jud. Dists., Mun. No. 284 on the C.P.R. 119 miles Northwest of Moose Jaw and 40 miles East of Rosetown. Has C.P. telegraph and express, Saskatchewan Govt. local and long distance telephones, good public and high schools. The Saskatchewan Lutheran Bible Institute have established a college at this point, which is rapidly becoming one of the prominent educational centres of the province. There are three churches, Anglican, Norwegian Lutheran and United. The Bank of Montreal maintains a branch at this point. An excellent hotel gives service to the travelling public. A 20-bed, fully equipped, Union Hospital with two resident doctors, provide medical care for the community. A good sized curling rink (three sheets of ice) and a modern up-to-date theatre provide entertainment for the town, while golfers find an excellent 9-hole golf course at The Riverview Country Club. The Outlook, a weekly publication, has been established for many years. There are three general stores, three garages, hardware, jewellery, drug store, two lumber yards, real estate and insurance, two farm implement agencies, locker plant, bakery, funeral parlour, an excellent law firm and many other places of business which supply the needs of this thriving community. Outlook being situated on the east bank of the Saskatchewan river, is in a position to give service to a much larger area, than other towns of its size in the province, being the trading centre of many of the surrounding villages.

The Outlook Memorial Park has gained recognition as being one of the finest natural parks

The Outlook Memorial Park has gained recog-The Outlook Memorial Park has gained recognition as being one of the finest natural parks in the province. The Outlook Memorial Swimming Pool is 40 x 138 feet, with high and low diving boards, 30 lockers and the water is changed frequently. Elms of great age and landscaped gardens make this little park a delightful rendezvous, not only for the townspeople but visitors to the prairies make a point of visiting this natural beauty spot, which the townspeople of Outlook have so carefully preserved.

An annual Sports Day is held on the 1st of July with an average attendance of from 6,000 to 7,000 visitors.

Outlook is regional headquarters for the P.F.R.A., with many of the staff personnel connected with the construction of the South Saskatchewan Dam stationed in the town.

An active Chamber of Commerce has done much good work in making Outlook one of the more prosperous and attractive towns of Saskatchewan. IRRIGATION

A keen interest is being taken by the Outlook residents for the promotion of irrigation throughout this area. Outlook is the centre of the proposed irrigable area, which when completed will undoubtedly encompass some 500,000 acres. An organization has been formed in Outlook, The S.S.I.A. (South Saskatchewan Irrigation Assn.) to work in conjunction with the S.R.D.A. Dr. Wm. B. Tufts has been elected president, with representation from all municipalities within the area. The main purpose of this organization to further interest in the development of this project. As an instance of the sincerity in which the Outlook people are co-operating with to further project. which the Outlook people are co-operating with this project, 160 acres of land adjoining the townsite has been turned over to the P.F.R.A. for the purpose of developing an Experimental Irrigation Farm. A hundred horsepower motor is now being installed to supply water from the Saskatchewan river to irrigate the land. The S.S.I.A. have chosen for their slogan, "IRRIGATE OR MIGRATE".

MAYOR-A. C. Barteluk.

## PADDOCKWOOD, SASK.

Population: 175.

A P.O. and Incorporated Village in S. 23, Twp. 52, R. 25, W. 2nd, in Prince Albert Dom. Elec. Dist., Cumberland Prov. Elec. Dist., Prince Albert Land Reg. and Jud. Dists., L.I.D. No. 959, on the C.N.R. 24 miles northwest of Prince Albert, which is the nearest telegraph office and banking centre. Has C.N. Express (no agent); Paddockwood handles the express for Northside, Syrvice Hore and Expect Cate county nost offices banking centre. Has C.N. Express (no agent); Paddockwood handles the express for Northside, Spruce Home and Forest Gate, country post offices in the near vicinity. Has United and Roman Catholic churches, a new, four-room, fully modern school has recently been completed. There are two elevators handling approximately 500,000 bushels of grain annually; two hotels, lumber yard, two garages, two farm impement agencies, Co-Op store, Community Credit Union, three general stores, blacksmith, shoe and harness maker and several other places of business which meet the needs of this thriving community.

An excellent Community Hall is used for dances, social gatherings and picture shows on Saturday nights. A standard sized curling rink (2 sheets of ice) with an open air skating rink provides recreation for the village during the winter months. Paddockwood is 30 miles from Prince Albert by motor road (fully gravelled) connecting with No. 2 Highway. The Paddockwood Bus Lines gives daily service to Prince Albert and return.

Christopher Lake is approximately twelve miles or the search were and the summer recort.

Christopher Lake is approximately twelve miles Christopher Lake is approximately twelve miles northwest and is the nearest summer resort. Candle Lake, 30 miles northeast, has excellent cabin accommodations with good fishing—whitefish, walleyes and northern pike. FALL SHOOT-ING includes elk, deer, moose and bear. Game birds are plentiful, ducks, partridges and grouse being prime favourites. Good beaches and boating dance nevillent three general stores service.

being prime favourites. Good beaches and boating, dance pavilion, three general stores, service stations and coffee shop help to make this a popular resort. Fishing tackle and campers' supplies are carried by the general stores. Paddockwood was incorporated as a village in 1948. The steel was completed to this point around 1928. Early settlers from England gave the name of Paddockwood to commemorate their home in England. J. P. O'Hea was the first settler to obtain a patent on his land in 1911; his farm lies about one-half mile from the village. In the early days the pioneer settlers had to cut In the early days the pioneer settlers had to cut their own roads and clear the land before they could proceed with the business of farming, a far cry from the beautifully cultivated farms one finds along the way in the present year. Power farm equipment is now used for all farm purposes while many of the homes have installed electricity and pressure water systems. Good water is obtained from shallow wells. This district was opened up to veterans of the First World War in 1918-1919. Good water

in 1918-1919.

Paddockwood is a picturesque little village located in the heart of a wooded district. Groves of poplar and spruce surround the village, making it a pleasant place to live. The Community Sports and Exhibition Ground consists of eleven acres. An annual Sports Day is held the first Wednesday in July of each year.

RESOURCES: The soil is a sandy loam, favour-splet to the growing of wheat course grains and

able to the growing of wheat, coarse grains and

THUNDER CREEK RANCH: Located 11 miles northwest of Parkbeg, Saskatchewan, in S. 33, Twp. 18, R. 3, W. 3rd, is owned and operated by Stampa W. Lambert and Son. Having purchased a foundation herd of Registered Herefords in 1921, he is well-known among cattlemen as one of the pioneer breeders of Saskatchewan.

Stampa W. Lambert was born in London, England, his father the late Stampa W. Lambert, Sr., was a barrister in that city for a period 40 years with Chambers in the Temple. Stampa Lambert, Jr., was a student at Sherborne Dorset, matriculating out of Trinity Hall College, Cambridge University.

At the age of 20, glowing accounts of pros-perity in Canada caused him to leave England and seek his fortune in the colonies. Western and seek his fortune in the colonies. Western Canada appealed to his adventursome spirit and Qu'Appelle was his first destination. His first year in Canada was spent on the Bell Dairy Farm, at the end of the year he obtained a couple of Indian ponies and a buckboard wagon to drive to Swift Current. At Moose Jaw bad luck caught up with him, one of his ponies became sick and as South Hill was then an Indian Encampment he proceeded to trade the sick pony for a two-year-old. Money being a scarce commodity he did a little old-fashioned horse trading, the new pony became his through the exchange of a piece of canvas, a can of maple syrup, an English dressing gown with magnificent rope tassels and five dollars in cash. He then resumed his journey to Swift Current, spending the first his journey to Swift Current, spending the first night at the Old Cruickshank Cattle Ranch at Rush Lake. With an eye to the future he worked for some time for Alex Zess of Parkbeg, scourfor some time for Alex Zess of Farkbeg, scouring the country for a suitable location which led him to the Thunder Creek area where he found natural springs to be prevalent throughout that region. In 1903 he filed on a homestead in this district which is now a part of the present Thunder Creek Ranch. Lumber was scarce and

PARKBEG SASK. had to be hauled from Moose Jaw a distance of 50 miles, but undaunted he began to build. Furchasing a herd of good grade Shorthorns, he found himself in the cattle business. But bad luck again overtook him and his ranch was burned out in the prairie fire of 1905. His home was saved and around 25 head of cattle. These he put out on range and took the first hoat back he put out on range and took the first boat back to England. Six months were spent in England and his father wished him to forget the western enterprise but in the spring he sailed for Canada with a new bride. Their first winter was spent in Mortlach , while he travelled back and forth in Mortlach , while he travelled back and forth to Parkbeg by train walking the 11 miles north from that point to care for his stock. The snow was exceptionally deep that winter and Mr. Lambert said it made the winter of 1949 look like a spring snowfall. The cattle froze by the thousands, but spring came again as it always does and he moved his family to the ranch where they have resided ever since. The family has grown considerably since those early days and now consists of his wife, James, Percival, Nellie, Alice and Violet. James is associated with his forther negative and property of the same o ciated with his father and manages the ranch. crated with his lather and manages the ranch. The others have either married or carved out careers of their own. Additional acreage has been added to the ranch which now consists of 316 acres under cultivation, Brome Grass, oats, some wheat and barley but the majority of the crops are for winter feed. A cultivated shelter belt of maples and ash surround the grounds, A large dam, 90 ft. base, has been built. 5,364 acres are in pasture lands with an additional acres are in pasture lands with an additional 1,280 acres which belongs to James adjoining the home range giving a total of 6,654 acres in pasture lands.

The barns are large and roomy, two hip roofed with hay mows and additional cattle sheds made of telephone poles are used for sheltering

The dwelling is a credit to the district, rooms were necessary for this large family. Electricity is used for all domestic purposes. Power farm machinery is now used exclusively

Power farm machinery is now used exclusively for the farm work.

The foundation herd of Registered Herefords was purchased from the Ash Stoneman Estate of Mortlach, Saskatchewan, as James has a sizable herd of his own the complete total numbers between 70 and 85 head. The Thunder Creek Herefords have not been shown on either the A or B Circuits, but great care is taken to insure the best of breeding and herd sires are purchased with the main idea being lineage and pedigrees. PRESENT HERD SIRES: "Wyoming Domino"—199591— bred by Alex Mitchell, Lloydminster;

—199591— bred by Alex Mitchell, Lloydminster; "Champa Domino 5D" —257807— bred by W. J. Jackson, Riverhurst, Saskatchewan.

Stampa W. Lambert is now residing in Moose Jaw. His son, James, having taken over active management of the ranch. Mr. Lambert visits the ranch frequently, helping with the harvest and keeping an eye on things in general. Mr. Lambert served for 25 years as Secretary-Treasurer of the Simrishill District School No. 3152 and for 27 years as Secretary-Treasurer of the Holyrood Rural Telephone Company. He spent some time as Councillor for the R.M. of the Parkbeg Co-Operative Society. Much of his spare time is spent in insurance, veterinary the ranch frequently, helping with the harvest his spare time is spent in insurance, veterinary work and he is also a Notary Public. He was awarded the gold club button for 25 years' service as representative of the Wawanesa Mutual Inas representative of the wawalesa indutal insurance Company. This award was presented to him recently. He is a member of the Western Stock Growers' Association and the Canadian and Saskatchewan Hereford Breeders' Association. All in all he has not let much grass grow under his feet and is still active in all work connected with the breeding of better livestock. -0

KELK'S HEREFORD RANCH-Located miles south of Lucky Lake, Sask., is owned and operated by Theodore H. Kelk and Sons, Breeders of Registered Rugged Range Herefords.

Theodore Kelk is one of the pioneer settlers of the Lucky Lake District having filed on a home-stead in 1910, his former home being in Oakdale. Wisconsin. At the time of filing on his homestead his nearest station was Elbow a distance of 35 miles. The first few years were spent in mixed

farming. In 1916 the original homestead was sold and the present farm purchased, which consists of 2,880 acres, 2,400 acres under cultivation, wheat and coarse grains with some Brome Grass for winter feed. The balance is in pasture lands. Dams and shallow wells give an abundant water supply. A shelter belt surrounds the house. Power farm machinery is used for all farm work and electricity is used for all domestic purposes. The dwelling is a comfortable semi-modern home consisting of nine rooms. The Kelks also maintain a winter home in Saskatoon.

From 1917 and on the Kelks have always been breeders of good grade cattle but in 1934 Theodore Kelk purchased the Clevemore Herefords from Kelk purchased the Clevemore Herefords from the Mitchmore Estate, of Elbow, Saskatchewan, consisting of around 20 head and a herd sire, Masquerader Jiggs—82392. Since that time the Registered Herd has been built up and has numbered as high as 75 head. Each year much of the stock is sold and only the best retained for foundation stock, consequently the number varies from year to year. The Kelk herd has not been shown on either the A or B circuits as Mr. Kelk feels that quality breeding and maintenance of the herd are more essential. An open range ranch is maintained at Dunblane, Saskatchewan, which consists of one-half section and an additional lease of 6,000 acres. The Dunblane ranch is treed with birch, poplar and maples providing shelter for the herd, it borders on the Saskat-chewan River for many miles and natural springs throughout the range provide an abundance of water. A large comfortable ranch house is used during the months the herd is kept on the range, as they are sent to the Lucky Lake ranch for the winter months. Electricity has been installed and the Dunblane ranch is one of the favourite homes of the family.

Among well-known herd sires owned by Theodore Kelk and Sons are: Bocaldo Stanway 9th—114557— bred by J. S. Palmer and Sons, Mars-—114057— bred by J. S. Falmer and Sons, Mars-den, Saskatchewan; Real Domino Stamp 16th —146770— bred by Hunter Bros., McLeod, Alberta. Wyoming Lad —17548— bred by Alex Mitchell, Battle River Ranch, Lloydminster, Sask. Present Herd Sire: Alpine B Domino 556th —266501— purchased from George Bull, Minda-

pore, Alberta.

Theodore Kelk has three sons who are in copartnership with their father, taking an active interest in keeping the herd up to the highest standard.

SUNNYBRAE FARM: Located five miles northwest of Parkman, Saskatchewan, is owned and operated by Dennis Brothers, Breeders of Open Face Shropshire Sheep, Hunters, Thoroughbred and Saddle horses.

and Saddle horses.

The Dennis family have been residents of the Parkman District for the past fifty years, as the late Edward Dennis was one of the Pioneer Settlers of the district. Formerly of London, England, he came to Canada as a boy of 18 and spent the following 20 years in Ancaster, Ontario. In 1900 the opening up of new lands offered greater opportunities for advancement and a homestead was filed on which is now a part of Sunnybrae Farm. Five boys and one girl comprised the family. Arthur and Leslie have farms of their own, while Wilfrid L., Robert L. and "Ted" a son of W. L. Dennis are partners in the home farm, specializing in the Breeding of Registered Sheep and Thoroughbreds. breds.

Sunnybrae Farm consists of 1,260 acres, 500 Sunnyorae Farm consists of 1,200 acres, sources acres under cultivation, wheat and coarse grains, with Crested Wheat, clover, alfalfa and Brome Grass grown for pasture and winter feed.

One quarter section is used as a grazing pasture for the sheep, which number around 100

head. Sunnybrae farm is well treed with a natural growth of poplars. The shelter belt consists of maple, white spruce and ash, with Carragana and Lilac hedges to complete the picture. Water is obtained from dugouts in the pasture and close to the buildings. Bluffs and coulees are well treed and give excellent shelter and shade for the livestock, a natural spring in the pasture makes this an ideal spot for the raising of livestock ing of livestock.

The main barn is 36x60, with a lean-to 16x60 and a second one 14x74. The main barn is cement floored with loft room for 70 tons of cement floored with loft room for 70 tons of hay. A suitable work shop and double garage with poultry house and granaries, make this one of the finest farms in the district. A comfortable seven-room dwelling has always been a centre of community friendship and activity. Ted is married and lives in a separate house beside the main dwelling.

The Dennis Brothers started their original flock of sheep in 1929. In 1934 they decided to specialize in Registered Sheep, purchasing the entire flock of William Morrish, Oxbow, Saskatchewan. These were Registered Shropshires and chewan. These were Registered Shropshires and to develop their idea an importation of Open Face Shropshire Rams were imported from England in 1944. These proved very satisfactory and in 1945 one ram and two Open Face Shropshire ewes were imported from the same place. A very fine flock has been developed from these strains and later another ram was imported.

Prior to the Second World War the flock was shown on the B Circuit, consistently winning high honours, also at Fall Showings, Regina Exhibition. With better conditions the Dennis Shropshires are being shown on both the A and B circuits. Visitors are always welcome to visit the flock at any time.

TORONTO—1948—The Dennis Brothers purchased a Thoroughbred Stallion, ROSEINORE—3011— Later that same year they secured three Thoroughbred mares bred by Captain Stanley Harrison, of Stockwell Stud Farm, Fort Qu'Appelle, Saskatchewan. There are now two promising young Thoroughbred Colts and several young horses of Saddle Horse and Hunter Type.

W. L. Dennis has served in practically every capacity on the various Associationss connected with the breeding of better livestock. President of The Saskatchewan Sheep Breeders Association, Councillor for the R.M. of Walpole for over 20 yeears, Secretary for the local school District since 1920, with the exception of the last three

years. Past Leader of The Parkman Swine and Calf Club, giving his services where ever needed in the interests of the community, at present he is President of The Canadian Sheep Breeders Association, Director of The Canadian Co-Op Wool Growers and Director of The Farmers Mutual Petroleum Ltd.

Ted Dennis was Leader of The Parkman Baby Beef Club for many years. He now judges frequently at various Baby Beef Showings. He is Secretary of The Agricultural Committee for the R.M. of Walpole No. 92 and President of The Local Wheat Pool Committee.

W. L. and R. L. Dennis are veterans of The First World War. R. L. Dennis does not reside on the farm, but has been Customs Inspector at Northgate, Saskatchewan since 1936.

ciation, but rapidly becoming known to the Hereford breeders of the province. Becoming interested in the breeding of pure bred cattle, he purchased a foundation herd of Registered Herefords in 1945 from Dybig Brothers of Kinley, Saskatchewan, consisting of four females. His herd sire, Beau Domino 318—173827— won the grand championship at North Battleford and was purchased from Alex Mitchell of The Battle River Ranch, Lloydminster. The herd has been gradually built up and now numbers around thirty head. He plans to increase the herd to seventy head, which he feels will be a sizable herd to handle. Later purchases have been Real Lady Domino, sired by Real Prince Domino 3rd, from the Powell Hereford Ranch, Okotoks, Alberta, and a companion female, purchase price being \$1,500.00, giving him an excellent opportunity to \$1,500.00, giving him an excellent opportunity to build his herd up to the highest standard. Mr. Feige plans to show the herd on the A and B reige plans to show the herd on the A and B circuits. To date he has entered them only at the Prince Albert Sale, where he was awarded the following: First in his class for bull (13 to 18 month sale price, \$900.00; first in his class (18 to 24 months), which was also awarded Junior Champion and Grand Championship—sale price, \$1,275.00.

PRESENT HERD SIRE: Real Dandy Domino 52nd —207322— purchased from Jack Powell, Okotoks, Alberta. This purchase was a decided advantage as improvements are now apparent in the herd.

Bruno Feige is a native of Poland, born near Lodz. His boyhood was spent on his father's farm. With a boyhood friend he decided to visit Canada, as glowing tales of this Land of Promise had been told them by relatives and friends who had returned to visit their homeland. In 1929 they sailed for Canada, their destination being Laird, Saskatchewan, where they planned to spend some time with relatives of his travelling companion. The first two years were spent cutcompanion. The first two years were spent cut-ting brush, learning the new language and customs of the country. Deciding to make his future home in Canada he rented a half section of land at Hepburn, Saskatchewan, where he met of land at Hepburn, Saskatchewan, where he met and married his wife and engaged in mixed farming until 1940. He then purchased a half section of land two miles east of Parkside. Since that time additional acreage has been added and the farm now consists of 1,120 acres—800 acres under cultivation, wheat and coarse grain with 150 acres in brome grass and alfalfa. Natural growths of poplar, willow and spruce provide excellent shelter for the herd; water is obtained from dugouts and wells on the farm. Large and roomy harps shelter the herd during the winter from dugouts and wells on the larm. Large and roomy barns shelter the herd during the winter months, with ample loft room for winter feed. Power farm machinery is now used for all farm work. Bruno Feige feels the years have dealt kindly with him and has no desire to return to his former home in Poland. The Feiges have recently moved to their present home, which is much closer to Parkside, and they plan to modernize their new home in the near future.

Their two children, Erna and Johnny, are enthusiastic members of the Baby Beef Club and have been consistent winners at the Achievement Showings at Parkside and have done very well at Prince Albert.

Mrs. Erma Feige is a valuable help in bringing the herd up to the high standard necessary for

show purposes.

Bruno Feige is active in all community work, serving as a member of the Agricultural Com-

mittee and the Local Wheat Pool Committee. He is a member of The Canadian Hereford Breeders' Association, taking an active interest in all work connected with the breeding of better livestock. He was well known as a swine breeder before he became interested in the breeding of purebred cattle, keeping a herd of around 600, but has discontinued the breeding of swine in favour of the Herefords.

FURNFORD SHORTHORN FARM: Located four miles southwest of Peebles, Saskatchewan, (S. 30, Twp. 13, R. 7, W. 2nd), is owned and operated by Wm. J. Furtan, Breeder of Registered Shorthorn Cattle.

W. J. Furtan has lived in the Whiterose District southwest of Peebles all his life. His father, W. J. Furtan has lived in the winterose Dis-trict southwest of Peebles all his life. His father, the late John N. Furtan, was born in Varmland, Sweden, moving to the United States around 1880. He filed on a homestead at St. Thomas, North Dakota, and was an industrious farmer in that district for 24 years. The opening up of new lands in Western Canada appealed to his adventurous spirit and with his wife and three children he once again pioneered into new lands, this time to Western Saskatchewan where he filed on a homestead in 1904 which today is the prosperous Furnford Shorthorn Farm. Where oxen were used to break the land in these early days, power farm machinery now does the work with considerable less effort. A small herd of good grade cattle was always maintained at the Furtan Farm and mixed farming was engaged in, wheat and coarse grains being the main crops grown. Since those early days addi-tional acreage has been added to the home farm and the Furtan Farm now consists of around main crops grown. Since those early days additional acreage has been added to the home farm and the Furtan Farm now consists of around 1,000 acres, 650 under cultivation, wheat and coarse grains and 220 acres in pastureland. Bluffs and ravines are well treed with natural growths of poplar and provide excellent shelter for the herd during the hot summer months, during the winter the herd is housed in well kept, comfortable barns. Dugouts and a deep well near the house provide excellent water. The shelter belt is of Maple, ash and Carragana hedges near the house. At his death in 1917 John Furtan left a family of six children, four girls and two boys who helped their mother in keeping up the farm until her death which occured in 1942. The girls now have homes of their own in Saskatchewan and of the two boys, Melvin left shortly after his mother's death to take up Missionary work near Tronjheim, Norway, while W. J. Furtan has taken over complete management of the farm, many improvements have been made in recent years.

rooms, electricity has been installed, a new barn 34x60 has been built complete with cistern and electricity. Machine sheds have been built to house the power farm machinery which is now used exclusively on the farm, while W. J. Furtan's family now consists of his wife, three girls and one boy, which all makes rather a commendable record.

In 1942 W. J. Furtan purchased a foundation herd of Registered Shorthorns, bred by Thomas Kerr, of Wawota, Saskatchewan, the herd is gradually being increased and he hopes to average

Kerr, of Wawota, Saskatchewan, the herd is gradually being increased and he hopes to average from 40 to 50 head, the herd has not been shown on either the A or B Circuits as right at present he is concentrating on breeding and building the herd up to a high standard, consequently he has been scanning the market for promising herd sires.

PRESENT HERD SIRE: Prince Louis

-3029295—brad by Emile Beaudoin, of Gravel-

PRESENT HERD SIRE: Prince Louis

BEMERSYDE STOCK FARM: Located four miles north of Corning, two miles south of Bemersyde and 12 miles south of Peebles, Saskatchewan, is owned and operated by Jesse Balkwill, Pioneer Breeder of Registered Shorthorns. In fact holding the record as being the oldest Shorthorn Breeder in Saskatchewan. In commemoration of this honour he was presented with a walking stick by The Saskatchewan Shorthorn Club in 1947.

Jesse Balkwill was born in Atherly, Devonshire, England, in 1866. His family moved to Canada in September of that year settling in Stratford, Ontario, which at that time was but a hamlet. His father, the late Richard Balkwill, died two years later. The family consisted of 12 children, but Mrs. Balkwill kept them all together living on a farm for the next 10 years until they moved to the nearby town of Mitchell, Ontario, (population 2,500). At the age of 18 Jesse Balkwill took a position as Baker's Assistant in Stratford, Ontario. He was married in 1895 at Deloraine, Manitoba, and has made his home in the west ever since. He recalls seeing the first train from the west proudly steam into Deloraine in 1893. In 1903 he drove from Deloraine to Arcola, Saskatchewan, to file on a homestead in the Graytown District, which is now a part of his present home.

Bemersyde Stock Farm today consists of 1,760 acres. 900 acres are under cultivation, wheat, oats and some barley. The balance is all in fenced pasture lands. Moose Creek runs through part of one section and Wolf Creek through part of another. Natural growths of poplar and willows in the ravines provide shade, while natural springs on two sections provide excellent water for the herd. A large well in the yard is used for all domestic purposes. The Balkwill home is a credit to any district, it has been fully modernized, hot water heating, pressure water system, electricity has been installed in the house and barns, a dumb waiter is used in the house to lessen the upstairss work as there are eleven rooms and bath which need daily attention. A modern repair shop has been built for all farm repairs and machine sheds have been erected to house the power farm machinery which is used exclusively on the Balkwill Farm. The barn is 36x96, with lean to and circular shed to run the young stock in during the winter

months. Ample loft room is provided for winter feed. The house is kept painted a gleaming white, gravelled driveways lead up to the house nearly arched over with maples and evergreens. An L shaped grove of evergreens surround the house while lilacs, honeysuckle and Carragana hedges make the place a veritable bower of blossoms in the Spring time. The barns and all other buildings are painted a deep red. Flowers are grown in profusion. Carefully tended strawberry beds, currents and other berry bearing shrubs help to make this one of the Ideal Country homes becoming so prevalent in Saskatchewan.

The Balkwill family consists of one adopted daughter. Mrs. Jean Balkwill died in 1931. The daughter is now married and lives with Mr. Balkwill at Bemersyde Farm.

In 1897 Mr. Balkwill purchased a Foundation Herd of Registered Shorthorns including Water-loo Lily a prize winner of Guelph, Ontario. The females of the Bemersyde Herd are all descendants of this original purchase. For many years the Bemersyde Shorthorns have been shown at the Regina Spring Sales—Corning King being awarded grand championship. Due to poor railway transportation it was impossible to show on either the A or B Circuits to any extent, but King James was awarded Second in his class on the A Circuit. Mr. Balkwill's den is lined with ribbons and trophies awarded the herd from various Agricultural Fairs throughout his district.

Among some of the top notcher Herd Sires owned by Bemersyde Stock Farm are: Corning King; King James bred by The Experimental Farm, Indian Head, Saskatchewan; Gainford Ideal, Sired by Gainford Marquis (Imp.) Grand Champion Shorthorn.

PRESENT HERD SIRE: Hillhurst Secret Don, purchased from John T. Clark, of Inchkeith, Saskatchewan.

Jesse Balkwill was one of the first Councillors of the L.I.D. Graytown District. He is a member of The Saskatchewan Shorthorn Club and The Cattle Breeder's Association but now, after a half century and over of active service he is content to let the younger members take over. In past years Mr. Balkwill specialized in prize winning Berkshires, Shorthorns and Clydesdale horses, with a hobby of thoroughbred race

## PELLY, SASK.

#### Population 358

A P.O. and Incorporated Village in S. 27, Twp. 33, R. 32, W. 1st, in MacKenzie Dom. Elec. Dist., Pelly Prov. Elec. Dist., Yorkton Land Reg. and Jud. Dists., Mun. No. 301, on the C.N.R., 22 miles north of Kamsack which is the divisional point of the C.N.R. Norquay, nine miles west is the nearest banking centre. Has C.N. telegraph and express, Saskatchewan Government local and long distance telephones, United, Anglican and Greek Catholic churches. Good public and high schools. There are five elevators handling approximately 700,000 bushels of grain annually.

Pelly was incorporated as a village in 1911. Eight miles south of Pelly on the Assiniboine River is the site of Old Fort Pelly, one of the historical spots of Saskatchewan. Fort Livingstone, three miles northwest of Pelly on the Swan River was the first seat of the Northwest Territorial Government in 1887. The first session was held at this point in that year. The following year the Territorial seat of government was transferred to Battleford. The D and E Divisions of the R.C.M.P. under Colonel MacLeod controlled all other subsidiary points from general headquarters in this area.

Pelly is in the Parkland area, being heavily wooded with poplars, spruce, birch and tamarack. Maple is found along the river banks. The soil is a rich black loam with clay subsoil, making this an excellent farming country with exceptional yields of wheat and coarse grains. Farther north the soil is a sandy loam.

Pelly retained the name of the old fort. South of Pelly is the Keesekoose and the Cote Indian Reservations, while the Keys Reserve is south of Norquay. Headquarters for the Indian Superintendent is 16 miles from Pelly on the Cote Reservation.

RESOURCES: Wheat and coarse grains. Considerable livestock is shipped from this point.

#### BOWDITCH BREEDER HATCHERY

The Bowditch Breeder Hatchery located at Pennant, Saskatchewan, is owned and operated by Wm. T. J. Bowditch, one of Saskatchewan's well known breeders of Registered White Plymouth Rock Chickens.

W. T. J. Bowditch has been a resident of this community all his life, having been born at Success, eleven miles South East of Pennant, his boyhood days being spent on his father's farm. T. H. Bowditch is one of the pioneer settlers of that district, having filed on a homestead around 1911, which is now the home farm.

Tom Bowditch, Jr., purchased the present site on which his hatchery is located in 1944. His first venture in farming was an initial stock of Yorkshire Swine and around six hundred chicks. Becoming interested in the raising of chickens on a larger scale he disposed of the Yorkshires and has since that time confined his interests to the breeding of poultry and is now specializing. to the breeding of poultry, and is now specializing in White Plymouth Rocks for Record Performance R.O.P.

Bundy incubators are in use with a little over 14,000 capacity. On hatching the chicks are placed in electrically controlled brooders for two weeks. These chicks are used for replacement stock; they are then placed in floor brooders and when the weather permits are put out on the range.

At the present time the Bowditch flock consists of approximately 1,000 laying birds. A careful selection is made consisting of from fifty to one hundred birds, which are maintained for replacement purposes.

Breeder stock is the main business of the Bowditch Hatchery and thousands of chicks from this hatchery are shipped out annually, in order to supply better breeding stock to the surrounding district.

ing district.

Many orders are now being received for Started Chicks, which is rapidly developing into a major business in this line.

W. T. J. Bowditch is a Director of The R.O.P. Hatchery, Saskatoon, and Vice-President of The Saskatchewan Poultry Association, taking an active interest in all work connected with finer breeding steel. breeding stock.

BELL BROTHERS STOCK FARMS located at BELL BROTHERS STOCK FARMS located at Keystown, Saskatchewan, which is twenty miles west of Regina, are owned and operated by Cecil and Norman Bell, breeders of Registered Aberdeen-Angus cattle. The farms are one mile east and four miles north of Keystown, but as Pense is well known they are generally listed as 9 miles north and 2 miles west of Pense.

The Bell Brothers are rapidly becoming known The Bell Brothers are rapidly becoming known for the quality breeding of their stock and while they are comparatively new as exhibitors, the many ribbons and trophies which have been awarded them on both the A and B circuits has gained them considerable recognition among cattle breeders of the province. We list a few of the awards taken by the Bell herd.

1949—Winter Fair, Regina: Champion Angus steer; winning the Burns Trophy.

1949—B Circuit, Weyburn-Estevan-Moose Jaw: Grand Championships for both male and female entries.

1950-Moose Jaw Summer Fair: Grand Championships for both male and female, which was repeated in 1951.

1951—Regina Summer Fair, A Circuit: The Bell herd was awarded Grand Championship for the best Angus female.

the best Angus female.

The Bell Brothers purchased their foundation stock in 1946 from Kenneth Holt of Craven, Saskatchewan, consisting of ten females and two herd sires. Craven's Revolution Gift —65405 and Craven's Eston Quality 5th. The herd has been gradually built up and now numbers around 60 Registered head. They feel that quality breeding and maintenance of the herd are essentials in building the herd up to the high standards they wish to maintain, consequently great care has been taken in choosing herd sires. Lucinda's Bandolier —74153— proved to be a valuable addition to the herd and the present herd sires are Craven's Eston Quality 6th —85772— and Bell's Revolution Bonnie Lad —1054488—.

The Bells have been residents of the Bruceville

The Bells have been residents of the Bruceville district for the past thirty-seven years. Their father, the late Robert R. Bell, left their former home in Richill, Ireland, in 1914, to take advantage of the greater opportunities offered in Western Canada, purchasing a half section north of Keystown, which is now the home farm. His family consisted of his wife, five boys and one girl. The three older boys left the farm to carve out their own careers and are now established in Regina. Harry, a veteran of the First World War, is well known as the Southern Saskatchewan distributor for Kaiser-Frazer automobiles, with showrooms on Albert Street in Regina. Lily stayed with her father on the farm until he retired and moved to Regina in 1945. After his death she decided to remain in the city.

Cecil and Norman married in 1945 and Cecil moved to a farm he had purchased a mile south of the home farm. He now has 1,000 acres, 640 under cultivation, mostly wheat and coarse grains. Sweet clover is grown for winter feed, the balance is in pasture lands. Dugouts in the pastures provide an abundance of water for the summer months and wells are used for the house and barns. A shelter belt of maples and carragana hedges make the grounds attractive as well as being a shelter from the prairie winds. The house is a comfortable bungalow type, semimodern; electricity is used throughout the farm. Large barns with ample lift room for winter feed keep the cattle comfortable during the winter months.

winter months.

Norman has taken over complete management of the home farm, 520 acres are under cultivation and around 120 acres in pasture lands. The boys rotate the herd on whichever range is suitable, as they are joint owners in the herd but carry on their farming operations individually. The original Bell home has been modernized and the boys use only the latest models in power farm machinery. Leslie, in particular, is very grateful that "haying time" is almost a pleasure, with their modern power farm machinery the tedious hand work of yesteryear has been abolished and a little expert handling of the tractor picks up the hay in no time.

The Bell Brothers are members of the Canadian

The Bell Brothers are members of the Canadian Aberdeen-Angus Association and the Cattle Breeders' Association, taking an active interest in all work connected with the breeding of better livestock.

### TAYLOR, W. & SONS Circle T Ranch.

Canadian Home of the Mischiefs Polled Herefords. South of Broadview. Domestic Phone Broadview 84r5.

Warner John L contractor Wenman N J carpenter Wenman Nelse retired

CIRCLE T RANCH: Located 2 miles east and 10 miles south of Broadview, on No. 1 Highway (gravelled road), is owned and operated by Walter Taylor & Sons, Breeders of Registered Polled Herefords.

Walter Taylor has been a resident of Saskatchewan since 1909, when he left his home in London, England, to join his two brothers at Gull Lake, Saskatchewan. That same year he filed on a homestead 75 miles northwest of Swift Current on the Empress Line. Ten years later he sold the homestead and purchased 10,000 later he sold the homestead and purchased 10,000 acres in the Cadillac District. With his wife and two sons the Taylor family became cattle ranchers. A herd of good grade Herefords numbering around 300 head was maintained for the next few years, but the depression made it necessary to dispose of the herd. In 1937 the Taylors purchased 1,500 acres in the Inchkeith District, which they sold in 1947. After an extended visit to the coast they returned to Saskatchewan and purchased 1,100 acres in the Pipestone District. 800 acres are in pasture lands and the balance or around 300 acres are under cultivation, mostly forage grasses. The later he sold the homestead and purchased 10,000

LOCATION: Circle T Ranch—Two Miles East of Broadview on No. 1 Highway and 10 Miles South on Gravelled Road.

Pipestone Creek angles through the pasture providing excellent water for the herd, bluffs and coulees are well treed with a natural growth of coules are well treed with a natural growth of poplars, providing shade throughout the summer months and as these rugged Circle T Ranch Herefords are kept on the range all through the year, a better spot could not have been chosen. In 1937 the Taylors purchased a foundation herd of Registered Herefords choosing the Domestic Mischief Polled Herefords imported from Mertzon, Texas, and bred by Mans Hoggett, whose Hereford Ranch is well known throughout the United States. This strain has steadily been increased and built up. Circle T Ranch is now known as The Canadian Home of The Domestic Mischiefs. The herd consists of around a hundred head which the Taylors feel is a good sized herd to maintain.

In 1950 the Circle T Herefords were shown on both the A & B Circuits, but the main objective is quality breeding. The Circle T Herefords are a fully accredited herd and calf hood vaccinated.

Among well known herd sires owned by the Circle T Ranch are:

Mischief Bocaldo: Bred by J. S. Palmer & Sons, of Marsden, Saskatchewan, and twice winner of The Grand Championship, Regina Winter Fair. Regina

Echo Gem: From the Thompson Ranch, of High River, Alberta. Winner of the Reserve Championship, Brandon, Manitoba, Winter Fair.

PRESENT HERD SIRES: SENIOR: Woodrow 48th —2898202— Domestic Anxiety. Jr. —259985.

1951—Junior Herd Bull Prospect, Choice Anxiety, Imp. of Domestic Mischief breeding, purchased from the Mans Hoggett Ranch, Mert-zon, Texas. Sale price, \$5.500.00.

Many improvements are being made at the ranch, the dwelling has seven rooms and is completely modernized, electricity is used for all domestic purposes. The barn is 80 x 40—power farm machinery is used exclusively—natural springs provide an abundance of water 365 days a year.

Sidney & Walter, Jr., (Bud), are now in partnership with their father taking an active interest in building the herd up to it's highest standard.

The Taylors are members of The Canadian Hereford Breeders' Association. Walter Taylor is President of the Southeastern Saskatchewan Hereford Association. Visitors are always welcome to visit Circle T Ranch and young stock is for sale at all times.

ENTERPRIZE HEREFORD FARM: Located 11

ENTERPRIZE HEREFORD FARM: Located 11 miles east of Regina on No. 1 highway and one-half mile north of Pilot Butte, is owned and operated by Robert R. Vester & Sons, Breeders of Registered Hereford Cattle.

"Bob" Vester as he is known to his friends has been a resident of Saskatchewan all his life. His father, the late Carl Vester, was a pioneer settler of the Longlaketon District, having filed on a homestead around 1888, previous to that time the Vester family lived in the Mid-Western States and when they made the move to Sastime the vester family lived in the Mid-Western States and when they made the move to Saskatchewan oxen were used for transportation and breaking the land. But our early pioneer settlers had a "Stout Spirit" and soon the prairie land became fields of golden wheat, a good grade herd of cattle was purchased and maintained to nerd of cattle was purchased and maintained to supply the family with beef and dairy products, chickens and turkeys supplied the family table supplemented with vegetables from the garden. "Bob" Vester was born on the original home-stead and with his four sisters and five brothers

stead and with his four sisters and five brothers attended the district school. At the death of his father when Bob was around 16 years of age the family gradually dispersed to various parts of Canada and the United States. Mrs. Vester, Sr., now resides with her son.

In 1942 the Vesters purchased their present farm at Pilot Butte which originally consisted of 320 acres additional acreage has been added

of 320 acres, additional acreage has been added making a total of 800 acres. 480 acres are three

miles south of Pilot Butte, which is good arable land. 410 acres are under cultivation wheat and coarse grains, 100 acres in Crested Wheat and the balance is in pasture lands. Excellent water is obtained from wells on the farm, groves of poplar provide shelter for the herd in summer. The barn is large and roomy with ample space for 25 head of cattle. A large loft is reserved for winter feed. Wells in the barn provide fresh water for the herd. A comfortable farm home consisting of ten rooms with full sized basement is the home of this family of seven children and three adults. Having been brought up in the Silton District, where every other neighbor was a breeder of Registered Cattle, Bob Vester determined to have a herd of his own. In 1944 he purchased his foundation stock from W. N. Catley & Sons, of Woodlands Hereford Ranch, Craven, Saskatchewan, consisting of five heifer calves. The herd has been gradually built up and now numbers around 30 head, which Mr. Vester considers a good number to maintain.

The Enterprize Herefords were awarded Reserve Grand Championship and Reserve Junior Champion for Enterprize Starlet Bocaldo ID—258227— First prize for best Saskatchewan bred Hereford—four firsts—five seconds and four thirds at the Regina Exhibition A Circuit, 1950. Enterprize Real Prince 1 C—233725—was awarded Reserve Grand Champion and Best Saskatchewan bred Hereford, Regina Exhibition A Circuit, 1949.

Robert Vester is a member of The Canadian and Saskatchewan Hereford Breeders' Association and a member of The Saskatchewan Livestock Breeders' Association, a Trustee of the Pilot Butte school district, taking an active interest in all work connected with the breeding of better livestock. Allan and Denis Vester are now associated with their father and are taking an active interest in building up the herd.

McLEAN STOCK FARM: Located five and onehalf miles northwest of McLean, Saskatchewan, is owned and operated by John Froh & Sons, Breeders of Registered Yorkshiree Swine and Hereford Cattle.

John Froh was born in Hungary in the vicinity of Budapest. His father, the late Adam Froh, was a farm Overseer. 1900 to 1903 he spent in Canada helping in railroad construction at Yorkton, Saskatchewan, returning to Hungary he spent the following seven years as an Overseer on his uncle's farm. He decided to return to Canada with his family with the intention of making a new home for them on the western prairies. The first five years were spent in Regina doing various types of work, he then purchased 160 acres in the Rosenberg District near McLean. The Froh family resided on the farm until 1942 when Mr. and Mrs. Adam Froh retired moving into the Village of McLean.

John Froh took over complete management of the farm on his father's retirement, his three sisters married and made homes of their own. John was married in 1923 to Clara Heisler, of Vibank, and in 1929 purchased 160 acres of his own which is now a part of the home farm. Additional acreage has been added from time to time and today the McLean Stock Farm consists of 1,120 acres. 700 under cultivation, mostly wheat and coarse grains, 420 acres are in pasture land, excellent water is obtained from natural springs near Boggy Creek. Poplars and Willows provide shade for the herd. Choke cherries, black-berries and raspberries are plentiful on the farm with some Saskatoons. This comfortable farm home is seldom without laughter and plenty of excitement as the Froh family consists of 12 healthy children, four girls and eight boys. The older boys are all associated with their father and take a keen interest in building up the Pure Bred Live Stock. Mrs Froh is a diligent worker, making her own bread and canning the vegetables from her well kept vegetable garden. She has been an invaluable helper to her husband and he gives her credit for helping to make the farm the success it is today.

John Froh has been a Breeder of Registered Yorkshire Swine for the past 27 years, purchasing his foundation stock in 1924 The herd numbers up to 45 on a yearly average, but they were not shown until 1950 when they were awarded the Reserve Grand Championship and two Reserve Junior Champions, Regina Winter Fair.

1951 Regina Provincial Exhibition they won the Reserve Grand Champion, Junior Champion, two Junior Reserve Champions and Second Prize, which was the Special Prize awarded by The Saskatchewan Brewers' Association Ltd. for Yorkshire Swine.

Stonehill Laura 28 E —397496— a Yorkshire female bred by David Wright of Montague, P.E.I., has one of the highest records in Canada for Lineal Descent and is now owned by John Froh, of McLean.

The Frohs have recently decided to build up a herd of Registered Herefords. The Foundation stock was purchased from Hanley Brothers of Qu'Appelle, Saskatchewan, and Harry Keeble, of Indian Head. This is the first year the Herefords have been shown on either the A or B Circuit.

PRESENT HERD SIRE: WESTPORT DOMINO 7th —260387— bred by John Nygren, Wadena, Saskatchewan, awarded 2nd prize in age class, Regina Exhibition, 1951.

John Froh is looking forward to showing McLean Lass 1E— 308730— sired by Dimple Perfection 12th -247422—, an outstanding female of his own breeding and a sure winner in his estimation.

ROSALAIN STOCK FARM: Located 12 miles north of Regina on Highway No. 6, S. 20, Twp. 19, R. 19, W. 2nd, is owned and operated by J. W. Atcheson & Son, Breeders of Registered by J. W. Atcheson & Son, Breeders of Registered Shorthorn Cattle and Sussex Chickens. J. W. Atcheson has been a resident of this district since 1898. Born in St. Mary's, Ontario, he completed his education and taught for several years in Eastern Canada, but accounts of the golden opportunities awaiting young men in Western Canada, caused him to give up his teaching and investigate for himself the lure of the prairies. On his arrival in the west he decided to resume his former work and while teaching at Lumsden purchased his first farm in the Tregarva District, which was disposed of

cided to resume his former work and while teaching at Lumsden purchased his first farm in the Tregarva District, which was disposed of later in favour of a half section which is now a part of Rosalain Stock Farm.

Plans for the future became centered around Rosalain Farm and today, some 50 years later, as one surveys this well kept country home with its modern buildings, up-to-date power farm machinery, and well kept grounds, one realizes his decision was a wise one. Gone are the days when a trip to Regina meant a tedious 12 miles through mud and slush, today a hard surfaced highway makes the ride just a pleasant outing. Electricity is supplied by the Hydro Electric from Regina. A shelter belt of poplars, elms and maples planted many years ago are now grown and help to keep out the prairie winds. Carragana hedges and flower gardens make this one of the more attractive homes of the district. The barns are large and roomy with ample loft room for winter feed, while the cattle are housed in comfort during the winter months. An additional quarter section has been added and 480 acres are now under cultivation, mostly wheat and coarse grains with fifty acres in pasture land. Brome and Crested wheat grass are grown for winter feed. Excellent water is obtained from a deep well, which Mr. Atcheson proudly states is worth its weight in gold. Dugouts in the pasture are used during the summer months.

The Atchesons became interested in the Breeding of Registered Cattle in 1945 and for the past six years have been building up a sizeable herd of Registered Shorthorns, quality breeding has been their main objective and they have taken

great care in choosing their initial stock, paying marked attention to lineal descent. Their foundation stock was purchased from the Burnside Stock Farm owned by Matthew Longmuir, of Grainland, Saskatchewan. Since that time additional stock has been purchased from Sydney K. Berry, of Lashburn; Matthew Nielsen and Lachlan Kennedy, of Craik; William A. Small & Son, of Craven, and a number of the females were bred by Charles Sinclair of the Kelrose Stock Farm, Silton. Saskatchewan.

Silton, Saskatchewan.

We list a few of the better known herd sires which have been purchased for Rosalain Farm:

SHIRLEY FLOWER KING —268;26— bred by Sydney K. Berry, Lashburn, Sask., grandson of Balmuchy Jasper of the Claude Gallinger Ranch, Tofield, Alberta.

POPLAR GLEN DANNY BOY -262804— bred by Wm. Small & Son, Craven, Sask.

PRESENT HERD SIRE: NIELBAR MARQUIS —301879— bred by Lachlan Kennedy, of Craik. Reserve Grand Champion winner, Regina Winter Fair, 1949, and the highest priced Shorthorn ever

Fair, 1949, and the highest priced Shorthorn ever to go through a show ring at the Regina Winter The Rosalain Shorthorns were shown for the Fair. Sale price, \$1,600.00. first time on the A Circuit, Regina Summer Fair, 1951, being awarded two firsts and one second in Jr. Calf Class (Progeny of Neilbar Marquis—301379— also first for Jr. Yearling Bull, the sale price being exceptionally high. The Atchesons plan to enter the herd from now on and feel confident they will be able to compete with the best.

confident they will be able to compete best.

J. W. Atcheson and his Son, Campbell, are members of The Canadian Shorthorn Breeders' Association taking an active interest in all work connected with the breeding of better livestock. Campbell Atcheson is making himself well-known among the poultry breeders of the Province, with his Government Approved flock of Registered Sussex Chickens, while he keeps the number down to around 375, the flock is more than paying its way. A strictly modern hatchery equipped with the latest improvements has been instrumental in cutting down much of the tedious work connected with caring for this sizeable flock.

#### PLENTY, SASK.

Population: 200.

A P.O. and Incorporated Village in S. 33, Twp. A P.O. and Incorporated Village in S. 33, Twp. 32, R. 19, W. 3rd, in Kindersley Dom. Elec. Dist., Rosetown Prov. Elec. Dist., Saskatoon Land Reg. Dist. and Kerrobert Jud. Dist., Mun. No. 319, on the C.P.R. 42 miles northwest of Rosetown, on Highway No. 31 (gravelled). Has C.P. telegraph and express, Saskatchewan Govt. local and long distance telephones, United and Roman Catholic churches, good public and high schools. There are four elevators handling approximately 450,000 four elevators handling approximately 450,000 bushels of grain annualy. Two general stores, bushels of grain annualy. Two general stores, grocery and meat market, 3 garages, 3 farm implement agencies, hotel, two cafes, barber, real estate and insurance office, lumber yard, electrical estate and insurance omce, lumber yard, electrical shop, up-to-date theatre and bank. (Medical service three times a week from Dodsland.) A standard sized curling rink (2 sheets of ice) with open air skating rink provide recreation for the village. The Community Hall and Legion Hall are used for dances and other community gatherings.

The C.P.R. steel was completed to this point in 1911. The village was incorporated the same year. During the days of construction a stockpile of supplies were kept at this point. Thus Plenty derives its name from the fact that there was always plenty of material available to continue the work.

The pioneer settlers of this district were mainly from Scotland, eastern Canada and other parts of the British Isles.

RESOURCES: The soil is a Regina clay adaptable to the growing of wheat and coarse grains.

#### PONTEIX, SASK.

Population 660

A P.O. and Incorporated Village in S. 19, Twp. 9, R. 11, W. 3rd, in Maple Creek Dom. Elec. Dist., Shaunavon Prov. Elec. Dist., Swift Current Land Reg. Dist., and Gravelbourg Jud. Dist., Mun. No. 76, on the C.P.R., 70 miles west of Assiniboia and 50 miles southeast of Swift Current which is on the main line of the C.P.R. Has C.P. telegraph and express, Sask. Govt. local and long distance telephones, serviced 24 hours daily by The Saskatchewan Power Corporation. Has Roman Catholic and United Churches, good public and high schools, fully equipped modern hospital, excellent medical service and fully qualified nursing staff. The Convent of Notre Dame is a Residential and Day school for boys and girls. Ponteix is the terminus for the Saskatchewan Bus Transportation-Regina-Ponteix. Daily train service to Regina and Moose Jaw. The village has three miles of concrete sidewalks. The homes are modern and the citizens of Ponteix are justly proud of the well kept appearance of their village. An active Chamber of Commerce have been instrumenttal in making their Annual Sports Day and Agriculutral Fairs outstanding events in the community. There are six elevators handling approximately 1,000,000 bushels of grain annually. A lumber yard, stock yard, six general stores, excellent super market and locker plant, two hardware stores, Co-Op Association, hotel, four garages, seven farm implement agencies, ladies' wear, men's wear, beauty parlours, dental surgeon, chiropractor, drug store, theatre and many other places of business meet the needs of this thriving community, as the adjacent country is well populated and is served by Ponteix. The people of Ponteix are proud of having the finest water in Southern Saskatchewan.

RESOURCES: Wheat, barley, oats, peas, buckwheat and hay while considerable livestock and poultry are shipped from this point.

HISTORICAL: Ponteix was founded by Father Albert Royer in April, 1908, the name being in commmeoration of his home parish in France. Ponteix derives its name from Ponteix Parish in France, a key point to Paris through which the Roman armies had to pass in order to reach Paris. The name is of great historical interest as many battles were fought in this passage. The Village of Ponteix was Incorporated in 1914

and since that time its growth has been rapid. The Roman Catholic Church—Notre Dame d' Auvergne, has been erected at a cost of \$175,000.00 and is considered one of the largest churches in Saskatchewan.

The statue of our Lady of Auvergne, which was brought to Canada by Father Royer is now placed on a side altar on the right hand side of the central nave, and has a remarkable history. In the early fifteenth century this work of art delighted the people of Aubiere in The Department of Auvergne, where it was originally placed over five hundred years ago. The statue is of oak with a back plate of gold, priceless in the simplicity of its ancient beauty. During the French Revolution (1793) all religious paintings, statues and other valuable works of art were demolished and destroyed by the Revolutionists, nevertheless many objects were saved by the citizens, who knew the value of the work. Consequently "Our Lady of Auvergne" found a new home in a stack of straw. After the French Revolution many of these objects were unearthed and this statue eventually came into the hands of a famous French Art Collector, who in turn presented it to Father Royer and it became one of his most precious possessions. It travelled with him to Canada and was given a place of honour in his first little church which was built about one mile north of the present site. As the congregation grew, this church was found inadequate and a new church was built to accommodate his growing parish, but fire destroyed this building in 1922 and the statue of Our Lady was the only article saved. With the completion of the railway, Ponteix was moved from the original townsite to its present location. The church erected to replace the one burned is now used as a parish hall and the present structure which is of concrete and fire proof was completed in 1930. The statue of Our Lady of Auvergne which through the centuries has survived so many catastrophies now surveys the world and its passing events from the little niche in the nave of the new church.

#### **EDUCATION**

The Convent of Notre Dame located at Ponteix, Saskatchewan is under the direction of the Sisters of Notre Dame de Chambriac.

The order founded their first Boarding and Day school at Ponteix in 1913. Six sisters sent

out from Chamalieres (Puy-de-Dome), France, began the foundation of this order in Canada. Two of the foundresses, Sister Marie du St. Sacrament of the Notre Dame Convent and Sister Marie de la Croix of Gabriel Hospital are still on active duty.

The order was founded in 1732 at Usson-en-Forez (Loire), France, for the education of country children and charitable work among the sick and needy. The order confined its work to the adjacent rural communities and continued to the adjacent rural communities and continued to do so up until the French Revolution in 1793 when it was compelled to disolve, as were many other religious communities of those turbulent times. During this period many of the sisters were imprisoned for giving care to the refugees, one died in prison, one was guillotined and two others barely escaped the same fate through the timely downfall of Robispierre. After the Revolu-tion the sisters regrouped and continued their timely downtail of Robispierre. After the Revolution the sisters regrouped and continued their work of education and charity. In 1879 the Mother House was transferred to Chamalieres, (Puy-de-Dome), France, where it has continued to develop and continue its work of service.

The Sisters of Notre Dame de Chambriac made their first trip to Ponteix at the invitation of Father Albert Royer, founder of the parish. The first convent was built on the site of the first parish which is about a mile north of Ponteix, at its present location. In 1917 the new convent was completed and opened as a Private Boarding and Day school for girls and boys. Courses include public and high school curriculum. French and music are given special attention with the pupils being prepared for the Toronto Conservatory (ATCM) and also Trinity College, London (LTCM). Boys are accepted to the age of ten as boarders and day scholars to grade twelve inclusive, girls as boarders or The Sisters of Notre Dame de Chambriac made

day scholars, as well as kindergarten to grade twelve. Commercial work is now included in the high school curriculum.

HOSPITALIZATION

HOSPITALIZATION

In 1918 the Gabriel Hospital was completed at an opportune time to give medical and nursing aid to the victims of the influenza epidemic prevalent throughout the world. The first hospital was built on a more moderate scale than the present one, but nevertheless had the most modern equipment of that time including surgery and obstetrics. In 1930 the new addition was completed in order to provide room for X-ray equipment and extra beds.

In 1949 complete new X-ray equipment was installed which is considered to equal any used in the smaller hospitals of Saskatchewan. An experienced medical staff and qualified nurses provide excellent care for the patients. X-ray and laboratory work is under the supervision of graduate technicians.

#### PORCUPINE PLAIN, Sask.

Population: 550.

Population: 550.

A P.O. and Incorporated Village in S. 9, Twp. 43, R. 8, W. 2nd, in Mackenzie Dom. Elec. Dist., Kelsey Prov. Elec. Dist., Prince Albert Land Reg. Dist., and Melfort Jud. Dist., Mun. No. 395, on the C.N. 18 miles southeast of Tisdale. Has C.N. telegraph and express, Saskatchewan Govt. local and long distance telephones, United, Roman Catholic, Greek Catholic and Pentecostal churches. Excellent public and high schools. There are three elevators handling approximately 600,000 bushels of grain annually. Two lumber yards, exceptionally good hotel, theatre, 3 garages, 4 farm implement agencies, 4 general stores, two hardware stores, shoe store, ladies' and men's wear, drygoods, machine shop, electrical shop, radio shop, two cafes, real estate and insurance, two barbers, barrister, weekly newspaper, Union hospital, two resident doctors, drug store, bakery, locker plant and many other places of business which meet the needs of this thriving community. The Bank of Montreal maintains a branch at this point. A standard sized curling rink (2 sheets of ice) and an outdoor skating rink provides recreation for the village and district. Train service three times a week (Regina-Saskatoon); mixed train three times a week (Hudson Bay-Crooked River). The Saskatchewan Power Cor-

poration is completing the power line from Tisdale through Porcupine Plain to Weekes, which will give 24-hour service. Highway No. 23, connecting with No. 9, is gravelled from Tisdale through Porcupine Plain to Reserve. Porcupine Plain is situated on a cross road of Government maintained roads, twenty-two miles northeast of Greenwater Lake, which is a charming summer resort and ideal for good fishing. The Provincial Chalet provides excellent accommodations for guests during the season. The Porcupine post office serves over 250 families. This district was opened to veterans of the First World War. The steel was completed to this point in 1928; since that time growth has been point in 1928; since that time growth has been rapid and the village was incorporated in 1940. pine Hills which lie to the east.

RESOURCES: The soil in this district is excel-

lent for the growing of wheat and coarse grain, while alfalfa is successfully grown for seed. Lumbering is one of the major industries. Honey is shipped to the eastern markets.

HOSPITALIZATION

The Porcupine-Carragana Union Hospital was completed in 1948. Built on modern lines, this gleaming, white, 20-bed hospital is undoubtedly one of the finest small town hospitals in the province. Lates X-ray and surgical equipment has been installed, while two resident doctors

and a qualified nursing staff provide excellent care for the patients of the district. Oxygen has been piped into the operating room and nursery.

Donations of four private rooms have been made by the Porcupine Hospital Aid and the Community Club, Chelan Hospital Aid and A. L. Webb of Doncrest.

HONEY

There are two well known producers of honey at Porcupine Plain: F. J. Hand & Son, whose apiary is right in the village with colonies covering a large territory. John Knudson, whose farm lies about six miles south, won first prize for his honey at the Toronto Royal.

#### PREECEVILLE, SASK.

Population 670

A P.O. and Incorporated Town in Sec. 32, Twp. 35, R. 5, W. 2nd, in McKenzie Dom. Elec. Dist., Canora Prov. Elec. Dist., Yorkton Land Reg. and Jud. Dists., Mun. No. 334, on the C.N. R., 30 miles northwest of Canora. Has C.N. telegraph and express, Sask. Govt. long distance telephones and Preeceville Rural. Situated on Highway No. 49, Manitoba Border to Kelvington (good dry

weather roads) Junction No. 9 Highway one mile east which is gravelled from U.S. Boundary to Canora, (good gravelled) road from Canora to Hudson Bay Junction. Has United, Lutheran, Greek Catholic Churches and Apostolic Mission. Good public and high schools. Modern, up-to-date Union Hospital equipped with the latest operating equipment. Sask. Co-Operative Creameries service this territory from Swan River to Hudson Bay Junction and west to Kelvington. Three elevators, lumber yard, bank, weekly newspaper, three garages, hotel, two cafes, six general stores and drug store meet the needs of the community. Preceville serves a large area as this is a central shopping point and nearly all marketing and busiweather roads) Junction No. 9 Highway one mile shopping point and nearly all marketing and business transactions within a radius of sixty square miles is handled here.

Nelson Lake, six miles northwest, has an all sandy beach and many residents of the district have summer homes at this pleasant spot. Northern nave summer homes at this pleasant spot. Northern pike, wall eyes and perch provide excellent fishing, while moose, deer and elk are plentiful from here on north. The Canada goose, wild ducks, Hungarian partridges, ruffed grouse and prairie chickens are numerous and make this a favourite rendezvous for hunters.

Mixed farming is carried on extensively and this district has never known a crop failure. Wheat, barley, oats and alfalfa are the main crops, while farther north heavy timber makes lumbering an important industry.

Population 594

Population 594

A. P.O. and Incorporated Village in S. 9, Twp. 22, R. 25, W. 3rd, in Swift Current Dom. Elec. Dist., Maple Creek Prov. Elec. Dist., Swift Current Land Reg. and Jud. Dists., Mun. No. 231, on the C.P.R., 88 miles northwest of Swift Current. Has C.P. telegraph and express, Saskatchewan Govt. local and long distance telephones, United, Roman Catholic and Greek Orthodox Churches. Good public and high schools. St. Angela's Convent is conducted by the Ursuline Sisters. There is a modern well equipped hospital with resident doctor. The Prelate Union Hospital opened in 1947 is a 24-bed, adult and children with five bassinettes, fully modern surgery and equipped with latest X-ray. There is an excellent medical and nursing staff. There are seven elevators handling approximately 500,000 bushels of grain annually, four garages, general store, hardware store, two lumber yards, three grocery stores, an excellent hotel with cafe in connection, which meet the needs of this thriving community. A new curling rink (two sheets of ice) and an open air skating rink as well as a combined parish hall and motion picture theatre provide recreation for the village. Prelate was Incorporated as a village in 1913 at which time the steel was completed to this point. Settlers in this vicinity were mostly immigrants from Russia, the steel was completed to this point. Settlers in this vicinity were mostly immigrants from Russia, Roumania and the Ukraine.

RESOURCES: Wheat and coarse grains.

EDUCATION

ST. ANGELA'S CONVENT located at Prelate, Saskatchewan, is conducted by The Ursulines of St. Angela. This is a residential and day school for girls. The curriculum consists of a high school course, as well as a complete commercial course, domestic science, art and music, pupils are prepared for all the examinations of the Toronto Conservatory of Music under the competent direction of excellent teachers, as the work of this order consists solely in the education of excellent reachers.

work of this order consists solely in the education of youth.

St. Angela's of Prelate is the Mother House for Saskatchewan. The Cradle of this order was founded in Brescia, Italy, in 1535, by Angela Merici, it took on a mitigated cloistered form at Milan, Italy, and from there spread very rapidly into France, Bordeaux being the first Mother House (1618) from which proceeded establishments at Liege, Belgium, and Cologne, Germany, the latter house was demolished by bombs during the Second World War.

The first Canadian homes were opened at Bruno and Vibank and at Prelate in 1919. The Prelate community now has 15 branch houses: Tramping Lake, Quinton, Denzil, Revenue, Mendham, Billimun, Liebenthal, Barthal, Good Soil, Fox Valley, St. Walburg, Primate, Richmond, Masefield and Cosine.

As Prelate is destined to be the training centre for many Educators throughout the Province, St. Angela's Convent is well-known not only as a Residential Day School, but another important feature of the work is preparing young ladies

for the sisterhood.

Work is nearing completion on a new wing as the demand for teachers is steadily increasing. A new chapel and additional housing for the academy will be constructed. Plans for the new building include the latest equipment and will be fully modern throughout.

#### PUNNICHY, SASK.

(Population 275)

A P.O. and Incorporated Village in S 11 Twp 28 R 17 W2nd in Lake Centre Dom. Elec. Dist., Touchwood Prov. Elec. Dist., Humboldt Land Reg. Dist. and Wynyard Jud. Dist., Mun. No. 278 on the C.N.R. 80 miles Northeast of Melville, and Highway No. 15. Has C.N. Telegraph and Express, Saskatchewan Govt. local and long distance telephones, United, Anglican and R.C. Churches, good public and high schools. There are three elevators shipping approximately 225,000 bushels of wheat and 50,000 bushels of coarse grain annually. The R.C.M.P. have a detachment at this point and a branch of The Bank of Montreal is maintained here. There are five general stores, lumber yard, hardware, farm Implement agency and excellent garage, good hotel, drug store, resident doctor, cafe, newspaper, saddlery, cold storage for fur farmers feed and a cold storage locker plant, also a horse processing plant supplying fur farmers of Sastatchewan with meat requirements, two Rural Municipalities have their offices at Punnichy, as well as many other business places which meat the needs of this thriving community.

The Gordon Indian Reserve, five miles South, The Day Star Indian Reserve, 9 miles North, and The Poorman Reserve ship considerable cattle via Punnichy.

Punnichy is located in the heart of the Touchwood Hills and is just seven miles West of the Old Telegraph Trail, which was used in the early days by the fur traders travelling from North Battleford to Fort Qu'Appelle. General Middleton's Forces passed on this trail when suppressing the Riel Rebellion, remains of the old Hudson Bay Trading Post have vanished, but it still remains one of the historical spots of the Province. The Townsite is located at the foot of a large hill known locally as "Monument" Hill, from the stone cairn which was erected at the summit to commemorate the boys

who lost their lives during the war. Miles and miles of rolling farm land with great stretches of dense poplar bluffs unfold a striking panoramic scene of great beauty. The Touchwood Indian Agency is just one mile North of the village. Punnichy was Incorporated as a village in 1908. The Grand Trunk Pacific Railway was completed the same year. As this was the end of the steel, Punnichy became a point from which great train loads of cattle were shipped.

loads of cattle were shipped.

Punnichy is a word taken from the Cree language and a rather unique story is centred around the name of this village. W. A. Heubach was the first general merchant of this district, as a young man he rather fancied himself with a beard, but much to his chagrin a fuzzy down was about all he could cultivate. The Indians were greatly amused by this embryonic growth of beard and gave him the nickname of "Punnichy" which means a fledgling bird with few feathers, consequently when the village was named the unanimous decision was for "Punnichy". Highest award for the cleanest town or village in the local health district, which comprises some 60 villages, 13 towns and 42 hamlets has been captured by Punnichy five times and for the last three years consecutively.

A full-sized Curling and Skating Rink (2 sheets of ice) with open air skating rink provides recreation for the community. Pictures are shown twice a week at the village hall. Punnichy is on the main line of the C.N.R. with excellent train connections between Winnipeg and Saskatoon.

RESOURCES: Wheat with considerable mixed farming.

THE LATTA FUR FARM: Bordering the Village of Punnichy is owned and operated by W. G. Latta and is one of the Pioneer Fur Ranches of Saskatchewan, as the late Harry Latta, father of W. G. Latta. was connected with The Kelliher Silver Black Fox Company, operating in the early 1920's.

The ranch consists of 22 acres and is located in the heart of the Touchwood Hills, well treed and with an abundant water supply it makes an ideal site for raising fur bearing animals.

started his foundation Wilfred Latta with a pair of Silver Foxes around 1928, the herd was gradually increased until it numbered herd was gradually increased until it numbered around 500 head, during the last few years mink have been added, but have not been given a predominate place at the ranch. The pens are modern and up-to-date and will accommodate a sizeable herd, due to fluctuating prices the herd has been depleted and from 100 to 150 pups are averaged yearly. The herd is carefully culled anyually with the finest stock heigh kent for nually with the finest stock being kept for breeding purposes.

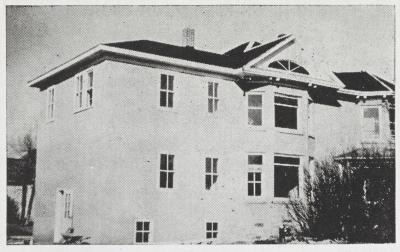

Champion Platinum Female was awarded The Latta Fur Ranch at The Saskatoon Fur Show, 1946, with several other high honours being awarded the Latta Foxes. High honours were also awarded at other Sask. Shows.

Realizing the need of feed storage accommodations for the fur farmers of Northeastern Saskatchewan, Mr. Latta formed a partnership with Edward Whitlock, a fur farmer of the Raymore District, and the result was a modern, up-to-date storage plant which they established in the Village of Punnichy. The plant was comin the Village of Punnichy. The plant was completed in 1945 and has been a boon to all fur farmers in the Northeastern section of the Province, including Raymore, Kelliher, Lestock, Ituna, Hubbard and other local points. Such items as fish, meat and fur ranch supplies are stored at the plant which is considered one of the finest of its type in Saskatchewan. In the fall of 1948, Latta and Whitlock opened The Punnichy Horse Processing Plant which now supplies an ever increasing number of fur farmers. plies an ever increasing number of fur farmers with their meat requirements. To date the territory covered reaches from Meadow Lake and Hudson Bay on the North to as far South as Moosomin, Rouleau and Fort Qu'Appelle. As an additional line, dog food is now being processed at the plant, ground and frozen, it is packed in two-pound cartons and can be purchased at retail stores in the larger centres.

W. G. Latta is a Director of The Saskatchewan Fur Breeders' Association, taking an active in-terest in all work connected with Fur Farming in Saskatchewan and is now sole owner of the Horse Processing Plant.

MEMORIAL HOSPITAL

### Qu'Appelle, Saskatchewan

"A FRIENDLY TOWN" IN A FRIENDLY COMMUNITY

#### QU'APPELLE, SASK.

Population: 528.

A P.O. and Incorporated Town in S. 21, Twp. 18, R. 14, W. 2nd, in Qu'Appelle Dom. Elec. Dist., Qu'Appelle-Wolseley Prov. Elec. Dist., Regina Land Reg. and Jud. Dists., Mun. No. 157, on the C.P.R., 32 miles east of Regina and 60 miles west of Broadview. Has C.P. telegraph and express, Saskatchewan Govt local and long distance telephones, Anglican, United, Presbyterian and R.C. Churches. Good public and high schools. Memorial Hospital furnished with the latest X-ray and surgical equipment. There are four elevators handling approximately 500,000 bushels of grain annually, up-to-date stores, garages, farm implement agencies, theatre, drug store, lumber yard and an excellent hotel.

FIRE PROTECTION

Qu'Appelle has a well-equipped fire department. A volunteer fire brigade gives excellent service when needed. There is an excellent fire hall, a motorized unit handling 500 gallons of water, 200 ft. hose, ladders and water wagon.

HOSPITALIZATION

The Qu'Appelle Memorial Hospital is a 15-bed hospital, furnished with X-ray and modern surgical equpiment. Qualified nursing staff and resident doctors.

The name Qu'Appelle is taken from the Cree language meaning "WHO CALLS". Many of Pauline Johnson's poems are centred around Echo Lake, which is 20 miles north of the town of Qu'Appelle. The original name of the village was Troy, which it retained until 1885, the year of the Riel Rebellion. Some time later it was changed to Qu'Appelle which it has retained.

INGLE PARK FARMS located two miles southeast of Edgeley (C.N.R.) and 6 miles north of Qu'Appelle (C.P.R.) are owned and operated by Harold Morrell & Sons. Breeders of Registered Aberdeen Angus cattle.

Harold Morrell was born in Yorkshire, England, moving to Canada in 1907. The first five years were spent in visiting various parts of Canada with a view of making his new home in a favoured locality. The beautiful Qu'Appelle Valley seemed an ideal spot and in 1912 he started farming on a small scale northeast of Ou'Appelle Leter, buying a section of land. He started farming on a small scale northeast of Qu'Appelle. Later buying a section of land. He has made his home here for the past thirty-one years. In 1928 beccming interested in the breed-ing of Registered Angus cattle he started his initial herd which today numbers 100 accredited head many of which have been in the prize winning class. Among the honours listed are Grand Champion Steer —1941— Reserve Grand Cmapion Steer —1943— Grand Champion in 1944 and Reserve Grand Champion in 1945 (Regina Winter Fair). Winter Fair).

The family which consists of three boys and three girls were all consistent winners with fat

steers in the Junior Competition, Regina Winter Fair from 1931-1942.

Ingle Park Herd sires are well known among which have been Black Monarch of C —49768—Blackcap Bard of Parkview —50150— Glenelg Pride 12th —59795.

Barbarian of Rosemere 147th—A. Bottles bull imported by The Saskatchewan government.

Harold Morrell, Jr., is at present president of The Saskatchewan Aberdeen Angus Club and Harold Morrell, Sr., is a director of The Saskatchewan Cattle Breeders' Assn. Having been interested in livestock all his life he takes an active interest in all work connected with the breeding of pure bred cattle.

A P.O. and Incorporated Town in S. 20, Twp. 40, R. 10, W. 2nd, in The Battlefords Dom. Elec. Dist., Prov. Elec. Dist., Battleford Land Reg. and Jud. Dists., Mun. No. 405 on the C.N.R., 50 miles northwest of Saskatoon on No. 5 highway and 50 miles southeast of North Battleford. Has C.N. telegraph and express, Saskatchewan Government local and long distance telephones, United, Anglican, Lutheran, Roman Catholic and Pentecostal Churches. Good public and high schools. There are four elevators handling approximately 475,000 bushels of grain anually. Six garages, six farm implement agencies. An excellent hotel, four general stores, two hardware stores, two cafes, drug store, beauty parlour, weekly newspaper, dental surgeon, barrister and many other places of business which meet the needs of this thriving community. Daily train service east and west (Winnipeg-Edmonton), with four daily buses, Saskatoon to Edmonton. Gravelled roads. Black top Radisson to Saskatoon. A full sized curling rink (two sheets of ice) with outdoor skating rink and an up-to-date community hall which is used for meetings, picture shows, dances, etcetra, provide recreation for the town. The C.N.R. steel was completed to this point in 1904. Pioneer settlers were for the most part from Eastern Canada and the United States. Radisson has an excellent water supply from town wells. Saskatchewan Power Commission provides electrical service twenty-four hours a day.

RESOURCES: Mixed farming while considerable livestock is shipped from this point.

#### RADISSON AND DISTRICT AGRICULTURAL SOCIETY

President, James Ryan.

Secretary-Treasurer, J. R. Ibbotson, Radisson.

The Radisson Agricultural Society has been an established feature of the Radisson Community for the past 40 years. During the depression years the work came to more or less of a standstill. Interest was revived in this project after the Second World War and since that time two successfuly fairs have been held, 1949-1950. Cattle, swine, horses poultry, horticulture, school exhibits, fancy work, preserves, home cooking, all receive their share of attention on this gala daya, horse racing provides excitement for those who are so inclined and a big frolic and dance winds up the evening.

The Radisson Society sponsors a Baby Beef Club which has proved beneficial to the younger enthusiasts of the community with Andy Hamilton as Club Leader. The breeding of Registered Shorthorns is gaining recognition in the District. Rupert Ibbotson in partnership with his father, P. J. Ibbotson, have a fine shorthorn herd which numbers around 30 head. The heard has been shown on the B circuits including North Battlesnown on the B circuits including North Battler ford and Prince Albert also at the local Agricul-tural shows. Honours have been awarded the herd wherever shown, but Rupert Ibbotson feels that maintenance of the herd and quality breed-ing are to be built up before he considers the A Circuit.

C. J. Guina has a fair sized herd of around 30 Registered Shorthorns and this herd has also been shown on the B Circuit the past two years.

Albert Drew has been another consistent breeder
of Registered Shorthorns, but has considerably reduced his herd.

ELLDEM FARM located nine miles northeast of Borden, Saskatchewan, is owned and operated by the Elliott Brothers, Ralph and Roy. Their father, the late Clarence H. Elliott, was a pioneer settler of what is now the Turtle Lake School District, his former home in Morden, Manitoba, was the site of their grandfather's original homestead, who was a native of Scotland, moving to Canada in 1904, his two sons, Alfred and Clarence, in their turn became homesteaders in Saskatchewan, with Saskaton at that time being their nearest trading centre. Oxen were used to clear the land and the brothers engaged in mixed farming for the next few years. In 1914 Clarence married and three boys and one girl were born to carry on the third generation. Clarence Elliott maintained ELLDEM FARM located nine miles northeast

around 100 head of Registered Aberdeen Angus Cattle but disposed of them in 1928. Additional acreage was purchased from year to year and in 1925 Elldem Farm consisted of 2,560 acres. At Clarence Elliott's death in 1935 the farm was reduced to three sections or 1,920 acres. Around 1,600 acres are under cultivation, wheat and coarse grains with the balance in pasture lands. Thirty acres are seeded in Brome and Crested Wheat grass. Natural growths of poplar throughout the pastureland, gives shade and shelter for the cattle. Wells provide excellent water. The barn is 70x60 with ample loft room for feed, and additional sheds, as the herd is kept under cover during the winter months. Electricity is used in the house and barns and for all domestic purposes. A shelter belt of maple, spruce and poplar, with Carragana hedges help to keep out the prairie winds. The dwelling is fully modern, a two and one-half storey brick, consisting of twelve rooms. Power farm machinery is used for all farm work. An automatic twine tied baler is used for putting up the hay. Flower and vegetable gardens are up the hay. Flower and vegetable gardens are given especial care and help to make this one of the more attractive homes of the district.

Ralph and Roy Elliott managed the farm for nine years after their father's death. Ralph mar-ried in 1943, Roy married in 1946 when their mother retired to live in Saskatoon.

Ralph was greatly interested in building up a herd of Registered Cattle and in 1935 purchased a foundation herd of Shorthorns from James Douglas and Sons of Caledonia, Ontario. The herd has been gradually built up and now numbers around 45 head. Showings of the herd have been made at the local Radisson Agricultural Fairs and Spring Sales, North Battleford, but Ralph prefers to build the herd up to its highest standard before entering them on the A or B Circuits.

The females are mostly of the Browndale Missie 6th strain from the Willowbank Farms, Caledonia, owned by James Douglas and Sons. Among some of the better known herd sires owned by Ralph Elliott are:

Mayflower's Filot —249483— bred by A. G. Drew, of Radisson, Saskatchewan.

Clipper Danny 2nd —231656— sired by Danny Boy —211085—(250229) Imp., bred by Claude Gallinger, of Tofield, Alberta.

Templars Leader —262031— sired by Larbert Templar —229853—(283832) Imp.

Killearn Monarch 47th —2709 Claude Gallinger, Tofield, Alberta. -270970- bred by

Present Herd Sire, Killearn Norseman 10th, bred by Claude Gallinger, Tofield, Alberta.

Young stock for sale at Elldem Farms in season.

Within the past year Roy Elliott has taken over the Massey-Harris Farm Implement agency at Borden, Saskatchewan, leaving Ralph as manager of the farm.

RADISSON - SASKATCHEWAN

Ralph Elliott is President of the Radisson and District Agricultural Society, Chairman of the Agricultural Improvement Committee of The R.M. of Great Bend No. 405 and is Leader of the Borden Baby Beef Club, which consists of around 20 members. A Borden team will be representing Saskatchewan at Toronto during The Toronto Royal in November. The main idea of the club is to build up interest among the younger members of the community in better breeding stock, having an immense value in teaching the younger members in proper feeding and care of livestock. Ralph Elliott is a member of The Canadian and Saskatchewan Shorthorn Breeders' Club taking an active interest in all work connected with the breeding of better livestock.

Population: 377.

A P.O. and Incorporated Village in S 19 Twp 28 R 18 W2nd, in Lake Centre Dom. Elec. Dist., Last Mountain Prov. Elec. Dist., Humboldt Land Reg. Dist. and Wynyard Jud. Dist., Mun. No. 278 on the C.N.R. 82 miles West of Melville and 75 miles North of Regina by motor road, from Regina Junction 6 and 15 Highways. Has C.N. Telegraph and Express, Saskatchewan Govt. local and lnog distance telephones. Good public and high schools. There is an excellent cindercrete block Curling and Skating rink 36x160 (2 sheets of curling ice) open air skating rink. The Community Hall and Theatre are combined, with pictures shown twice a week. The Saskatchewan Power Service provides 24-hour service. Town wells provide adequate water for the village. Has Anglican, United and R.C. Churches and Gospel Mission. Excellent hotel, three grain elevators, five up-to-date farm implement agencies and garages, lumber yard, hardware store, drug store, several general stores and many other places of business which meet the needs of a large farming district.

RESOURCES: Wheat, with some mixed farming.

FUR RANCHERS: EDWARD WHITLOCK, located four miles Southwest of Raymore, Saskatchewan, is building up a sizeable herd of Platinum and Standard Foxes as well as Standard, Silverblu and Mutation Mink. His ranch is equipped with modern, up-to-date pens. From 100 to 150 pups are averaged yearly, with the best stock being kept for breeding purposes.

#### Population 350

Population 350

A P.O. and Incorporated Village in S. 13, Twp. 7, R. 32, W. 1st, in Moose Mountain Dom. Elec Dist., Cannington Prov. Elec Dist., Arcola Land Reg. and Jud. Dists., Mun. No. 61, on the C.P.R., 38 miles east of Arcola which is the Judicial Centre and 28 miles east of Carlyle, the station stop for Kenosee and Carlyle Lakes. Redvers has Greyhound Transcontinental bus service, Regina-Brandon, C.P. telegraph and express, Saskatchewan Government local and long distance telephones, United and Roman Catholic Churches. Redvers Union Hospital (18 bed) fully modern with latest X-ray and surgical equipment, also nurses' residence, fully modern. Educational facilities are of the best with Public and High School Curriculum. A new curling and skating rink has recently been completed, regulation size (2 sheets of ice). There is a Legion Hall and good sized Community Hall which is used for dances, shows and public is a Legion Hall and good sized Community Hall which is used for dances, shows and public meetings. There are three elevators handling approximately 470,000 bushels of grain annually. There is an excellent hotel with cafe and dining room in connection, three garages, seven farm implement agencies, three general stores, lumber yard, cafe and ready-to-wear shop, two hardware stores, locker plant, drug and jewellery store, beauty parlour, electrical shop, resident doctor, and Bombardier service is always available for hospital use. The Canadian Bank of Commerce maintains a branch at this point. Redvers is situated on the Junction of No. 8 and 18 highways (fully gravelled). 13 highways (fully gravelled).

The pioneer settlers in this district were mostly from Eastern Canada, with a large Danish settlement a few miles south. The C.P.R. steel was completed to this point in 1902 and the village was Incorporated the same year.

Redvers is located near the Pipestone Valley on No. 8 Highway, which winds through this beautiful valley 40 miles north to Moosomin.

The soil in this district is a chocolate loam and is an excellent mixed farming area. Many of the farmers are building up herds of Registered cattle and considerable livestock is shipped from this point. The Saskatchewan Power Corporation provides electrical service for the village and district (24 hours daily). Redvers is 41 miles north of the American Boundary and many tourists pass through here on their way to the northern lakes.

EDVERS & DISTRICT AGRICULTURAL SOCIETY: Leonard Marks, Secretary.
An annual Agricultural Fair is held at the REDVERS

end of July.

DANA SHORTHORN FARM: Located seven miles north of Redvers is owned and operated by Nels Nielsen, Breeder of Registered Shorthorn Cattle.

Nels Nielsen's boyhood was spent in Zealand, Denmark. He became interested in Canada through Ross Madsen who made a trip to Denmark around 1927, his glowing accounts of opportunities of advancement on the Western Frairies were one of the main factors in his decision to leave his home land and settle in Canada. Naturally Wauchope became his destination. The depression years which followed caused tion. The depression years which followed caused him little dismay, as the aftermath of war left little to look forward to in Denmark.

little to look forward to in Denmark.

In 1936 Mr. Nielsen purchased the Richard McComb Farm and 30 head of Registered Shorthorns, which gave him an excellent foundation stock as Mr. McComb imported the first polled Shorthorns in 1923 ever shipped to Canada. The McComb farm consisted of one-half section and additional acreage has since been added making a total of 960 acres. 550 under cultivation, wheat and coarse grain with around 30 acres of Brome Grass, Crested Wheat and Alfalfa. 300 acres are in pasture lands. The barn accommodates 60 head of cattle. Power farm machinery modates 60 head of cattle. Power farm machinery is used for all farm work, but being a lover of horses Mr. Nielsen keeps 15 Percherons, just to

have them around in case of need. His Shorthorn herd now numbers around 45 head. The herd has only been shown locally, but he has had the Champion female whenever the herd has been shown and won the grand aggregate, 1948, Redvers Agricultural Fair for Beef Cattle on scoring greatest number of points. Later he hopes to enter the herd on the A and B Circuits.

Among well-known herd sires owned at Dana Shorthorn Farm are Collynie Stamp X —218836—bred by Albert Hultine & Sons of the Hultine Shorthorn Ranch in Nebraska and which Mr. Nielsen considers the best Sire he has ever had on the place.

Shirley Cadet —274669— bred by Sydney K. Barry, of Lashburn, Saskatchewan.

Present Herd Sire: Revalanta Sort —308231—bred by H. F. Washington, of Ninga, Manitoba. Nels Nielsen is a member of the Shorthorn Breeders' Club, has served as Councillor for

the R.M. of Antler No. 61 and is at present Secretary of the Anandale School District, taking an active interest in all work pertaining to the breeding of better livestock.

#### FEED & SEED CLEANING PLANTS

Ole Dangstrop, of Redvers, Saskatchewan, has completed the construction of a new Seed Cleaning and Feed Plant.

The object of the Redvers Seed and Feed Plant is to promote an interest in the growing and marketing of better seed grains and grasses.

A young farmer's Grain Club has been formed with the idea of creating an enthusiastic interest in the growing of Registered Seeds.

The young farmers of the District are giving their wholehearted support to the plan and Mr. Dangstrop feels a Community Seed Plant will help considerably in making the venture a success.

#### REGINA BEACH, SASK.

Population 300, Summer Residents 2,000

A P.O. and Incorporated Village and Summer Resort in S. 21-22, Twp. 21, R. 22, W. 2nd, in Lake Centre Dom. Elec. Dist., Lumsden Prov. Elec. Dist., Regina Land Reg. and Jud. Dists., on the C.P.R. 42 miles northwest of Regina. Has C.P. telegraph and express, Saskatchewan Govt local and long distance telephones.

Regina Beach is one of Saskatchewan's popular summer resorts and has the finest beach and 18-hole golf course in southern Saskatchewan. There are United, Anglican and Roman Catholic Churches, good public and high schools. The Community Library is under the auspices of the Arts and Crafts. Natural springs supply clear, sparkling water which is tapped for summer residents. The summer population numbers around 2,000, cottages and cabins are privately owned, but comfortable cottages are available for rent. Many reservations are booked in advance.

There are five cafes, three general stores, hardware, novelty shops, garages and an excellent hotel which meet the needs of the summer visitors and resident population.

Winter sports include tobogganing, curling and ice skating. Standard sized curling rink (two sheets of ice) with open air skating rink. R.C.M.P. detachment is in residence during the summer months.

Regina Beach is on Highway No. 54 connecting with No. 11, black top from the United States border to the beach. There are good sandy beaches, private boat livery and yachting club. The stores are well stocked with supplies for fishermen. Two excellent dance pavilions provide entertainment during the summer months.

A P.O. and Hamlet in Qu'Appelle Dom. Elec. Dist., Milestone Prov. Elec. Dist., Regina Land Reg. & Jud. Dists., Mun. No. 128 on the C.N.R. 29 miles southeast of Regina. Has C.N. Telegraph and Express, Saskatchewan Government local and long distance telephones, United, Lutheran and Roman Catholic Churches, good public and high schools. There are four elevators handling approximately 650,000 bushels of grain annually. Three farm implement agencies, two garages, confectionery and pool hall. The Riceton Coperative Association Ltd. has a general store as well as gas, oils and implements. A new community hall and curling rink has been completed which provides recreation for the district, dances, munity hall and curling rink has been completed which provides recreation for the district, dances, picture shows and all public functions are held in the community hall, while three sheets of ice are available during bonspiel, one sheet of ice is reserved for skating. As the townsite was located on the homestead of James Rice the name Riceton came in to popular use and the Post Office retained the name. The C.N.R. steel was completed to this point in 1912. Pioneer settlers of this district were mostly from Ontario and the mid-western States.

The Riceton Credit Union handles most of the finances for the hamlet. Regina is the nearest banking and shopping centre.

RESOURCES: Riceton is considered one of the finest wheat growing districts in the Province. The soil is a heavy Regina gumbo and the average yield is 30 bushels to the acre. Seasons of heavy rainfall brings the average up to around 50 bushels. All farm work is done with rower farm machine. with power farm machinery.

LA PRAIRIE SEED FARM: Located four miles south of Lajord and 15 miles northeast of Riceton, is owned and operated by Jerome Bechard, grower of Registered Cereal Grains and breeder of Registered Herefords.

Jerome Bechard has been a resident of the Lajord District all his life. His school days were spent in Montmartre and later he attended Gravelbourg College. His father, the late Exupere Bechard was one of the pioneer settlers of this district. His first visit to the western prairies was district. His first visit to the western prairies was in 1905 spending the summer with an uncle. Camille Coupal, who farmed at Lebret. In 1906 he filed on a homestead and pre-emption claim which gave him 320 acres. He returned to his home in St. Jacques de Mineur, Quebec, and made arrangements to ship out equipment and supplies, as well as eight horses which he brought from Montreal, breaking the land and building his first home took considerable time, but the pioneer spirit prevailed and eventually crops of wheat and coarse grain were being harvested, a good grade herd of cattle was purchased numbering around 20 head. In 1908 he married. The next few years brought five sons to increase the little family, three are still living, i.e.: Jerome, who has taken over complete management of the who has taken over complete management of the farm; Dr. Jean Benoit Bechard, now a physician and surgeon in Valleyfield, Quebec, and the Rev. Fr. Paul Bechard, whose parish is at Bellegarde, Saskatchewan.

As the years passed and the family grew, additional acreage was purchased. The Bechard holdings now consist of 3,480 acres. 3,380 under cultivation, with one hundred acres in pasture land. Thatcher Wheat is grown exclusively.

A new shelter belt was planted about four years ago consisting of 1,050 Green and Blue Colorado Spruce, Ash and Elm with honeysuckle hedges are used to supplement the spruce. Two dugouts supply abundant water for the herd and a filtered dugout supplies excellent water for the a nitered dugout supplies excellent water for the house. The dwelling is comfortable and fully modern, consisting of 14 rooms with two baths. Enclosed verandahs on the south and west while the north verandah is screened. A pressure water system with underground plumbing has been installed, which is rather a new innovation in country homes as they are thereby provided with the some kerging of callities are the same beginning for all the same kerginning for all the same kergi in country homes as they are thereby provided with the same hygienic facilities as those used in urban centres. A 15,000 watt Diesel (AC) plant heats the house as well as supplying electricity for the dwellings and barns. A three-tower standard light on the grounds burns 24 hours a day. There are pleasant accommodations for the farm overseer and his wife who provide meals and rooms for the farm staff.

Well kept lawns with a profusion of peonies, rambler and yellow roses, bleeding hearts and honeysuckle help to make LaPrairie Seed Farm one of the show places of the district. The orchard consist of apples and hardy plums, while raspberries and gooseberries, as well as large

beds of strawberries provide a variety of fresh fruit during the summer months.

Recently completed is the two-storey cinder-crete, fully modern machine shop which enables the Bechards to repair all farm machinery without loss of time, as power farm machinery is used extensively. Push dozers and scrapers are used to improve the farm, levelling off the high spots and filling up sloughs etcetra.

Jerome Bechard has been a grower of Registered Cereal Grains since 1936. Crops are rotated each year and only first and second generation seed is used on the farm, he has confined himself to the growing of Commercial Registration Seed, but is also extremely interested in the growing of Elite Stock.

The Bechard Registered Herefords now number around 14 head, and are fast becoming tegral part of the farm, started as a hobby in 1940 when he purchased a Herd Sire and Foundation Stock from J. S. Palmer, of Marsden, Saskatchewan, he has gradually built up the herd and is concentrating his efforts on quality breeding. They have been shown at the Regina Stock Show. The Herd Sire is Excel-Domino 57th, -152688-

Jerome Bechard has had complete management of the farm for the past 20 years. His father died in 1950 at the age of 82 years and his mother in November of the same year.

He is a member of The Canadian Seed Growers Association and The Canadian Hereford Breeders' Association, also a Director of The Riceton Co-Operative Association Ltd., taking an active interest in all work connected with the betterment of agriculture and especially in the community in which he lives.

RIVERHURST HEREFORD FARM: Located two miles southeast of Riverhurst is owned and operated by W. J. Jackson, well-known Breeder of Registered Herefords.

W. J. Jackson is comparatively new in the field of Registered Breeders, but nevertheless the herd has turned in a commendable record. High honours being awarded the herd on both the A and B circuits.

W. J. Jackson has been a resident of the River-hurst District since 1906, having homesteaded here in 1908, formerly of Wellington County, Ontario, Mr. Jackson took advantage of the opening up of new lands in the west to visit Saskatchewan and pleased with the progress being made decided to make his home on the western prairies.

The Jackson home is one of the finest in the district. The dwelling is fully modern, while the grounds with their well kept hedges of lilacs, honeysuckle and carragana make this one of the show places of Riverhurst.

Raspberries are plentiful, strawberries are grown for home use while the vegetable garden would delight any one interested in horticulture.

Poplars, elms and maple form a shelter belt which surrounds the place. The barns are roomy and provide ample shelter for the herd as well as loft room for winter hay. Springs in the pasture supply an abundance of clear, sparkling water. The farm consists of 1,760 acres. 1,200 acres under cultivation (wheat, coarse grains and flax) 500 acres are seeded in Brome Grass and Creeted Wheat. Crested Wheat.

In 1943 the Jacksons purchased a foundation herd of Registered Herefords, since that time the herd of Registered Herefords, since that time the herd has been gradually increased, with quality breeding as the main objective, purchases have been made from such well-known breeders as W. N. Catley & Sons, of Craven; Alex. A. Mitchell, Battle River Ranch, Lloydminster; J. S. Palmer & Sons, of Marsden, Saskatchewan. Royal Champa—151657—Sired by Royal Domino 9th—119220— a son of W H R Princeps Domino—35021—Imp, is from the Wyoming Hereford Ranch, U.S.A. Ranch, U.S.A.

W. J. Jackson is a member of The Canadian and Saskatchewan Hereford Breeders' Association taking an active interest in building his herd up to equal any competitors in the province.

Population: 465.

A P.O. in S. 21, T. 16, R. 31, W. 1st in Qu'Appelle Dom. Elec. Dist., Moosomin Prov. Elec., Land Reg. and Jud. Dists., Mun. No. 151, on the C P R 18 miles southeast of Tantallon and 18 miles north of Moosomin by motor. Has C.P. telegraph and express, Northfield Rural local and Sask. Govt. long distance telephones. Anglican, Roman Catholic, Pentecostal Mission and United Churches, good public and high schools, four elevators, five garages and several good general stores which meet the needs of the community. The Bank of Toronto maintains a branch at this point. Rocanville dates back to the year 1902 when the C.P.R. tracks were laid the first stores being built in that year by Samuel Schwanz and Alex Cameron, E. H. Plummer arrived in 1903 and was the first painter and decorator.

Incorporated as a village in 1904, with Arthur Henry Rocan de Bastian being elected as Overseer, from whom the village derives its name. Previous to settling in this district Arthur Henry Rocan de Bastian had been a Hudson Bay Factor moving here in 1888 to farm three miles northexest of the present village of Rocanville. He built the first post office in 1904 and was the first Postmaster, also the Justice of the Peace.

The early settlers were for the most part of British descent. Located seven miles south of the Qu'Appelle river, this district has never known a crop failure. The soil is of black loam with a clay sub-soil and has been found particularly adaptable to the growing of wheat, barley, oats and rye. A great deal of livestock is shipped yearly from this point, 120 cars having been shipped in 1948.

The citizens of the village are justly proud of their well kept public buildings and dwellings. Many retired people have found this a pleasant spot to make their homes.

VILLAGE OVERSEER: W. L. Hewgill.

VILLAGE SEC'Y-TREAS .: D. J. Gibson.

## SYMONS' METALWORKERS

Manufacturers of the Popular SYMONS' OILERS

Head Office: ROCANVILLE, SASKATCHEWAN

## SYMONS' OILERS

For Any Purpose Requiring Hand Oiling

SYMONS' OILERS are well and favorably known across Canada, with upward of 300,000

in use. Thousands are used on both Oceans, and all the way between they are standard equipment in the Army, Navy, R.C.A.F., Merchant Navy, Industry and Agriculture. Shipments have been made to Cape Town, South Africa; Trinidad; Venezuela, South America, and to Newfoundland for export. Previous quality is being strictly maintained.

OUR CREAM SEPARATOR rebuilding and retinning service covers the Prairies, from Manitoba to the End of Steel in the Peace River country, and is wide and favorably known, with many customers sending from British Columbia, and increasing business from Eastern Canada and the Maritimes.

SYMONS' STEEL FEED AUGURS for Grain Grinders make your old machine perform better than many new ones, save time, fuel and labor, and help make life worth living.

A FULLY EQUIPPED WELDING AND MACHINE SHOP makes a complete repair service possible, including most of the "impossibles", which many of our customers can verify. Equipment consists of: Oxy-Acetylene and Electric Arc welding units; five Lathes; Drilling and Milling machines; 16-inch Shaper; 10-ton Arbor Press; Grinders, including portable and high speed precision; Left-hand Taps, and nearly everything in Threading, Reaming, and Small tools. We specialize in the small and delicate jobs, and difficult welding.

steaded in this community in 1890, as the years passed additional acreage was added to the homestead and today Barish Stock Farm is recognized as one of the finest in Eastern Saskatchewan having an acreage of 1,600, yielding record crops of Registered Regent Wheat, Cereal grain and specializing in Registered Brome Grass for Seed.

In 1918 the Barish Brothers became interested in the breeding of Purebred Aberdeen Angus Cattle and started a foundation herd with Herd Sire "Balminator", sired by Edward of Glencarnock, purchased from J. D. McGregor, of Glencarnock Farms, Brandon, Manitoba.

Edward, of Glencarnock sired by "Evereaux of Harvestown", was Scottish bred and grand champion winner in Scotland, also taking the grand championship at all Class A Fairs across Canada. The herd today consists of 30 head.

Pure bred Shropshire Sheep are now being raised at the Barish Farms, the flock numbering around 70 head.

Samuel Barish is a member of both The Canadian and Saskatchewan Aberdeen Angus Breeders' Association.

#### GRAVELBOURG, SASK.

Population 1,400.

A P.O. and Incorporated Town in S. 1, Twp. 11, R. 5, W. 3rd, in Wood Mountain Dom. Elec. Dist., Gravelbourg Prov. Elec. Dist., Moose Jaw Land Reg. and Jud. Dists., Mun. No. 104, on the C.N.R. 137 miles Southwest of Moose Jaw by motor road, Highway No. 43. Has C.N. telegraph and express, Saskatchewan Govt. local and long distance telephones, R.C. and United churches, good public and high school. Thevenet College is a residential and day schools for girls. LeCollege Catholique de Gravelbourg, provides a college course covering both French and English for young men. The Kindergarten of Notre Dame du Rosaire is a residential and day school for boys (ages 5 to 13). St. Joseph's Hospital, under the direction of The Grey Nuns, Montreal, Quebec, is considered one of the best equipped hospitals in the province. The federal government experimental station is seven miles West of Gravelbourg.

There are eight elevators handling approximately 1,000,000 bushels of grain annually. Two excellent hotels, five garages, six farm implement agencies, two lumber yards, one general store, four groceries, locker plant, one ladies' wear, two men's wear, shoe store, variety store, two hardware stores, bakery, flour mill, dry cleaning establishment, two drug stores, machine shop, magneto and motor shop, radio and electric., six cafes, two beauty parlours, three barber shops and many other business places which meet the needs of this thriving community. A weekly newspaper, The Gravelbourg Star, published by S. M. Bonneau, and The Prairie Optomist News, published by The Model Publications, pive a complete news service to the community, Resident doctors and two dental surgeons as well as two established law firms provide professional services for the town. The Bank of Toronto maintains a branch at this point. An up-to-date

theatre and a full sized curling rink (2 sheets of ice) with enclosed skating rink in connection as well as two outdoor skating rinks, sponsored respectively by the Lions Club and the Gravelbourg College, and a nine-hole golf course provide recreation for the townspeople.

The town of Gravelbourg has a modern water and sewage system, twenty-four hour electric light service operated by The Saskatchewan Power Commission, modern, up-to-date fire equipment purchased within the past year, the equipment includes a five-hundred gallon tank, power pressure booster pump with fog equipment, enabling the fire fighters to project water at the rate of five hundred gallons a minute. The main streets of the town have cement walks, while the motor roads are well gravelled. The Saskatchewan Bus Transportation gives daily service from Moose Jaw. A detachment of the R.C.M.P. police the town and district.

The town of Gravelbourg was named in honour of Father Pierre Gravel, a missionary priest who visited this part of the country in 1906. He was sent on this mission by Archbishop Langevin of St. Boniface, Manitoba, with the purpose of establishing a French-Canadian community. The majority of the pioneer settlers were from Quebec.

In 1917 Rev. Father Charles Maillard was chosen to carry on the work at Gravelbourg, Being one of Canada's greatest artists his paintings have made the Cathedral at Gravelbourg famous. Few churches of Eastern Canada can show such rare and beautiful interior decorations. As a tribute to his zealous labour in the newly established centres of the West, Rome honoured him in 1929 with the title of Msgr. Charles Maillard, D.P.

Gravelbourg is rapidly becoming known as a centre of learning and art. In religion it has catholic parish between Winnipeg and the coast. Its college, which provides a classical French training, and the seminary for girls are almost unique West of the Great Lakes. The Gravel-

THE MODEL PUBLICATIONS. The Model Print Shop is the home of the Model Publications—thirteen weekly papers serving Southern Saskatchewan. These papers, all printed at Moose Jaw, are distributed through local offices and through the mail to the districts they serve. They are Bona Fide weekly papers, members of the Saskatchewan Division of the C.W.N.A.

At the Model Print Shop is also located the main office of Radio and Press Publicity, publishers of the magazine: "Our Way of Life", and sponsors of a weekly radio broadcast against communism and radical socialism. Pamphlets and leaflets totalling over half a million are distributed annually through this office. Other publications with which the Model Print Shop is affiliated are The Prairie Examiner and National Digest.

LE MONASTERE DES SOEURS ADORATRICES DU PRECIEUX SANG (THE MONASTERY OF THE PRECIOUS BLOOD), Gravelbourg, Saskatchewan, is a cloistered order conducted by The Sisters-Adorers of The Precious Blood, founded by Mother Catherine Aurelia at St. Hyacinthe, Quebec, Sept. 14, 1861. There are now 32 monasteries throughout Canada and the United States. Previous to 1949 a monastery was conducted in Shien Sien, Hopeh, China, this house has been temporarily closed and several of the sisters are at present making their home at the Gravelbourg Monastery. The Japanese Monastery at KajoShima, Japan, have eight Canadian and American Sisters with seven Blood Monastery at Rome, Italy, and Havana, Cuba.

The first house in Saskatchewan was opened at Prince Albert, in 1923; Gravelbourg, 1923, and Regina, Dec. 8, 1933.

LE COLLEGE CATHOLIQUE DE GRAVEL-BOURG is a Catholic College for young men conducted by The Oblates of Mary Immacula'c. Incorporated by the Legislature of the Province of Saskatchewan, Dec. 15, 1917—(2nd Session, Chap. 75).

Chap. 75).

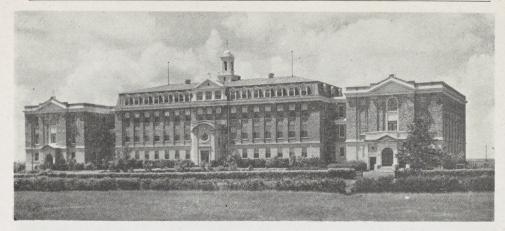

Le College Catholique de Gravelbourg provides a complete course where students may obtain a liberal education in the arts and sciences, and promote the study, practice and knowledge of such arts and sciences, and for such purposes formulates courses of study and rules of discipline for the students and provides for the delivery of lectures and the holding of exhibitions, classes and conferences calculated directly or indirectly to advance the cause of education whether general, professional or technical. Awards and certificates and diplomas for merit and efficiency and appoints such professors, associate professors, lecturers, instructors and other, officers necessary to maintain the college

at a high standard.

The order of The Oblate Fathers was founded in Aix, France, near Marseille by Bishop de Mazenod, 1818, with the purposes of conducting missions in France and abroad. The primary aim of the order was to further the general education of young men. The order was founded shortly after the French Revolution and from the beginning especial attention was given to the studies of journalism and writing, to counteract the false impressions given by the current literature of that time

literature of that time.

At the present time after a century and a quarter have elapsed since its incipiency, the order has now spread all over the world and 350 publications are published in 52 different languages.

#### THEVENET COLLEGE

Under the direction of The Sisters of Jesus-Mary Gravelbourg, Saskatchewan

"The hope of the future lies in a religious education for the youth of our country." RESIDENTIAL SCHOOL FOR GIRLS

Day School for Girls and Boys

SCHOOL COURSE: GRADES 1 TO 12 INCLUSIVE Following the Programme of Study of the Saskatchewan Department of Education Complete College Course leading to Bachelor of Arts Degree Pupils prepared for all the examinations of The Toronto Conservatory of Music AFFILIATED WITH THE UNIVERSITY OF OTTAWA

FOR PROSPECTUS APPLY TO THE REV. MOTHER SUPERIOR

In 1842 the Oblate Fathers opened their first house in Canada and in 1848 the first college was completed in Ottawa which in 1866 was Incorporated as the University of Ottawa. The enrollment of the Ottawa University now consists of 8,000 students. The course of study covers all branches of learning including medicine law journalism statesmapship and including medicine, law, journalism, statesmanship, engineering, etcetra.

During the year 1851 a decision was made to further enlarge the field and the same educa-tional work was put into effect in the United States. The Oblate Fathers now have established

colleges and schools in the Eastern, Southern and Southwestern States.

The first Educational Centre of this order was opened in Saskatchewan, at Gravelbourg in 1917, at that time from 50 to 60 students were opened in Saskatchewan, at Gravelbourg in 1917, at that time from 50 to 60 students were enrolled, during the depression years attendance was at a low ebb, but with more prosperous years the enrollment increased and in 1948 additional buildings were constructed to accommodate the large increase in students which now number 233. Other schools conducted by the Oblate Fathers in Saskatchewan are located at Battleford and Lebret.

Plans for a new Technical School at Gravelbourg have been completed and the work will be started in the early spring of 1950.

The personnel of the staff are unanimously in favour of the development of sports as an essential part of the education of youth.

Gravelbourg is justly proud of the College Band which consists of 27 instruments, under competent supervision, piano, violin and voice are given a prominent place in the curriculum. Le College Catholique de Gravelbourg has been instituted and exists for the French speaking population of Saskatchewan and is the only Bilingual college in the Province where French and English are given unbiased consideration.

THEVENET COLLEGE, Gravelbourg .- Gravelbourg's most imposing edifice, a Boarding School bourg's most imposing editice, a boarding School erected by the Sisters of Jesus and Mary, houses the Public School of the town and affords accommodation to girls from various parts of the Province who wish to benefit by the educational advantages the Institution offers. Founded in 1917 the Academy commonly called THE CONVENT has been a vital factor, in the development and progress of the town. By the addition of two spacious wings in 1927, this splendid building, now 300 feet in length, lodges close to 400 students. Among its many interesting features it possesses a gem of a Chapel—of Corinthian architecture—and a collection of rare all maintainers worthy of a museum old paintings worthy of a museum.

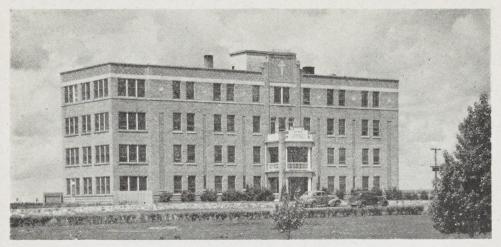

Twelve regular class rooms, a home economics department and recreation halls are rented by the school board for the youth of the town. A four-roomed high school operating under the efficient direction of a staff of university graduates, gives, over and above the course prescribed by the Department of Education, complete instruction in the French language, with the aim of turning out bi-lingual students able to secure top-notch positions, thanks to their knowledge of the two official languages of Canada. Canada.

Exceptional musical opportunities are offered pupils desirous of training either in vocal or instrumental music, the courses leading to examinations set by the Conservatory of Toronto. The school children of all the grades, by participating in the various competitions of the annual festivals, are given excellent training and musical culture. Dramatics too receive great attention and the school has already carried away the prizes in the Provincial Finals.

Affiliation with the University of Ottawa enables students to pursue their studies three years beyond Grade XII and obtain their Bachelor's degree in their own home town."

Visitors viewing for the first time this vast structure rising abruptly from the plain are struck with admiration and pay spontaneous homage to the mind that planned and built it, the Reverend Mother Saint Emiliana, a native of Prince Edward Island, and one of the most distinguished members of the Congregation of Jesus and Mary. Jesus and Mary.

Gravelbourg Convent stems from the Provincial House of the Order in Canada, which, in turn was established by French Nuns from Lyons. Since 1895 the Mother House of the Congregation has been in Rome.

## ST. JOSEPH'S HOSPITAL

UNDER THE DIRECTION OF THE GREY NUNS, Montreal, Quebec. Sister Alice Gauthier (R.N.) Superior

HOSPITAL

EQUIPPED WITH LATEST X-RAY AND OPERATING EQUIPMENT

ALL FACILITIES FOR LABORATORY DIAGNOSIS AND TREATMENTS

TE NURSES

EFFICIENT MEDICAL AND SURGICAL STAFF 50-BED HOSPITAL

GRADUATE NURSES

Gravelbourg, Saskatchewan

In a little more than a century this Order In a little more than a century this Order penetrated into India, England, Ireland, Spain, Italy, Germany, Switzerland, North America, South America, Cuba. Its works are strictly educational: orphanages, parochial schools, boarding schools. night schools, Normal schools and colleges. It counts six Provinces embracing 70 establishments with 1,500 Sisters directing some 25,000 pupils. 25,000 pupils.

ST. JOSEPH'S HOSPITAL, GRAVELBOURG, SASKATCHEWAN, under the direction of The GREY NUNS, of Montreal, Quebec, (Sister Alice Gauthier (R.N.), Superior), is a fifty-bed hospital with fully modern surgery including the latest X-ray and operating equipment. Graduate nurses and efficient medical and surgical staff and efficient medical and surgical staff, Dr. J. A. Soucy, Gravelbourg, Dr. W. T. Sheer, Gravelbourg, and Dr. M. Minuck, of LaFleche, have made this hospital one of the finest in the Province

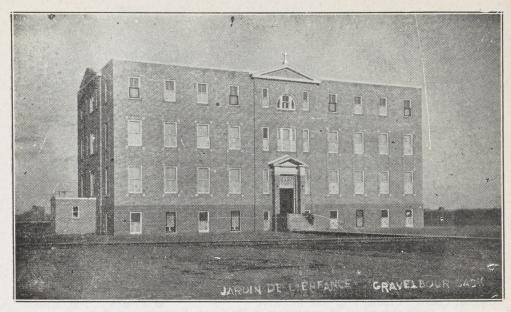

The GREY NUNS belong to a religious congregation founded at Montreal, Quebec, in 1738 by Madam d'Youville, a young widow of gentle birth and the first Canadian woman to found an birth and the first Canadian woman to found an order on this continent. She established a refuge known as "L'Hospital General de Montreal" for the poor and outcast of every description, moreover the Grey Nuns supported the poor people by their own industries, such as sewing, gardening and candle making. They kept a farm and a lime kiln and even like St. Paul engaged in making tents. In 1843 Pioneers and Mission Settlements of the Red River Valley were sadly in need of such services as these gallant Sisters could render. The Bishop visited the mother house in Montreal explaining the situation at Red River, promising not to let them starve, they begged for three Grey Nuns to teach school, care for the sick, to sew, spin, weave, cook and sing. for the sick, to sew, spin, weave, cook and sing. for the sick, to sew, spin, weave, cook and sing. Four volunteers were elected and the trip was made in two canoes belonging to The Hudson's Bay Company, a gentleman of the Company travelled with them. The trip took 59 days and like all pioneer trips they had to surmount many difficulties, shooting the rapids terrified the Sisters, swarms of mosquitoes made their days and nights unpleasant, there were 78 portages to make which meant carrying their pack sacks overland from river to river. They reached St. Boniface on June 21st, 1844. Although the Sisters first concern was teaching, recurrent epidemics

necessitated the closing of schools and the Grey Nuns ministered to the sick and dying through-out the land. There was no hospital in the beginning and the Sisters visited the sick in their homes, travelling by Red River Cart. The record homes, traveling by Red River Cart. The record for the first ten years gives a report of 6,000 visits made to the sick in their homes since their arrival at St. Boniface. The Grey Nuns introduced health hygiene by educating the natives to take baths and to keep themselves and their homes as clean as could be expected at that period. Medicines were difficult to obtain, but nearly every plant that grew on the Prairie had a special wirter wild min golden red gentian. special virtue. Wild mint, golden rod, gentian, plantain, blood root, pumpkin seeds, rose berries, wild strawberries, corn tassels, rhubarb, dandespruce sap and many others. These were made into poultices, ointments and tasty concoctions, each for a specific ailment. The first hospital was opened at St. Boniface in 1847. It is the present Provincial House.

In 1870 the country passed out of the hands of The Hudson's Bay Company and became a part of The Dominion of Canada, receiving the name "Manitoba". The white population was rapidly increasing. The Grey Nuns found it necessary to set a house aside for the exclusive care of the sick, it accommodated four patients only. But that first hospital was destined to become the St. Boniface Hospital of today.

Time brought many changes, more railways were built, bringing more people, booms were followed by hard times. In 1893 a new wing was added giving a total bed capacity of 125, two operating rooms, a dressing room and sterilizing room. In 1894 the first resident Intern came. In 1897 the first resident school for nurses was established. The institution simply mushroomed under the pressure of providing more beds and all the modern equipment for the treatment of patients. The hospital at St. Boniface now accommodates between 550 and 575 patients, this does not include the Sanatorium which accommodates 300. There are 3,000 meals served daily in the hospital from the main kitchen.

The GREY NUNS have now established hospitals throughout the North American Continent. Saskatchewan has four well equipped hospitals in operation, Regina, Saskatoon, Gravelbourg and Biggar.

## KINDERGARTEN OF NOTRE DAME DI ROSAIRE

Gravelbourg, Saskatchewan

A RESIDENTIAL AND DAY SCHOOL FOR BOYS

Conducted by The Oblate Sisters, St. Boniface, Manitoba.

SCHOOL COURSE: PRIMARY SCHOOL TO EIGHTH GRADE PREPARATORY TO COLLEGE COURSE

• MANUEL TRAINING FRENCH ENGLISH MUSIC ENROLLMENT AGE: FIVE TO THIRTEEN YEARS

For Prospectus apply to Sister Superior

NOTRE DAME KINDERGARTEN OF Saskatchewan, is DU ROSAIRE, Gravelbourg, Saskatchewan conducted by The Missionary Oblate Sisters. course of study consists of primary school to grade eight, preparatory to college entrance. Students are entered from five to thirteen years. This is a residential and day school for

boys.

The Order of The Oblate Sisters was founded at St. Bonifiace, Man., in 1904 by Bishop Adelard Lengevin. Teaching is the principal interest of The Oblate Sisters and students are given a preparatory course from Primary School to High School.

St. St. Charles Convent located at St. Charles, Manitoba, include the High School Course in their manitoba, include the high School Course in their curriculum. Missions are conducted by The Oblate Sisters at Lestock and St. Phillips, Sask.; Fort Alexander, Cross Lake and Camperville, Manitoba, and MacIntosh, Ontario. These missions and are all under government supervision.

The Kindergarten at Gravelourg was opened in 1917, as a subsidiary to Le College Catholique de Gravelbourg. In 1929 the present building was completed and the Kindergarten became an independent unit. At present there are fourteen sisters and the enrollment consists of 97 students. seventy residential and twenty-seven scholars.

The school is bi-lingual, French and English being given equal consideration.

OUR LADY OF THE SACRED HEART CON-VENT, under the direction of The Sisters of The Cross is located at Lafleche, Saskatchewan, 30 miles west of Assiniboia on the C.P.R. and 13 miles north of Gravelbourg by motor road.

The school is a residential school for girls

and a day school for girls and boys. The curand a day school for, girls and boys. The curriculum includes a complete course of study from primary school to grade twelve inclusive, preparatory for Normal school, college and the nursing profession. Music, French and English are given particular attention. One hundred and thirty scholars are enrolled at present, the average attendance for residential students is around 60.

The Order of The Sisters of The Cross was founded by Andre Hubert Fournet, parish priest.

The Order of The Sisters of The Cross was founded by Andre Hubert Fournet, parish priest of Maile, Diocese of Poitiers, France, and Jeanne Elizabeth Bichier de Ages, co-foundress, shortly after the French Revolution. The house at Maille became too small and in 1820 the young community established itself at La Puye in the Monastry of the Fontevristes, founded by Robert d'Arbissel in the Twelfth century and half ruined by the French Revolution.

Andre Hubert Fournet was a well educated young man and wishing to alleviate the suffering of the poorer classes founded the order with the idea of teaching the peasant children, caring for the aged and infirm, ministering to the sick for the aged and minim, immovering and as far as was in his power to lighten the burdens of those who were left homeless and destitute after the havor of war, which left ourdens or those who were left homeless and destitute after the havor of war, which left poverty and destruction in its wake. Obtaining the co-operation of several young girls of good family who were desirous of helping to create a better invironment for the victims of the revolution they started this order in a ruined castle at Maille. France at Maille, France.

Jeanne Elizabeth Bichier de Ages, was the

daughter of a French Nobleman and was one of the first girls to volunteer her services. As the Order grew she was selected as the first Superior of the Order. The Mother House is still located of the Order. The Mother House is still located at La Puye, France, which was opened in 1820. A novitiate was started for training girls who

Gravelbourg, Saskatchewan

Breeder of

REGISTERED SCOTCH SHORTHORN CATTLE

GRAVELBRAE SHORTHORN FARM

## Young Stock for Sale

Visitors are Invited to Inspect the Herd . . . Phone 21 r 6, Gravelbourg

GRAVELBRAE SHORTHORN FARM located four miles north of Gravelbourg, Saskatchewan, is owned and operated by Emile Beaudoin, well-known breeder of Registered Shorthorn Cattle.

France Beaudoin, Sr., was one of the pioneer settlers of the District, having filed on a homestead in 1906. Moving to this community from Alida, Saskatchewan. Oxen were used for breaking the land and horses made the long trips to Alida, Saskatchewan. Oxen were used for breaking the land and horses made the long trips to Mortlach, 55 miles north, the nearest trading centre at that time. In 1909 Emile Beaudoin having reached the age necessary to obtain his own homestead filed on land adjoining his father. The Beaudoins have always maintained a good grade herd of Shorthorn cattle, but during the depression years of the thirties his father sold the original homestead and retired from active farming, spending the later years of his life in Eastern Canada.

Emile Beaudoin following in the footsteps of his father continued with diversified farming, his father continued with diversified farming, growing wheat and coarse grain, he kept a sizable herd of good grade Shorthorns, Yorkshire Swine, Barred Rock chickens and from 20 to 30 head of horses, as well as several good milk cows. As the years passed and prosperous years returned to this part of Saskatchewan, additional acreage was purchased. Today Gravelbrae Farm consists of 800 acres, on Notakue Creek, Manitoba Maples along the banks provide excellent shelter for the herd. 685 acres are under cultivation wheat and coarse grains are the main crops tion, wheat and coarse grains are the main crops grown with around 40 acres of forage corn, the balance is in pasture lands.

Two barns provide shelter for 50 heattle, haysheds are used to house the head of cattle, haysheds are used to nouse the freed. Power farm machinery is used for all winter farm purposes.

Willows, ash and Manitoba Maples are used for windbreaks, an orchard of fruit trees re-cently planted gives promise of abundant fruit crops. There are carragana hedges surrounding the house and a large vegetable garden provides

fresh vegetables during the summer months.

In 1941 Emile Beaudoin became interested in the breeding of pure bred cattle, purchasing a foundation herd of Registered Shorthorns from John Brandt, of Edenwold, Saskatchewan, and E. A. James, of Semans, Saskatchewan. The herd has been gradually built up and now numbers around 50 head.

The first herd sire was purchased from the Burnside Stock Farm owned by Matthew Longmuir, of Grainland, Saskatchewan.

Other well-known herd sires purchased fr. Beaudoin were Pheasantdale Barr. Mr. Beaudoin were Pheasantdale Barrage -255061— bred by Lionel Stilborn, of Lemberg,

Fashion's Mercury -280564- purchased from John Currie, of Grainland, Sask.

Glenrossie Ransom Remembrance Glerrossie Kansom Remembrance —293638—, was purchased from the Glerrossie Farms, Melville, Saskatchewan, owned by David Wotherspoon. This animal was awarded high honours in open competition, Regina "A" Circuit, 1948, also awarded the Drewery's Special for best bred Saskatchewan bull, the same year.

The Beaudoin Shorthorns have not been shown extensively with the exception of local agricul-tural fairs, but Emil Beaudoin is contemplating tural fairs, the A and B Circuits, when conditions permit.

Regina Spring Sale, 1949, the Beaudoin Short-horns were awarded the Longmuir Trophy for group of three best bulls in class of three. Fifth, sixth and seventh prizes in open competition same age group.

Emile Beaudoin is a councillor, for the R.M. of Gravelbourg No. 104, a member of the Canadian and Saskatchewan Shorthorn Breeders' Club and a member of the Saskatchewan Livestock Breeders' Assn. In the Gravelbourg community he is a member of the Gravelbourg Agricultural Society, taking an active interest in all work connected with the breeding of better livestock.

## THE GRAVELBOURG CATHEDRAL

St. Philomena's Parish, Diocese of Gravelbourg, Bishop J. N. Lemieu, O.P. Rev. Fr. Arthur Moquin, Parish Priest

HOME OF THE MASTERPIECES PAINTED by Msgr. Charles A. Maillard

The Gravelbourg Cathedral is a monument of architectural art. Its construction dates from 1918-1919. This magnificent structure measures two hundred feet in length by eighty-five feet in width at the transepts and fifty-five feet at the nave. Its height is sixty-five feet for the principal frame and one hundred feet for the towers. The exterior, as well as the interior, is of Roman style with Italian renaissance. The architect was J. E. Fortin of Montreal.

The church structure is of steel and the building itself of cream coloured pressed brick. The two towers rise one hundred feet in the air and form the dome. The interior carries on the Roman style with Italian Renaissance. The lighting has a glowing beauty. Fifteen hundred The Gravelbourg Cathedral is a monument of

nomal style with trainin remassance. The light-ing has a glowing beauty. Fifteen hundred people can be seated in the body of this spacious cathedral. The section of the larger nave is lined by octagon pillars which rise in their immaculate whiteness up to the cornices, which support the vault of the pinnacle. The arches just out from the cornices are adorned with seraphs. The nave of the Sanctuary is divided into seven The nave of the Sanctuary is divided into seven sections, three on either side and the seventh in the centre where the main altar is placed. The seven sections form panels on which are painted Immense Tableaux. These are the masterpieces of Msgr. Charles Maillard. To him must be given

the credit for creating one of the most beautiful edifices in Canada. All who view this magnificent work with one accord acclaim it incomparable. work with one accord acclaim it incomparable. Born at Montreuil-sur-mer, a small village in the Pas-de-Calais division of France, near Arras, in 1873, he became a novice while still a very young man and along with his religion in those early years he followed assiduously the study of art, taking instructions from De Retz of Lille, one of the best known painters in France at that time. In 1896, Father Maillard was sent to Canada. He spent some time at St. Boniface, Manitoba. Later he became parish priest at Wolseley, Saskatchewan. In 1917 he took over his new duties as parish priest of Gravelbourg. At that time the small parish church was entirely inadequate to accommodate the expanding community, as it had been built a short time after the first settlers arrived. To provide a new church was the first major problem Father Maillard had to solve.

Today the Cathedral stands as a lasting tribute to his unfailing zeal and faithful adherence to an ideal.

At his death in 1939 the community lost not only a leader, but the world lost a truly great artist and builder. His work remains as an incentive to future generations.

ROSETOWN

SASKATCHEWAN 

#### ROSETOWN, SASK.

Population 2,050

An incorporated town in S. 12, Twp. 29, R. 15, W. 3rd, in Rosetown-Biggar Dom. Elec. Dist., Rosetown Prov. Elec. Dist., Saskatoon Land Reg. Dist., and Kerrobert Jud. Dist., Mun. No. 287, on the C.N. and C.P.R. railways, 87 miles Southwest of Saskatoon. Has C.N. and C.P. telegraph and express, Saskatchewan Govt. local and long distance telephones, United, Anglican, Presbyterian, Roman Catholic, Latter Day Saints churches and Pentecostal Mission. Excellent schools, public, composite high and St. Joseph's Convent, which is a residential and day school. The Saskatchewan Power Corporation gives 24-hour service. There are six elevators handling approximately 1,500,000 bushels of grain annually. Considerable livestock is shipped from this point. Rosetown, located in the Heart of the Wheat Belt, is mainly a wheat growing centre. There are 102 places of business, which include eight farm implement agencies, nine garages and service stations, two automotive wholesale branches. An incorporated town in S. 12, Twp. 29, R. 15, W. 3rd, in Rosetown-Biggar Dom. Elec. Dist., which include eight farm implement agencies, nine garages and service stations, two automotive wholesale branches, refrigeration wholesale and a modern electric and acetylene welding plant specializing in steel fabricating, contracting and sub-contracting work throughout the province. Well appointed stores and shops covering every line of business, carry complete lines of merchandise to meet the needs of this thriving community, which covers an age extending from the Seaketwhich covers an area extending from the Saskat chewan River on the South to Kerrobert and Biggar on the North, East to Outlook and West to Kindersley.

LOCATION AND TRAIN SERVICE

Rosetown is located 87 miles southwest of Saskatoon on the Goose Lake line of the C.N.R., which gives daily service, Saskatoon-Calgary (except Sundays). Rosetown is also located on the Moose Jaw-Macklin branch of the C.P.R., giving daily service (except Sunday). The Matador-Biggar branch of the C.P.R. has semi-weekly service. service.

BUS TRANSPORTATION

Daily service, Saskatoon-Kerrobert, Saskatoon-Kindersley, Saskatoon-Swift Current and Saskatoon-Eatonia via Elrose.

AIR SERVICE

Rosetown Airways Limited provides a charter service. Planes are privately owned. The field is suitable for the landing of light aircraft and is serviced with ground crew and service station.

POPULATION

Rosetown with a population of 2,050 has made rapid advancement in the last few years. It now ranks with the larger towns of Saskatchewan in population.

PUBLIC SERVICES

Rosetown has recently completed the establishment of a water and sewerage system costing approximately \$265,000.00.
Water is piped from Eagle Creek basin, six miles North of Rosetown on No. 4 Highway, to the water tower on the Northwest corner of Main Street. The sewage lift is built on the same lot

as the water tower and piped northwest to the disposal plant at Eagle Creek. Capacity of the well is guaranteed at 125 gallons per minute for a period of five years (capacity flow). To date thirty blocks of the town have been serviced.

LIGHT AND POWER

Twenty-four hour service is maintained by the Saskatchewan Power Corporation.

TELEPHONES

The Saskatchewan Government Telephones have made Rosetown one of their larger country centres, maintaining a large staff of operators and field workers (24-hour service).

FIRE PROTECTION

Rosetown has the record of being the Home of the Best Volunteer Fire Brigade in Saskatchewan. Modern spray equipment is used and sufficient hose has been procured to reach any building in town from the nearest hydrant.

FEDERAL BUILDING

A new Federal building has recently been completed. The main floor is taken up by the Post Office. Modern architectural designing has been used to create a building which ranks with the finest in the province. The R.C.M.P. barracks and court room are located upstairs.

HIGHWAYS

Rosetown is at the intersection of Highways Rosetown is at the intersection of Highways No. 7 (black top, Rosetown to Saskatoon and gravelled from Rosetown to Alsask), Highway No. 4 (gravelled Meadow Lake to United States boundary), Highway No. 31 (gravelled Rosetown to Kerrobert), Highway No. 15 (gravelled Rosetown to Manitoba border).

HOSPITALIZATION AND MEDICAL SERVICES

The Rosetown Union Hospital is in an excellent position to care for their many patients, having installed the latest X-ray and surgical equipment obtainable. There are five resident doctors and

obtainable. There are nive resulent doctors and a fully qualified nursing staff.

The Rosetown Clinic is located in the downtown section. There are three dental surgeons and two optometrists. Three drug stores carry complete lines, which enable them to fill all orders promptly.

EDUCATION

Headquarters for School Unit No. 43 is located at Rosetown, with a resident superintendent. Eighty schools in the outlying districts are under the jurisdiction of this unit. Bus transportation is provided for students living in the Eastern part of the unit.

COMPOSITE HIGH SCHOOL

The Technical school, with a staff of seven teachers, conducts classes in shopwork, woodwork, commercial, household economics, as well as all the academic subjects.

The public school has nine rooms with an addi-

tion under contemplation.

St. Joseph's Convent is a residential and day school and is under the direction of the Sisters of St. Joseph.

Rosetown is one of the Musical Festival centres and has some very fine local teachers.

#### RECREATION

As curling is one of the major sports of the district, Rosetown has a fully modern rink (7 sheets of ice). Several of the club members are past Saskatchewan curling champions. The 1950 title is held by Johnnie Franklin, Cliff (Skinny) Annable, Bill Heartwell and Harold Lloyd.

The skating rink is standard size. A figure skating club for juveniles is sponsored by the Rosetown Elks Lodge.

The Rosetown Community Hall and Recreation

The Rosetown Community Hall and Recreation Centre provides headquarters for the public library, town offices, basketball, badminton and

the dance clubs.

A black-top tennis court is under construction, sponsored by the Kinsman Club. A nine-hole golf course provides recreation for golf lovers.

The Lions Club swimming pool is enjoyed by all. There are dressing rooms, showers, a filtration plant, lunch bar, as well as instructors and lifeguards.

The Elks playground is complete with paddling pool for the younger citizens.

#### BASEBALL

Rosetown is the home of the Rosetown Legion Annual \$3,000 ball tournament, which attracts as (This is a two-day many as 10,000 spectators. tournament held annually.)

#### AGRICULTURAL SOCIETY AND TURF CLUB

Sponsors a race meet and agricultural fair in June of each year, the club holds a membership in the Mid-Western Racing Circuit. HOTELS

Two fully modern hotels meet the needs of the travelling public. For years these hotels have enjoyed the reputation of being two of the finest country hotels in Saskatchewan.

#### GENERAL INFORMATION

Rosetown derives its name from "Dad" Rose. At the age of 65 he left his home in England to make the long journey to Canada in order to file on a homestead. Being one of the first settlers in the district the first post office was named Rosetown. The pioneer settlers were mainly from Eastern Canada.

The soil is a Weyburn clay, consisting of a very heavy clay loam, well adapted to the growing of wheat, rye and flax. This district has seldom known a crop failure.

Two banks maintain branches at this point—

The Royal and The Bank of Toronto. The Rose-town Eagle is classed as one of the finest small town papers in Saskatchewan.

#### INDUSTRIES

The Hi-Way Refineries Limited have a large refining plant which is a decided asset to the

THE ROSETOWN WELDING & MACHINE COMPANY has been operating in Rosetown since 1947. The business was started on a small scale

with the idea of expanding through the northern territory. Adhering to the strict specifications of the welding trade was undoubtedly a prime factor in their rapid development. Their high quality work was soon given recognition and they are now recognized as the largest welding contractors in Saskatchewan.

An apprenticeship system has been developed whereby welders are given practical technical training in the shop through the winter months. training in the shop through the winter months. This training supplied through government schools has resulted in well trained mechanics and welders who are capable of expert workmanship. The Rosetown Welding & Machine Company now handles large welding contracts throughout Saskatchewan and the adjoining prov-

J. L. Swanson and A. E. Wing, partners in the company, are both holders of certified high pressure certificates and four of their present employees hold the same certificates.

Aluminum and stainless steel welding is one of their specialties. An Argonne arc welding unit has recently been purchased and their operators are fully trained.

Six portable welding units are used on contract work, while three stationery shop units are used in the Rosetown shop. Lathes and modern machine shop equipment greatly help to facilitate the work.

Steel fabricating and pipe welding contracts constitute the larger part of the business.

#### GRAIN SEED EXHIBITOR

Albert Kessel's Seed Farm is located twenty miles North of Rosetown. He is well known as a grain seed exhibitor, having taken the world's championship for rye, Chicago International Hay and Grain Show, 1949, and awarded the same at the Toronto Royal, 1949.

In 1950 he was awarded the world championship for barley and flax and reserve championship for rye at the Toronto Royal. He is now exhibiting in Chicago for the 1951 exhibition and has already taken the world championship for rye at the Toronto Royal, 1951. Albert Kessel was the only grain champion winner from Saskatchewan in 1950 and 1951.

katchewan in 1950 and 1951.

Albert K.Issel was born in Chicago, making his first trip to Canada in 1911. He filed on a homestead and later joined the Canadian Army in 1916. He was wounded at Vimy Ridge and returned to Canada. Deciding to devote his time and interest to farming, he took a course in field husbandry at the University of Saskatchewan. He is a patron member of Field Husbandry, University of Saskatchewan, and made his first grain exhibition in Chicago, 1947, at that time being awarded fourth prize for Apex wheat. Since that time he has been a consistent winner at Chicago and Toronto, as well as the Saskatchewan and Manitoba Provincial Exhibitions.

PARK SEED FARM, located five and one-half miles South and one mile East of Netherhill, Saskatchewan (S. 12, Twp. 28, B. 21, W. 3rd) is owned and operated by Clifford R. Jones, perhaps one of the best known farmers in the province of Saskatchewan, as he has had an outstanding success as a grower of Registered seed grains, especially Apex New Strain No. 2177 wheat, Royal flax and Victory oats. Recently he has been testing the Larain oat, which he feels has great possibilities and is seriously considering discontinuing the other varieties. Confident that he has found more good qualitites in this one oat than in any other variety, namely: first, early maturing; second, good yields; third, finest quality seed; fourth, excellent feed straw, and 5th, strength of the straw.

Clifford Jones became interested in the growing of Registered seeds during the early 1930's and settled down to GOOD FARMING. Notwithstanding the fact that 1937 was considered the dryest and "TOUGHEST" year Saskatchewan had ever experienced, that year Park Seed Farm showed a profit. From that time on things took an upward turn and each succeeding year has shown a decided improvement. From 1937 to 1947, Clifford Jones adhered to his policy of GOOD FARMING—BETTER CROPS, which enabled him to pay off all outstanding liabilities, pay the heavy farm overhead costs and still show a good profit on the right hand side of the ledger.

a good profit on the right hand side of the ledger.

Many interested people have questioned Mr.

Jones as to how it has been possible for him
to make such rapid advancement in such a short
period of time, to one and all he gives this
simple explanation, "Nothing but the best SEEDS
PROCURABLE, should ever be used by a Grower
or a Potential Grower, who wishes to succeed in
more than a mediocre way—PERSERVERANCE

—GOOD FARM MANAGEMENT—FAITH IN
THE SOIL and CONFIDENCE IN ONE'S
ABILITY TO REAP RESULTS are absolutely
necessary to receive greater returns and have
better yields. Study your land, learn to know its
potentialities and act accordingly." He further
states that light land can be made profitable
with a fall sown crop, eliminating to a large
extent the risk of frost and drought.

Clifford Jones has earned the title of Flax

Clifford Jones has earned the title of Flax King in the Kindersley and Netherhill Districts. He has done wonders growing flax on stubble, in fact he claims he can prove it possible to make as much or more with flax on stubble as with wheat on summerfallow. 1951—205 acres of Flax seed sown on stubble yielded 4,300 bushels, at the present market value that 205 acres is worth approximately \$20,000.00

the present market value that 205 acres is worth approximately \$20,000.00.

Park Seed Farm has gained an enviable reputation for good seeds. Orders come in from local customers so fast that it takes the greater part of his production. As it is possible for him to sell all his seeds direct from Park Farm he feels it unnecessary to go further afield, as this territory is well acquainted with his slogan, "Good crops are grown from Park Seeds". In 1948 he sold the record priced car of Registered Royal Flax for \$11,244.56. He has shipped seeds to all parts of Canada as well as overseas.

The Seed Exhibits made from Park Farm have been mostly to determine whether there were

The Seed Exhibits made from Park Farm have been mostly to determine whether there were better seeds available and if so they wished to procure them. Attending the various exhibitions serves to give one a better knowledge of seeds. Exhibitions of Park Farm Seeds have been made at Saskatoon, Toronto Royal and the Chicago International 1949. Many prizes have been awarded to Park Seed Farm; 1949 Toronto Royal; High honours were awarded on flax, wheat and oats. 1949 Chicago International; High honours were awarded on wheat and oats. 1st,

Park Seed farm consists of 1,760 acres. 1,680 acres under cultivation. This was all in Registered

acres under cultivation. This was all in Registered Seed in 1950.

Power farm machinery is used for all farm work including the latest Cleaning Equipment and Seed Cleaning Plant. All Seeds are processed on the farm. Eight miles of Park Seed Farm is in parkland, 40,000 trees have been planted, poplars, ash, elm, evergreens and carragana. Groves of trees surround the house, creating a magnificent vista of brilliant green through the summer months. The buildings are painted white with delft blue roofs, making a marked contrast to the green of the trees. A nine room, fully modern dwelling in which Mr. Jones has his private office is complete with electrical has his private office is complete with electrical appliances for every household need. A 32 volt, appliances for every household need. A 32 voil, 1,500 watt Onan Lighting plant supplies power for the farm. Water is supplied by filtered well from dugouts. The smaller varieties of fruit trees are grown, including plums and apples, raspberries, currants and gooseberries are abundant.

Individual granaries provide storage room for 25,000 bushels of grain. All important power equipment is housed in a large machine shed during the winter months, there is a three-car garage and an up-to-date farm work shop, as the majority of the repairs are taken care of at the farm. From two to four assistants are kept during the busier months. Three large vegetable gardens provide vegetables for the family the year round. Many write-ups have been given this model Saskatchewan farm. The Woodland World, Montreal, used an air view picture of Park Seed Farm giving 1st prize cash award for "The Shelter Belt System". The Bank of Commerce, Kindersley, presented them with a Silver Rose Bowl for Highest Grand Aggregate on Seeds, Kindersley Agricultural Show. Clifford R. Jones was born in England at Pembridge Castle, which just edges the borders of Herefordshire and Monmouthshire. Pembridge majority of the repairs are taken care of at the

of Herefordshire and Monmouthshire. Pembridge Castle was at one time the home of Oliver Cromwell.

Clifford's father, the late James M. Jones, was well-known in his native shire as one of the

best farmers in the County. He had large herds of Hereford cattle, Shropshire sheep, hunters and race horses.

Tales of the vast opportunities opening up in Canada lured his older brother Reg to the western

Canada lured his older brother Reg to the western prairie. He made the trip in 1911, two years later Clifford and his brother Harold joined him. Clifford spent the first few years around Netherhill, purchasing his first farm in 1918 consisting of 320 acres. This original tract is now a part of Park Seed Farm.

Clifford R. Jones is a member of The Canadian Seed Growers' Association. Member and patron of The Saskatchewan Field Husbandry Branch, University of Saskatchewan, Has served as Councillor for the R.M. of Hillsburgh No. 289. Has served on both the school board and the telephone board. He is representative for The Agricultural Local Improvement Association and Agricultural Local Improvement Association and for the local Wheat Pool Committee. Always willing to give of his time and services for the betterment of the community in which he lives.

ST. JOSEPH'S CONVENT, A RESIDENTIAL SCHOOL FOR GIRLS, is located at Rosetown, Saskatchewan, under the direction of the Sisters of St. Joseph.

The origin of the Sisters of St. Joseph dates back to 1648, when the Congregation of The Sisters of St. Joseph was founded by Henry de Maupas du Tour, Bishop of Le Puy-en-Velay,

LePuy, the capital of Velay, is a very ancient town built at the base of two volcanic needles of eruptive rock, Mont Corneille and Mont St. Michel. The cathedral (Notre Dame de Puy) is centuries old and of great interest to archaeolo-

October 15th, 1648, six volunteers were constituted into a religious institute under the name of The Congregation of The Sisters of St. Joseph. The cradle of the congregation was a refuge for

The cradle of the congregation was a refuge for orphans and homeless women.

The expansion of The Institute of St. Joseph continued during the opening and succeeding years of the eighteenth century. The districts of Velay-Forez-Lyonnais and Auvergne became dotted with hospitals, schools and orphanages, in which the Sisters continued to give their services to the needy. needy.

ROSE VALLEY

Saskatchewan

The French Revolution brought many changes. The Sisters, in order to avoid arrest, took refuge in caves, but were later discovered and thrown in in caves, but were later discovered and thrown in prison. Weeks and months of The Great Terror passed and the little group of sisters calmly awaited the death sentence, to which the judges of Robespierre had sentenced them. The Terror reached its climax in the summer of 1794 and reached its climax in the summer of 1794 and was brought to a sudden end by the assassination of the Tyrant on July 28th, one day before their execution. Nevertheles seven Sisters of St. Joseph in other localities were given the death sentence during the reign of The Terror, marking one of the darkest spots on the pages of history.

Despoiled of their convents, hospitals and property the Sisters were forced to start over again, with nothing but their intrepid spirits as

a foundation.

again, with nothing but their intrepid spirits as a foundation.

A new and brighter order began with the advent of Napoleon Bonaparte (1799). Under the guidance of Mother St. John Fontbonne, new mother houses were established at Chamberry, Annecy, Bourg and Bordeaux. In 1836 she sent the first band of Sisters to America. Their first mission was Cahokie, almost opposite the present city of St. Louis, Missouri. Floods and their attendant devastation caused them to move to their convents in St. Louis and Carondelet. Years of arduous work followed; overcoming obstacles was a necessity which had to be met in those early pioneer days. "We Sinais Climb and Know it Not," well befits their steady advancement. In 1851, The Congregation of St. Joseph was established in Toronto, Canada. Later convents and hospitals were built in the smaller towns. The following fifty years became a half century of progress. A new scholastic wing was added to the mother house, built in 1884, accommodating the rapidly increasing enrolment.

After the first World War attention became centred in the West. Convents were opened at Winnipeg, Manitoba, in 1919; Vancouver, British Columbia, in 1922.

#### ROSETOWN, SASKATCHEWAN

At the request of His Excellency Bishop Murray, first Bishop of Saskatoon, the Sisters of St. Joseph agreed to take over the Rosetown Convent Boarding School (1934).

Sister Mary Gabriel and her staff of three sisters left Toronto to open the first convent in the province of Saskatchewan.

Glancing back through the years to the orphanage set among the volcanic needles of Le Puyen-Velay, 1648, through the hardships of pioneer days in St. Louis and the equally arduous days of the nineteenth century, down through the

depression years in Saskatchewan (1930-1940), to the year 1951, marking the centenary of the establishment of the Sisters of St. Joseph in Toronto, one pauses to give credit to a magnificent undertaking. Looking toward Toronto, one finds St. Joseph's College School, with an enrolment of 800 girls; St. Joseph's new modern high school, serving the west end of Toronto; St. Michael's Hospital (650 beds); St. Joseph's Rospital (500 beds); Our Lady of Mercy Hospital (450 beds) for Incurables; House of Providence, Home for the Aged, with accommodations for 650; Sacred Heart Children's Village, an orhpanage on the new cottage plan, the first to be established in Canada. depression years in Saskatchewan (1930-1940),

age on the new cottage plan, the first to be established in Canada.

Some thirty thousand Sisters of St. Joseph, belonging to sixty mother houses, many of them far distant from the original scene, are today internationally known for their excellent work

internationally known for their excellent work as teachers, nurses and social welfare workers. St. Joseph's Convent, Rosetown, Saskatchewan (1951) bids fair to surpass some of the older centres as a residential school for girls, who receive the academic course of the province of Saskatchewan. (Department of Education) grades to the 12 inclusive also the academic accuracy of the 9 to 12 inclusive, also the academic course of the province, 1 to 8 inclusive.

MUSICE-INSTRUMENTAL AND VOCAL

Preparatory to the Royal Conservatory of Music, Toronto, and the Conservatory of Music, University of Saskatchewan.

Dramatics, oratorical and debating societies, sodality and Glee clubs inspire the students to greater efforts.

The school grounds are well equipped for all The school grounds are well equipped for all forms of athletics. The convent has every modern convenience, while expert dietetians supervise the culinary department, insuring their many charges of a well balanced diet, who thrive and grow strong in this peaceful, home-like atmosphere. ST. THERESA'S ROMAN CATHOLIC CHURCH

A drive has just been completed to raise funds

A drive has just been completed to raise funds for a new Roman Catholic Church and Rectory at Rosetown, Saskatchewan.

The drive has been very successful, \$100,000.00 being over-subscribed. Work on this new building will begin early in the spring of 1952. Frank J. Martin, Saskatoon, is the architect. Seating capacity, 500. As the convent chapel has been used for a church since 1928, this beautiful new church will meet a long felt need and will be greatly appreciated by all members of the parish. Constructed of cut stone and brick and located just north of St. Joseph's Convent and the Rosetown Union Hospital on Highways Nos. 7 and 4, this church with its modern architectural simplicity will be a credit to Rosetown.

#### ROULEAU WAR MEMORIAL

### ROULEAU SASKATCHEWAN

#### ROULEAU, SASK.

Population: 505.

A P.O. and Incorporated Town in S. 23, Twp. 14, R. 22, W. 2nd, in Moose Jaw Dom. Elec. Dist., Milestone Prov. Elec. Dist., Regina Land Reg. Dist., and Moose Jaw Jud. Dist., Mun. No. 130 on the Soo Line of the C.P.R., 30 miles southeast of Moose Jaw and 32 miles southwest of Regina. Has C.P. telegraph and express, Saskatchewan Govt. local and long distance telephones, good public and high schools. United, Anglican and Roman Catholic churches. There are seven elevators handling approximately \$50. are seven elevators handling approximately 850,-000 bushels of grain annually. The Canadian Bank of Commerce maintains a branch at this Bank of Commerce maintains a branch at this point. There are three garages, Co-Op Oil, five farm Implement agencies, drug store, dental surgeon, locker plant, three grocer and general stores, hardware, electrical shop, tinsmith and plumbing, hotel, two cafes, theatre and many other places of business which meet the needs

of this thriving community.

Rouleau has a Municipal owned waterworks, which has more than paid for itself in reduced insurance premiums, an abundant supply of water is available at all times, a large amount of which is supplied to the C.P.R. for use on the Soo Line. A standard sized curling rink (3 sheets of ice) and a new enclosed skating rink which has recently been completed at the cost which has recently been completed at the cost of \$27,000.00 provides recreation for the town and district. Three mink and fox ranches are located here, two on the town site and one adjacent to the town.

The C.P.R. steel was completed to this point in 1899. Rouleau was incorporated as a town in 1906, deriving its name from Judge Rouleau, in 1906, deriving its name from Judge Rouleau, well known throughout this area in the early days. He was appointed a Stipendiary Magistrate for the North West Territories in 1883, with residence in the Battleford district. He was also an ex-officio member of the Northwest Council. There is an oil painting of Judge Rouleau in the court house at Regina.

RESOURCES-Rolueau has long been considered one of the best wheat growing districts in Saskatchewan.

## BIRD'S POINT RESORT

ROUND LAKE

SASKATCHEWAN

18 Miles Northwest of Whitewood 14 Miles Southwest of Stockholm 130 Miles North of the United States Border

- A fisherman's paradise and a grand place to spend a vacation.
- Fishing: Unexcelled in any other lake in the Qu'Appelle Valley.
- Government replenishment spawning ground in marshes of Round Lake.
- Fishing excellent Spring and Fall
- Good Duck Shooting Sandy Beaches Boating

Enjoy Dancing at the Bird's Point Pavilion

Wall Eves

Northern Pike

Perch

#### ROUND LAKE, SASK.

A Summer Resort in S. 22, Twp. 18, R. 3, W. 2, in Melville Dom. Elec. Dist., Saltcoats Prov. Elec. Dist., Moosomin Land Reg. and Jud. Dists., Mun. No. 183. Elevation 1,448.3, 14 miles S.W. of Stockholm which is the nearest postoffice, telegraph and express and 18 miles northwest of Whitewood, which is the nearest bank. 130 miles north of the U.S. Border on Highway No. 9, Port of Entry, Northgate, Saskatchewan.

Round Lake is one of the most picturesque Lakes of the Qu'Appelle Valley and is a part of the Qu'Appelle river; fed by many springs, the fresh clear water makes an ideal home for the muskelonge, wall eyed pike, perch, northern pike and tullabees, which abound in this lake. Fishermen from the States and Eastern Canada visit Round Lake annually to fish in these northern waters, while wild ducks, the Canada Goose, Partridges and Ruffed Grouse bring hunters in the fall of the year to enjoy the open season. The Chinese ringneck pheasant was introduced in 1939 and are now becoming quite plentiful. Jumping deer are yearly becoming more plentiful. Raspberries, strawberries, black currants, Saskatoons, high bush cranberries, pin cherries and choke cherries are found in abundance.

#### ROWATT, SASK.

W. J. THROWER, of Ruddell, Saskatchewan, has a unique hobby in his famous Gladiola Garden. Located in The Village of Ruddell, Saskatchewan, just off No. 5 Highway.

His father, the late William Thrower was a pioneer settler of The Ruddell District having

filed on a homestead in 1907. J. W. Thrower or "Jack" as he is known to his friends was only a lad of nine years when his parents moved to Saskatchewan. At his father's death in 1948 Jack took over complete management of the home farm, which consists of 720 acres all under cultivation. In 1920 a station agent of the C.N.R. brought in several varieties of "Glads" which turned out to be the starting point of Jack Thrower's hobby. The first dozen bulbs he planted produced magnificent blooms, which increased his interest to a point where he decided to acquire further knowledge regarding horticulture. His first step was to become a member culture. His first step was to become a member of The Canadian Gladiola Society, which he culture. His first step was to become a member of The Canadian Gladiola Society, which he feels was very wise, as it has contributed much to his work, especially in the choosing of varieties of which he now cultivates forty-seven. With care and perservance The Thrower Gladiolas have become known throughout Saskatchewan and the 10th of July usually finds the plants beginning to bloom. Flowers are then obtainable until freeze up. In 1950 12,000 bulbs were planted and The Thrower Glads were awarded two ribbons at The Canadian Gladiola Show held at Calgary, Alberta, in August, 1950. Trophies and ribbons have also been awarded The Thrower Glads at North Battleford, Saskatoon and other horticultural shows. While the garden is primarily a hobby, any one wishing to purchase bulbs are always given courteous and prompt service, as Jack Thrower feels that more "Glads" should be grown in Saskatchewan and is willing to give of his time and knowledge to make this possible.

To Saskatchewan residents and visitors from To Saskatchewan residents and visitors from outside the province whether on vacation of business, be sure to stop at Ruddell which is just twenty-two miles southeast of North Battleford on Highway No. 5 and enjoy one of the loveliest sights in Saskatchewan, 12,000 magnificent Gladiolas in bloom.

#### MOOSE JAW, SASK.

Population, 25,000

Moose Jaw is the third largest City in the Province of Saskatchewan. In S's 4-9-28-38, Twp's 16-17, R. 26, W. 2nd. In Moose Jaw Dom. Elec. Dist., Prov. Elec. Dist., Land Reg. and Jud. Dists., Mun. No. 161 on the C.P.R. and C.N.R. Railways and is the terminus of the Soo Line, providing direct connections with Minneapolis-St Paul and Chicago. Moose Jaw is 44 miles West of Regina and is the Grand Divisional Point for the C.P.R. Has C.P. and C.N. telegraph and express, Saskatchewan Government local and long distance telephones. Travel by air is handled by the Canadian Pacific Air Lines and Aviation Services Ltd. The Greyhound Bus lines provide transportation service East and West, while The Saskatchewan Transportation Bus Service covers other points in the Province. Nine branch lines of the C.N. and C.P.R. radiate from this centre to out-lying rural communities.

#### "The Friendly City"

LOCATION: Moose Jaw is an attractive City with handsome buildings, well laid out and wide streets. With its scenic parks and the beautiful valley at the confluence of Moose Jaw River and Thunder Creek forming a picturesque setting, Moose Jaw is truly the most charming City in the Province.

The City is located in the geographical East-West centre of the Province of Saskatchewan, 100 miles North from the International Boundary, 375 miles by air from Winnipeg on the East and Calgary on the West. It is 44 miles by road West of Regina, the capital of Saskatchewan, and 163 miles South-East of Saskatoon, the University City. The area within the City limits 9,760 acres and the elevation is from 1,778 to 1,840 feet above sea level.

The first settlers arrived in the Spring of 1882 and the Canadian Pacific Railway reached Moose Jaw in the Fall of the same year. In 1884 Moose Jaw was incorporated as a town and in the decade which followed the town increased rapidly in population and importance and on the 20th of November, 1903, it was raised to the status of a City. The 1901 census gives the population as 1,558 and the last official census taken in 1946 was 23,069.

HISTORY: There are a number of legends concerning the origin of the name Moose Jaw. One is from the Indians. This Indian name is variously spelled "Monsochapiskanissippi" or "Moosichapiskanissippi". Another legend is that the spot was so named because the course taken by the River that runs through the City resembles the outline of the jawbone of a moose. According to the Geographical Board of Canada, Moose Jaw derives its name from the Moose Jaw Creek which was reached by Captain Palliser on September 16th, 1857, who found a Cree encampment on the site of the City. In fact, the name became accepted usage and was found on Captain Palliser's map lithographed by John Arrowsmith in 1859. The H. Y. Hind expedition map shows the location as Moose Jaw Fort. This map was published in 1859. In the same year the S. T. Dawson map published by the Legislative Assembly, Toronto, shows the location as "Jaw Bone River". The Geographical Board's report states that the name is popularly derived from a supposed Indian name which means literally, "the place where the white man mended the cart wheel with the jawbone of the moose". The white man, according to the report, is variously named as Lord Dunmore and the Earl of Mulberry. This legend is dismissed, however, by the crisp notation "No evidence to support these traditions can be found".

The early development of the City was primarily as a railway centre and its most important railway works are still one of its staple businesses. It is the headquarters in the Province of the Canadian Pacific Railway Company, and visitors arriving in the City over that Company's lines cannot fail to be impressed with the magnificent depot which the C.P.R. has provided for the use and convenience of its patrons. Here also are the Company's splendid office buildings and the terminus in Saskatchewan of the Soo Line running direct to Minneapolis, St. Paul and Chicago. The City is also an important divisional point on the Canadian National Railway, and some of its most prosperous territory is reached from the City.

INDUSTRIES: Moose Jaw is the leading industrial City in the Province of Saskatchewan. The staple industries of Moose Jaw are in a very large measure based on the natural products of the area tributary to it. In addition to the large repair shops and yards of the C.P.R., there is the large plant of the Robin Hood Flour Mills with the daily capacity of 3,750 barrels of flour, 1,200 barrels of rolled oats and an elevator capacity of 1,750,000 bushels. The Dominion Government storage elevator has a capacity of 5½ million bushels and the plant of the Saskatchewan

Seed Growers, 16 storeys in height, sends out pedigree seed all over the world.

The British-American Oil Co. are now operating a modern oil refinery with a capacity of 4,000 barrels per day.

The Swift Canadian Co. operates a large packing plant with a capacity for 9,000 hogs per week, and 3,000 cattle per week. It is of interest to note that if all the hotdogs made here in one year were put end to end they would be the state of the state o stretch from the Atlantic to the Pacific. The Southern Saskatchewan Co-operative Stockyards are the second largest in Canada West of Winnipeg and have yard capacity for 7,000 cattle, 3,000 hogs and 10,000 sheep. There are also four important creameries, a millwork, foundry, bag factory, and a large number of other industries located in Moose Jaw.

Light and Power: Electric light and power is supplied by the National Light and Power Company Limited. It produces 50,000,000 kilowatt hours of energy per year. If all this energy were put in use in one hour's time it would lift a weight of over 600,000,000 tons a height of one foot or would keep a 60 watt bulb burning for 95,000 years. It serves—besides Moose Jaw—Arcola, Fort San, Assiniboia and Shaunavon, and can supply current to Swift Current if necessary. The plant circulates 12,000 to 20,000 gallons of water per minute for cooling purposes. It uses Saskatchewan lignite coal and burns coal and oil together. The plant consumes the equivalent of 175 to 200 tons of coal a day. Light and Power: Electric light and power is

Moose Jaw secures its water from the South Saskatchewan River, through a canal 70 miles in length. The capacity of the pumps at the river is 15 million gallons per day and delivers to the City three million gallons daily.

HIGHWAYS: Moose Jaw is located at the intersection of three all-weather highways and forms an excellent base for tourists desiring to visit the many parks and other places of interest in the Province No. 1 Trans-Canada highway takes the traveller across the Province from Manitoba to Alberta; No. 2, the highway from the United States boundary to Prince Albert National Park, and No. 39 highway following the Soo Line Railway, terminates in Moose Jaw and forms a short direct connection from the City to North Dakota. The City has a municipal airfield which is a customs airport. The Canadian Pacific Airlines operates out of Moose Jaw to points North. Moose Jaw has an up-to-date bus depot from which Saskatchewan Government and Greyhound buses operate in all directions. HIGHWAYS: Moose Jaw is located at the inter-

EDUCATIONAL FACILITIES: The educational facilities of the City are excellent. There are ten public schools, two collegiates or high schools, two commercial or business colleges, two residential colleges and one Normal School for the training of teachers.

There are many fine churches in the City, notably St. Andrew's United Church which has the largest auditorium in Western Canada, Zion United Church, St. John's Anglican Church, St. Joseph's Roman Catholic Church, Knox Presbyterian Church, Baptist, Salvation Army, Christing Science, etc. Christian Science, etc.

HOSPITALIZATION: Moose Jaw has two splendidly equipped and thoroughly modern hospitals; namely, the Moose Jaw General Hospital and the Providence Hospital.

Y.M.C.A. and Y.W.C.A.: Both the Y.M.C.A. and Y.W.C.A. have well-equipped buildings in Moose Jaw and the work of these organizations is under capable and efficient management.

FIRE PROTECTION: The City has a fully motorplaton system, a free Public Library, a radio station known as CHAB, operating on 5,000 watts, and one daily newspaper—the Moose Jaw Times-Herald.

RECREATION: The City of Moose Jaw is noted for its many beautiful parks. There are six public for its many beautiful parks. There are six public parks in the City, the largest being River Park which is 110 acres in extent and is a natural park heavily wooded with maple, ash, elm and many other trees, through which flows the Moose Jaw River. In this park will be found a modern tourist camp, bathing beach and public play-ground for children. There are also a number of other smaller parks and playgrounds situated in the City. Crescent Park, 28 acres in extent, situated near the centre of the City, is a place where the tourist and visitor can spend many a pleasant hour viewing the sunken gardens, artificial lake, rustic bridges and the wonderful a pleasant nour viewing the sunken gardens, artificial lake, rustic bridges and the wonderful growth of trees and perennial shrubbery. In it is located the Public Library, Moose Jaw Natatorium, a children's playground and wading pool, and a very lovely war memorial.

ing pool, and a very lovely war memorial. There is much to do in the way of entertainment in Moose Jaw—the City being equipped with two well-kept 18-hole golf courses, a tennis court, badminton club, bowling alleys and three modern theatres. One of Moose Jaw's most interesting assets is the Wild Animal Park situated two miles South of the City in the valley of the Moose Jaw Creek. It is 480 acres in extent and is the only park of its kind in Canada. This park is not a zoo but a place where animals are allowed to live their own lives as much as possible. It is the home of a splendid and growing collection of animals and birds some of which are buffalo, deer, sheep, elk, yak, fox, wolf, peacock, monkeys, bears, a lioness and coyotes. lioness and coyotes.

SHOPPING: Moose Jaw's retail stores are many and modern catering not only to the residents of Moose Jaw itself but also to customers from far beyond the confines of the City.

cities in the three Prairie Provinces which offer modern hotel and tourist camp accommodations to the traveller or the tourist, none is more outstanding than Moose Jaw.
